keeping his Mill idle & getting none - the Millers have generally near ly ground up their whole stock & amongst the whole number it will be hard if I do not find one purchaser of 100 bushels at 2. 5d - By the bye I have neither seen nor heard from Dent since yesterday week - I hope for something more pleasing to morrow -

I do not think my growing wheat has fallen off for the last three or four days - Doct. Cheseldine who was with a few days past & with his son & son-in-law said it to day declare it to be the most promising they have yet seen of the Clover in common well set & prevailing - and surely Confidering we wanted plaister it may be deemed good - Beef at the Baltimore Market is from 12 to 14 - & Mr Ganett think said that he heard in Ger. Town that steers not left there a few days after turning my Bullocks upon my good Clover Pasture which will be when it blooms, in 3 or 4 days & then giving them a little bran daily to lick - they may be expected in 8 or 10 days to be fine say the first of June & about that time Mr Niles shall have notice of their Condition & my price & shall have an quotation to connect - I have been & still am extremely indisposed & so much of a cripple that I despair of seeing my poor Children in Wilmington - never will they see their afflicted & worn out father in any other place but this - nor not long will they have an opportunity of seeing him here - fevers & grand old age waste me every hour - I was bled most copiously on Sunday last at Doct Cheseldine & again to day have & shall have an opinion put below my disordered knee this day probably 12 Grains of Calomel will be taken to subdue my fever & in the morning 25 Grains of Jallap I cannot a Nightcap but I am threatened with an Apoplexy you may judge of the state of both my body & mind - my temporal Affairs cannot be settled too speedily

Yours Affectly & sincerely

Thos. S. Lee

There is no possible way of getting the plaister from G. Town Therefore I must decline Mr Harrison's offer - I seperated one to pin him in purchasing a parcel but Jacob Balt. would suit best to haul it from

I am truly sorry to hear of poor Dennis A. S. failure - he is such a liberal kind hearted Man - Don't my dr. forget the apples & 2 Mutton legs with Sommers Man
