thank
to pay the money from Shafer as soon as it comes to my hands.
Left Eliza in the same state as I found her, the Children & Mrs H
were well. their intention was to visit their farm at Harvest
afterwards we shall bathing & then proceed to this place on their journey
to Bedford Waters. I hope you will hear of them. there I left Wm
William to proceed then with the Children to this place
a great prospect of Wheat & Grass & not a bad one for Corn. On Friday
or Saturday or Monday at farthest we shall commence cutting our
Clover. my best respects to Gen. Brent & Robert, tell the Cutter
that his friend from Virginia himself may come up at this or a well
and later season to view the old farm.

Yrs. most truly & sincerely
Tho. S. Lee

The frost or blighting winds
have destroyed nearly all our
peaches & cherries — if good apples
should be presented I would send
Mrs Harrison & Bacon & take
up the Lemon pickle.
