The Kent News.

SATURDAY.....FEB. 7, 1880.

THE National Democratic Committee will meet at Willard's Hotel, Washington, on Monday, 23d instant, to fix the time and place for holding the national convention.

IN his remarks in the Senate on Tuesday in favor of completing the construction of the iron-clads already commenced, Mr. Bayard made the rather unpleasant announcement that one of the powerful vessels of the Italian navy would be more than a match for the whole American fleet. While we do not need a large fleet, we certainly ought to have several strong iron-clads of modern construction, which would be capable of protecting our commerce and of guarding our principal seaports against attack.

AS WAS supposed would be the case, the Grant boom received an impetus at the hands of the Pennsylvania Republican State Convention at Harrisburg on Wednesday by the adoption of a resolution instructing the delegates to the Chicago Convention to cast their votes for Gen. Grant. The resolution met with considerable opposition, which was expected, but was finally adopted by a vote of 133 to 113. The majority was only twenty, but it was enough, and the deciciples of Mr. Blaine in the convention doubtless went away exceeding sorrowful. This probably settles the candidacy of Gen. Grant, giving him, as it does, a very decided advantage over every other Republican aspirant.

COLONIZING INDIANA.—Sen. Vorhees' Exodus Committee on Monday examined several Indiana witnesses.

B. K. Morris, a real estate agent, of Indianapolis, testified in relation to his efforts in encouraging the emigrants to come to Indiana. Had talked about some lands in Morgan county which he thought might be sold to North Carolina emigrants at $5 or $6 per acre.

Senator Vorhees.—You thought it would relieve the condition of those colored emigrants to put them on some of those limestone knobs and ridges?

Witness.—Yes, and I wanted to sell the land.

Thos. Mills, of Indianapolis, partner of the above witness, and also a republican, testified to having remarked, when the North Carolina emigrants began to arrive at Indianapolis, "We want 20,000 bucks, not women and children."

Mr. Voorhees.—You wanted them to vote?

Witness.—Yes; we wanted them to vote.

Mr. Voorhees.—Well that's a square answer. You thought if you had them you could politically "slay" us?

Witness.—Yes; we thought if we had them we could get away with you everlastingly.—[Laughter.]

Mr. Voorhees.—But they brought a good many women and children with them?

Witness.—Yes; they "overdone" the thing in women and children, but we thought it would be a good thing to scatter 'em around on cheap lands.

Mr. Voorhees (interrupting.)—In close counties?

Witness.—Well, yes, in close counties. [Renewed laughter.]

MR. RICHARD O'GORMAN, secretary of the Irish relief committee of New York, has received a dispatch from the lord mayor of Dublin, stating that the distress in the west of Ireland is rapidly increasing, and is assuming calamitous proportions. Mr. O'Gorman has also received information from Ireland to the effect that the destitution in Connaught and the northwest and southwest, and the islands lying off these parts, was rapidly developing dimensions far exceeding the worst fears of the people. He believes this distress will be followed by an immense wave of emigration, and approves the bill before Congress to colonize the emigrants in the Western States. They should, he said, be got out of the seaboard cities as soon as possible and settled on the land, for the cultivation of which their former life prepared them.

A LITTLE GIRL'S SHOCKING DEATH.—Near Allentown, Pa., Thursday, a six-year-old girl named Schaffer, accompanied by a little boy, while on her way to school, had her foot caught between the planks on the Lehigh Valley railroad, near a crossing. The boy tried to extricate her, but his efforts proved unavailing. Seeing her danger she lay down—her head from the track, with her legs across the rail. The train came along, cutting off both legs. She died in a few minutes.

STRAWBERRIES.—The first consignment of strawberries to reach Baltimore this season was received yesterday by C. P. Tatem & Co., by express, five weeks sooner than ever known before, as stated. Unless the ground hog interferes with the mild weather, green peas and tomatoes will soon be coming from the South.—*Sun, Tuesday.*

FATHER SCULLY, the priest at Cambridge, Mass., who refused the sacrament to those of his parishoners who persisted in sending their children to the public schools, has been reprimanded by the Archbishop of Boston. The removal of the obnoxious priest is expected to soon take place.

WE verily believe that the election of Thomas F. Bayard, with four years of such an administration as he would give the country, would result in the extinguishment of all sectional hatreds and the perfect restoration of good feeling between the North and South.—*Memphis Appeal.*

THE Cincinnati *Gazette's* political census of Ohio has reached 4,000 votes, of which 1,981 are for Sherman, 968 for Blaine, 620 for Grant, 70 for Washburne, 134 for Garfield, and the remainder scattering. The *Gazette* regards this as a fair exhibit of Ohio sentiment.

THE Philadelphia *Press* does not like the way Senator Cameron is managing things in Pennsylvania. It says: "The republican masses look with disgust upon this unscrupulous defiance of the popular will, and will narrowly observe the methods by which it is to be made effectual."

SAWYER, the Fusion Secretary of State in Maine, gave up all the State property in his possession to the Republican Secretary of State last Saturday. He could not find the key of the safe, but surrendered everything else.

REV. MR. TALMAGE has discovered the great trouble about church work. He says that when you see one Christian hard at work there are fifty others watching the job.

THE unveiling and dedication of the New Orleans monument to Stonewall Jackson will take place on February 22.

