892

Virginia Westm.d County July 29.th 1784

Dear Sir

Since I last wrote to you I accidentally met with a Law making provision for the Conveyance of Lands by persons living in other States made as far back as 1776 which my Lawyer had over looked - I have extracted so much of it as respects the mode of conveyance from Mr. Buchan and yours of to me and inclosed it - I flatter myself my Dear Sir that you will have the conveyance made as soon as possible as I dislike some difficulties in getting a division of the Land. The deed I left with you I believe was a good one - if it should be deemed necessary from the mode fixed for the conveyance or convenient to yourselves to have a parcel Deeds - be kind enough to have them drawn, which I conceive may be done without making any material alteration from the one left with you

I think Sir you told me when I was with you that you had both the wills under which you held the land - these I find it absolutely necessary for me to have therefore by that of those in your possession are either the originals or attested Copies that you will favor me with them as soon as possible if you have not got them let me beg you will procure them for me ~~as soon as possible~~ and forward them the first opportunity

With Compts to Mr. Lee and my Cousin

I am Dr Sir

your most obed: Servant

S Shepherd

The Hon.ble Thomas Lee Esq.r

Westmorland County

Virginia
