The Kent News.

SATURDAY - - - - - FEB. 15, 1879

THE Baltimore *Gazette* says the Republican papers begin to see the crushing force of the logic of the cipher dispatches are feebly trying to resist the inevitable conclusion. The New York *Times* has a labored editorial to prove that the electorial votes of South Carolina and Florida could not be purchased. Now the whole meaning of the cipher telegrams is that they were for sale. The charge against Gramercy Park is that it dickered with the men who offered to sell the Presidency. The cyphers, if they prove anything, prove that Gramercy Park received an offer to sell. There has been no evidence of an offer to buy. Tilden says that his sole action in the matter was to repulse the offer to sell and this is corroborated by the fact that he didn't buy. The Republicans have now become conscious of the state of the case. They have proven in detail that the electoral votes were for sale. It is a matter of history that Tilden did not buy. It is a matter of history that Hayes received the vote. It is equally a matter of history that the electors got offices as rewards for giving the vote to Hayes. There is an iron logic in these events and the conscience of the New York *Times* is sufficiently sensitive to feel it. Hence its defense of the purity of the electors. Up to this time, however, the *Tribune* shows no sensibility upon this point. Perhaps its whooping and throwing up of mud is to allay the voice of conscience.

A HORRIBLE SUICIDE.—Louis Stallings, fifty-five years of age, a brick-maker by trade, residing at number 772 West Pratt street, Baltimore, committed suicide Sunday morning by blowing his brains out with a shot-gun. At a-quarter of 11 o'clock he went up to the back room on the third floor, where he had the gun all loaded and ready for action. Taking off his right shoe and stocking, he fastened a string to his great toe, and the other end of the string he tied to the trigger of the gun. Then he bent down his head and put the muzzle of the gun in his mouth, and with a downward movement of his foot pulled the trigger and entered into eternity. He put the gun so far into his mouth that not one of his teeth was injured, and his face was in no way disfigured. All the back part of his head was blown out, and his brains was scattered about the lumber in the room. For some time past he has been out of employment and had been peevish and fretful. For several weeks past his conduct is said to have justified the suspicion of mental aberration, and all who knew him think he must have lost his mind. He was not in need, and left a bank book showing $800 deposited in bank.—*American.*

THE RIGHT VIEW.—The Louisville *Courier-Journal* reports General Wade Hampton as saying: "I am convinced that we can win in 1880 if the Democratic party of the Union will have done with men of expediency, and learn to toe the mark squarely and fairly on established principles, and I know no better school than the old line Jackson Democracy. A constitutional rule--self-government--and no sectionalism, should be the sum and substance of our platform, filled by good, honorable, trusted and tried standard bearers. It matters not whether they be from the East or the West. I have no patience with an Eastern Democracy and Western Democracy—a Northern Democracy and Southern Democracy. It is no Democracy at all that is not as wide as the whole country. Until we can find an Eastern Constitution and a Western Constitution or Northern or Southern Constitutions of the United States, let us have done with this sectional Democracy which means, and ought to mean, certain defeat."

THE GREATEST BILLIARDS ON RECORD.—The game of billards at New York on Friday night, between Schaefer and Slosson, by which the former won the championship, was the most remarkable game ever played in this country. Both winner and loser made higher averages than ever before made, Schaefer's being 85 5-7 and Slosson's 81 4-7, and the latter scored the largest score on record, 464. This wonderful run was made on the sixth inning, and at its close the score 550 for Slosson to 19 only for Schaefer, who, in the face of these tremendous odds, went as calmly to work as if nothing had occurred and made a run of 283 points, following in the next inning with another of 298, with which he completed his 600 points and the game. Slosson is a New York State man by birth, but of Chicago adoption, while Shaefer is a Milwaukee boy.

