take it away for manure, which was my intention but I delayed it till I was determined to sell the farm & then there was not time for doing it - the Mr. was not entered on the Inspr. Books as Newton informed me, therefore I have nothing to pay ~~the~~ but was left free from me to take it away when I pleased -

I left a Cask of good Vinegar in Mr. Stoddert's Cellar which I should liked to have had brought up - Vinegar is scarce here this year & good never to be had, it is essentially necessary in a large family -

I hope you have not disposed of it - I have been told that Mrs. Edwell applied to you to sell it to her. I would not have done it on any account - I must recollect ~~the~~ ale I used of Pepi's Cheero, I thought it was intended when I wrote but since Mrs. Malcolm & Mrs. Jos. Smith have led me to think highly of its quality - this such a warm nothing but age to make it excellent.

My love to Aunt & Mr. Reinwood & the Children & believe me to be yr. sincerely affect. Parent

Thos. L. Lee
