Thomas Sim Lee Esqr.

London 16. April 1774

Sir

Being induced by many strong recommendations to send Capt J. T. Boucher to Load Tobacco to our address in Potowmack, where we are informd you have some connexions we take this opportunity of soliciting the favour of your assistance to load his Ship assuring you that nothing in our power shall be wanting to give you Satisfaction — Capt N. Richardson will sail this Week in the Mary to Load for us in Patuxent to whom your further assistance will be esteemd an additional Obligation —

The Tobacco trade is a Business we have been long acquainted with & we flatter ourselves that our connexions in that way give us an opportunity of doing as well for our Friends in the Sale of that Commodity — as any body in that Trade can have —

And with respect to any Goods that may be ordered in return we shall be careful to lay them in on such terms as we have no doubt will give Satisfaction to our Friends by giving them every emolument that can arise from Tobacco or Cash in hand —
