John Lee esq.
George Town
Dist of Colu

1051

My dear John, Needwood Feby 26. 1819

I wish you would inquire at the Bank of Colu. what sum will be sufficient in addition to payments made to pay dis cts but due & also to take up my small cost Note when my Wheat is delivered I will endeavor to spare from other pressing calls as much as may suffice for that purpose

I have nearly 15 hundred bushels of Wheat to deliver still - now my Clover Seed being all but got out, I shall confine our selves mostly to getting the Wheat ready - by the use of the Machine & trampling at the same time in the Barn if the weather is favorable we may finish in 20 days - the Clover Seed of the last year turned out well but the Crop of this is the very reverse Very little indeed to spare - what there may be
