might be made by our accepting the Offer, but I believe they never offered to pay that Sum certain — I understood it merely as an Inducement for our accepting their field proposal. If it was mistaken, the nature of our Engagement to Warder precludes our Settling the dispute in any manner so as to limit him ourselves to other persons, nor have we any Obligation upon him to take less than the full Sum stipulated in our Bond when the Suit is ended — so that no Agreement of that Sort suggested by you would be safe for us without making him a party to it & cancelling our Bonds — I read a Letter from him the other day begging for the Interest and a part of the principal in this Application he is early and I will write him so, as he gave me no an Obligation to suspend any proceeding on Claim under the Bond until the Suit should be finally terminated. Upon more mature Information that my self in this Business, I proposed to well to apply to Mr. Hall & get him to go over the papers and in addition to the Summons issued to last Court & now to be renewed and a Summons for such persons as appear on the deeds to be wanted; and I'll procure attested Copies of your Deeds from the Clerk of Washington & have the Summons served — Messrs Jacques & Hindman attested the power of Attorney in Conopi deed — Thomas Brooke of Washington caught

who summoned, I don't know that he was last Court — There is a Copy of Our Adversaries deed among the Papers but it is not under Seal, if that could be sent to me, I'll get it officio. Sealed added — Mr. Hall thought it might be wanted —

I write as seriously as you can do to be clear of this Business, & if I thought there was a prospect of it, I should certainly encourage it —

The family unite in respectful Compts to Mrs Lee with

Yours sincerely
