I assure you my hopes in that quarter have ~~never been the least sanguine~~ - say that ~~they once were~~ they would naturally become less so daily - knowing that she will now be surrounded by all the Beauty in the place - How comes it that my friend Mr. Gore has again returned to the City? it is not her Husband surely that is Elected a Director of the U. S.? Should you have an opportunity of seeing his soon, present my compts. to her and the Goldsborough's - and the Miss Worthingtons. I have annexed an extract from a letter I received last night from my friend Genl. Van Cortlandt which I presume will be pleasing to him - I shall be proud and pleased to hear from you at all times when you are inclined - and much gratified if I can be of any service to you in this quarter

Captain Campbell and myself talk of going to see yr Father some day soon at his Farm. Should he be in George Town at this time, present our compliments to him and let him know our intentions - I have no news for you that will be the least interesting - I wrote to yr Brother by Mr Rose of this place which I suppose was delivered - make my compts. to him yr Father & Mr & Mrs Rosey and I am with truth respectfully yours

L. Cunningham