MR. MOODY REFUSES TO RECEIVE $30,000.—Mr. Dwight L. Moody, the Evangelist, has been accused of receiving large sums of money from various sources, principally by the sale of his hymn books. He has repeatedly stated that these assertions were false, and on last Tuesday his truthfulness was fully established. The publishers of his hymn books, in England, sent him a draft for $30,000, being the amount of royalty due him. The check for the amount was at the Farmers' and Planters' Bank, in this city, and Mr. Moody refused to accept it. The money will be returned. Mr. Moody says he does not preach to make money, and clearly showed it by the refusal of the above amount of money.—*Balto. Herald.*

CAPT. PAUL BOYTON, who entered the Alleghany river at Oil City, Pa., Thursday morning week, with his life-saving suit, arrived at Pittsburg at 3.30 P. M., yesterday, and was greeted enthusiastically by 50,000 people, who lined both sides of the river. He had expected to make only one stop during the whole trip of 132 miles, but the weather was so severe that he stopped at three points. He swam 43 miles Thursday, 35 Friday, 27 Saturday and 27 Sunday, and was in the water 41 hours. He was greatly exhausted and suffered extremely from the bitter cold.

MAJOR RENO, in testifying in his own behalf before the Court of Inquiry at Chicago, Saturday, stated emphatically that it was not cowardice that caused him to move from the timber on the hill in the battle of the Little Big Horn. He was pressed as to his opinion of Custer and finally confessed that he had no confidence in him as a soldier, but his relations with Custer were friendly. Had his own brother been with Custer he (Reno) could not have done differently. He would do the same again under similar circumstances.

THE marriage of a young Marylander in Kansas City on Wednesday, December 18th, is said to have been quite a brilliant affair. Mr. Harry B. Slaughter wedded Miss Nettie E. Greeno, the only daughter of Dr. Greeno, one of the leading physicians of Kansas City. The groom is the youngest son of the late H. B. Slaughter, founder of the Chester river line of steamers. Although but twenty-two years of age, and in the West but two years, Mr. Slaughter has already established a most successful grain and banking business.—*Baltimorean.*

MR. TILDEN TO BE VINDICATED.—A New York letter states that a public meeting is shortly to be held in Cooper Institute in that city, to "vindicate Mr. Tilden from the dishonor sought to be cast upon his name by his political enemies," and to prepare an address to him, assuring him of "the unabated confidence of his fellow-citizens and friends." Part of the programme is to have a procession march from Cooper Hall to Gramercy Park, to present the address in person.

THE locomotive built by the Philadelphia and Reading Railroad Company and placed on exhibition at the Paris exposition, has been tested on several French and Swiss railroads with remarkable success. It is now in Switzerland, being the first American engine ever seen in that country, where its demonstrated saving of 18 per cent. in the consumption of fuel is a matter of great importance. It will be taken to Italy for exhibition and experiment there

THE authors of the arrearages of pensions bill have been frightened since its passage by the announcement that an enormous sum, probably $100,000,000, will be required to pay the demands likely to be presented under its provisions. They lack the courage to propose the repeal of the bill, and in order to escape in part the consequences of their rashness now propose to limit the payment during the current year to $10,000,000.

MR. CONKLING gets but little comfort in this, the hour of his sore affliction, from the Republican papers. The New York *Times* says his defeat, in a contest into which he carried rather more than the usual amount of abusive vehemence, may serve to remind him that tact and moderation are quite as necessary qualifications of the successful politician as the power of invective or the trick of calling names.

A CALL FOR HAYES.—Now that Samuel J. Tilden has been heard from, let Rutherford B. Hays be called to the stand by the enterprising gentlemen of the Potter committee. The fact is established that the presidency was for sale, and that it was sold. The country would like to hear what Mr. Hayes has to say in his own defence. Call Rutherford B. Hayes. *Philadelphia Times.*

MR. WM. ASTOR has instituted a suit in the Supreme Court of New York to test the question whether the customs authorities can legally collect duties on effects imported by passengers from Europe for their personal use. Mr. Astor arrived in the Germanic on Sept. 22, with a quantity of silverware and clothing that he declared to be for his personal use. He was required to pay $1,880 duties.

THE committee to examine a site for the new post office in Baltimore, have reported in favor of the lot between Baltimore and Fayette streets, and Holiday and North streets—the lot in front of the new city hall. Mr. Kimmell has introduced a bill in Congress appropriating one million of dollars for the purchase of the site and the erection of the building.

