Mr Ringgold Sept. 21. 1802.

Dr William — Of the 75 dollars paid by Mr Peck you may pay to yourself the 50 you lent me & the remaining 28 you may send me by the first safe private hand. Mr Key and Waring should not be so much distressed for money on my acct. I do not know what to say to Mr Ringgold's bank business as he is not to hand in a few days. I expect Mr William's death. Poor man! when this gets to hand Charles should do something in it — when he gets it he must immediately begin seeding Wheat — he must take his 2 or 18 Hours & put one peck of Plaister to a bushel of Wheat as last year. Let Tilly & Jerry cradle in Harvey & Clay for the swelling of the grain & the plaister will not — If Mr Peck proposes to take the Farm for a longer time 3 or 6 months on the same terms I will allow it to pass — rather than you may let him have it that is provided you can't sell it — I also — one thousand pounds is the price — 30 feet front, that the ground the House stands on & 150 feet running on the street & in the depth 120 feet — or rather Mr Chandler laid it off with a depth of 100 feet — unless a Bernard should begin on the 15th of Oct. if he can't be allowed to have it sooner —

Yrs affectionately

Geo. Ringgold