MR. JEFFERSON DAVIS'S LEGACY—*A Contest Begun in Earnest.*—The contest over the will by which the late Sarah A. Dorsey, of Beauvoir, Miss., left to Mr. Jefferson Davis her entire estate, has begun in earnest, and during the early days of next month the argument of the case in the United States Circuit Court of Louisiana will be heard and a decision asked. Some weeks ago certain relatives of Mrs. Dorsey filed a complaint, complaining that the testatrix did not possess testamentary capacity, and that she was unduly influenced, coupled with an application to set aside the will as being unjust to the next of her kin and also as being opposed to public policy. To this an eminent New Orleans law firm, as attorneys for Mr. Davis, have filed a demurrer, because the allegations in the complaint "are inconsistent with the claim that the testatrix was of unsound mind or was unduly influenced in making her will, and therefore the complaint does not show facts sufficient to constitute a cause for action." The last part of the demurrer is interpreted by the counsel of the next of kin to refer to that part of the complaint which sets forth that it was opposed to public policy and good to admit the will to probate. It will be remembered that Mrs. Dorsey laid particular stress upon the fact that Mr. Davis has received no reward for fighting for his country—meaning the Confederate States—and that all his patriotic services, going without recognition, she desired him to own and enjoy her rich estate. Counsel for complainants will take the ground that Mrs. Dorsey's bequest is a reward for treason and a premium upon, and hence opposed to the spirit and text of the constitution. The amount involved is about $25,000.

AN INTERESTING CASE.—The United States Senate committee on finance has just concluded the consideration of an interesting case. In 1870 Thos. Kearney, collector of customs at Corpus Christi, Texas, left that place under instructions of the Secretary of the Treasury for the purpose of collecting from his deputies the money in their hands belonging to the government. In consequence of the great danger of traveling with money along the Mexican frontier he applied for a military escort to the commander at Fort McIntosh, and was furnished with a guard of six men, under command of a sergeant. He proceeded on his journey, and collected $12,810 belonging to the government, all with the exception of $340 in gold coin; also $3,240 in gold belonging to private parties. On the return trip, when in camp one evening, the sergeant on some pretext, sent off to a distance all the privates but one. They, then, with pistols in hand, demanded from Kearney the keys of the boxes containing the coin, opened them, took out the money, mounted and rode off, and have never been heard of since. The money still stands on the treasury books charged to Kearney, and the committee agreed to a bill relieving him.

THE recent hanging of Swift Runner, an Indian murderer, at Fort Saskatchewan, Canada, was in a temperture of forty degrees below zero. A gallows had been built out of doors, so that the Indians could see the execution; but when the officers and prisoner arrived at the spot, it was found that the most of the scaffold had been used for firewood by the half-frozen crowd. Swift Runner complacently warmed himself at the fire while the gallows was being repaired. When everything else was ready the nervous hangman said he had forgotten to bring a strap to fasten the prisoner's arms and legs. He offered to save further trouble by killing himself with a tomahawk, but his proposition was rejected, and he ate a hearty meal of pemmican, with the noose around his neck, while a messenger was fetching a strap. A priest attempted to give him spiritual consolation, but he said that the white man's whiskey had ruined him, and so he couldn't believe in the white man's God. He preferred a death dance by his own people, and while they were performing it he was hanged.

THE COMING CENSUS.—The penalties for obstructing the census-takers, who begin their labors on the first Monday in June, are severe. The law says:

All persons above the age of 21 years who shall refuse to furnish the information required by the supervisor or enumerator shall forfeit and pay a sum not exceeding $100, to be recovered in an action of debt. Presidents, directors, or other officials of private corporations who refuse to furnish information required of them are made liable to a penalty not to exceed $10,000.

Only two weeks are allowed for the completion of the census. The compensation to the enumerators is as follows: Two cents for each living inhabitant; two cents for each death reported; ten cents for each farm; fifteen cents for each manufactory, which is to be in full for all services, and no mileage or travelling expenses. The subdivision assigned to each enumerator must not exceed 4,000 inhabitants.

Agents for the
FREDERICK NURSERIES
Are now in Kent canvassing for orders. They call special attention to their
RUSSIAN APPLES
which are suited to this latitude, viz: The Duchess of Oldenburg, Tetofsky, Pewaukee, Late Russian, Magog and Peter the Great. These have proved to be adapted to our trying climate; they are as hardy as an oak, and come into bearing the second year after transplanting.
They belong to a different class, and are very desirable because they add five more to the very short list of extra hardy fruits.
We would also call attention to the
"Bower's Early Peach."
This Peach originated in Woodsboro', Frederick county, Maryland, and is a free stone of large size, some of the specimens measuring ten inches in circumference. It is light fleshed with a beautiful dark red cheek and of excellent quality.
Thos. Mehan, of the *Gardeners' Monthly*, says: "It is a great pleasure to see so large a size with so early a fruit. The flavor was exquisite. So far as it is possible to judge we should say this is a long way in advance of our best early kind."
We have also a fine collection of
HYBRID PERPETUAL ROSES,
Bourbon Roses, Tea Roses,
Clinging Roses, Moss Roses,
China or Bengal Roses,

Copy of Original Testimonials.
Baltimore, Jan. 31, 1879.
MR. J. S. KNAPP—Sir: I have made a thorought est of the London Food and recommend it to the public as a good Improvement Food for Horses. I will use it in preference to any condition powders I know of. [They have 300 horses.]
Respectfully, R. PRICE,
Sup't Citizens Line Street R. R.
Carrollton, Carroll Co., Md.,
Feb. 11, 1879.
JOHN S. KNAPP—Sir: Having used the London Horse and Cattle Food on both my horses and cows, I cheerfully recommend it to the public as a good condition food for the horse and a profitable condiment for cattle, as it will cause cows to give more milk and make at least 25 per cent. more butter than any condition powders I ever used. Hoping this will induce my friends to try it, after which I am convinced they will bear the same testimony as to its merits as I do.
Yours, respectfully,
mh8-tf. JACOB M. HOFF.