MEXICAN VETERANS.—A feature of the coming celebration of Washington's birthday in Baltimore will be the annual convention of Mexican veterans, to which delegations are expected from various parts of the country, and an address will be delivered by Hon. Richard T. Merrick, of Washington.

THE cipher investigation brings out in a striking manner the fact that three Southern Returning Boards were offered for sale, and that the Democrats did not buy any of them. That the Republicans purchased the whole lot is abundantly proven by the President's appointments since.

IT seems that the State of Massachusetts hasn't heard of the adoption of Edmunds' resolutions affirming the validity of the Constitutional amendments. A barbarous skating-rink proprietor in Worcester has been sued for denying the colored people the right to skate and perspire and flatten their noses in his establishment.

MRS. FANNY HAMILTON, of Wilmington, Del., was born near Greensborough, Caroline county, Md., February 8, 1780, and was consequently 99 years old Saturday. She has had but one spell of sickness in her life, and has taken but one dose of medicine.

THE draft of negro laborers to Texas has impelled the Legislatures of Alabama and Georgia to impose a license tax of $100 upon every person soliciting people to emigrate from those States.

THE Belair *Intelligencer*, in noticing the return of Hon. Robert M. McLane from his European trip, says: "Mr. McLane is one of the ablest men in Maryland and will do credit to our State in Congress."

MACHINERY HALL, on the Centennial Grounds, which originally cost $800,000, was sold at auction Saturday. There were only five bidders, and it was knocked down to W. C. Allison & Co. for $25,000.

SIX men were buried alive at Kansas City on Tuesday while excavating a deep railway cut by the banks ninety feet high, caving in upon them. Four teams were also buried.

A SON of A. C. Lowery, of Kent Island, stepped backward into a pot of boiling brine a few days ago and was scalded to death.

A Handsome Income

For an Energetic Lady or Gentleman. The Ohio Scale Works of Cincinnati have just completed and are now introducing to the public a handsomely finished Family Scale, an article that has always been needed in every household, and in a communication addressed to the publishers of this paper the proprietors ask us to refer them to some reliable party, to introduce it for them to the people of this county. It is very seldom that a new article steps so suddenly into universal favor.—Housekeepers are loud in its praise, it is always ready, there are no weights to get lost or to be hunted up, is reliable, and will not get out of order. The description of them is a handsome base surmounted by a column in which works a spiral spring so scientifically adjusted as to weigh anything up to twelve pounds with perfect accuracy. On the top of the column is the platform on which the articles to be weighed are placed, and they have an adjustable indicator so that you can take the tare of any vessel you may use in weighing, giving you the exact net weight. Housekeepers at once see their value in weighing fruits, sugars, &c., in preserving, cooking, &c., or in testing the weights of purchases.

The Scales are made of all brass, are highly polished and are finished in a skillful manner.

They are very attractive and take the eye of every one who sees them.

It seems to us that nearly every family in Kent will want one, and is certainly a rare opportunity for some smart and energetic party to pick up a nice little income. Agents in other counties easily make from $5 to $6 per day selling them, and parties in need of employment should drop the OHIO SCALE WORKS, No. 125 and 127 Central Avenue, Cincinnati, O., a Postal Card, and all information, etc., will be cheerfully given them by mentioning this paper. fe8-4t.

In the Whole History of Medicine

No preparation has performed such marvellous cures or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ.—Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. FOR SALE BY ALL DEALERS. 2

Delinquent Tax-Payers

Of the FOURTH DIST.,

ATTENTION!

YOU MUST agree with me, that the Taxes you owe the State and County were due the first of January and are now over due. What are you going to do about it? If nothing, that will not be my programme. The law demands of the Collector "that he shall proceed to collect thirty days after the tax-books are in his hands." The process of collecting is short, sharp and decisive; as you know, I have been slack in the use of it; but patience has its limits. In February (and not late in February) I shall commence collecting by process, selecting tax-payers from the list by lot, without regard to race or color. You have your warning. Look to it. J. R.
