the destruction is not less extensive than in the adjoin-
-ing part of Maryland. In the Forest of Prince
George the wheat is also very much injured &
their corn destroyed by the worm.

You have probably seen from the papers the
death announced of Arthur Shaaff. He died
on the 15th inst. at his Brother's house in Town very
suddenly. While dressing himself in the morning
in a fit of coughing he broke a blood vessel.
& expired in less than five minutes. There is no wife
& of course the Doctor inherits all his estate.
Nothing new.

Yr. affect. son

John Lee

MdHS 1974 [1264-1435]
