hidden from view as aforesaid, as well as repairs on such covered work, made in cases of great emergency, shall be reported to the said Inspector of Buildings within twenty-four hours from the commencement of the same; and if, upon inspection by the Inspector of Buildings, such work for which no permit was required shall be deemed by him to be unsafe, he shall so notify the owner or person using the same, or in charge thereof, and the use thereof shall cease at once.

Work in emergency.

SEC. 3. Be it further ordained, That the said Inspector of Buildings at the proper time after the issue of the permit provided for in preceding section shall, through the inspectors provided for in this ordinance, make a careful inspection of all wires, coverings, insulations, cut-outs and protective devices and of all apparatus and material of any character used in such installation on said highways or within such building or premises, and in so doing shall have the power to remove any obstruction or obstructions such as laths, plaster, partitions, flooring or such like as would otherwise interfere with the proper inspection of the installation.

Inspection.

SEC 4. Be it further ordained, That the said Inspector of Buildings is hereby authorized and directed, and it shall be his duty to inspect or cause to be inspected thoroughly and properly all electrical wires and apparatus now on any of the highways or now in or on any buildings in the City of Baltimore, and if any such wires or apparatus are discovered to be in such condition, either as to material or manner in

Work inspected.

which constructed or installed, as to be dangerous to life or property, the said Inspector of Buildings shall notify the owner of such wires or occupant of such building who uses such dangerous equipment to have the defects remedied within a reasonable time, such time not to exceed ten (10) days from date of notice, and it shall be the duty of such owner or occupant to comply with such notice. The said Inspector of Buildings is further authorized, if in his judgment it shall be necessary for the protection of life or property, to give notice to the person, firm or corporation supplying the electrical current to such dangerous equipment, to discontinue the supply of current until defects in the equipment are remedied to the satisfaction of the Inspector of Buildings, and the same shall be discontinued at once, and the Inspector of Buildings is hereby empowered to cut such wires if in his judgment the same shall be absolutely necessary for the protection of life and property.

Notice.

SEC. 5. Be it further ordained, That after the Inspector of Buildings shall have made an inspection of the electrical wiring and apparatus now in use upon any building or other structure in the City of Baltimore, including the apparatus and means of introduction of the electrical current into such building or other structure, as contemplated in the fourth section of this ordinance, and shall find the work safe, the said Inspector of Buildings shall deliver to the person or persons, firm or corporation using such current, a certificate showing that such inspection has been made.

Certificate.
