Dr Sir

I have left twenty eight pounds four and two pence in the hands of Mr George Digges, for the use of my Father, which he has promised to forward to your care together with this by the first safe opportunity. I should esteem it as a favor, if you would forward it to Phi:ladelphia by some of your acquaintances going thither, unless you think it will not be in time before my Father's departure from that place. In which case I beg you will be so obliging as to keep it, till his arrival at Annapolis. I hope you will excuse me for giving you this trouble, beg you will present my respectful compliments to Mrs Lee & am

D Sir
