VIEWS OF SENATOR DAVID DAVIS ON PENDING PUBLIC QUESTIONS.—In reply to inquiries propounded by Hon. O. H. Browning, of Quincy, Ill., to Senator David Davis, that gentlemen has written a letter giving his views upon the leading questions of the day. We have only space for the following:

"*Peace in the Union.*—Permanent prosperity and fraternal fellowship are only to be obtained by silencing sectional strife. A faithful adherence to the constitution and all the amendments, strict observance of the laws in conformity therewith, and equal rights and equal protection for every citizen in every part of the republic, will soon end the discords that have too long vexed the country and injured its material welfare. The people are weary of agitation and want peace.

"*Centralization.*—The constitution wisely defines the respective limits of the federal and State governments under a happy and harmonious system, wherein each is independent in its appropriate sphere, and both operate concurrently to protect the integrity and stability of the Union. Any encroachment of one on the distinctive domain of the other necessarily dislocates the machinery of the constitution, and involves danger to the whole body politic. In fact, every departure from the great charter of liberty and law is attended with peril. The demand made by adherents of one of the great parties for a strong government means substantially a centralized government, destructive of home rule in the States, and the very reverse of what Mr. Lincoln well described as a government of the people by the people and for the people. Carried to its logical conclusion such a change would finally overthrow the republic.

"*The Third Term.*—An innovation upon the sanctified traditions of the presidency, first established by the example of Washington, is urgently demanded by a powerful interest in the republican party. If the limitation of two terms, heretofore universally accepted, be destroyed, the way to a self-perpetuating presidency will be opened by the use and the abuse of the enormous public patronage. Break down this barrier, and an end of the experiment of republican government looms up darkly as the cost of a fatal concession."

MR. TILDEN'S POSITION—*A Semi-Official Declaration.*—Mr. Henry Watterson, editor of the Louisville *Courier-Journal*, who has just returned from a visit to Hon. Samuel J. Tilden, publishes an editoral in his paper, which, after referring to what is claimed to be popular sentiment in favor of the renomination of Mr. Tilden, concludes:

Mr. Tilden is an old man, and past the time when motives of private ambition occupy the first place in his breast. Assuredly possession of the chief magistracy to which he was elected, is not an overweening desire of his heart. He is ready to give place to, and will willingly, liberally and heartily support whomsoever the party may select as its standard-bearer, and he has not consulted his wishes and withdrawn himself from a position which is most irksome to him solely because he has not been able to see that his retirement would contribute anything to the developement of what is best to be done, or to the operation of harmonious influence within the party he loves so well and has served so long. The party must fix his relations to it. It must not consider his person at all—that is nothing—and he charges his friends everywhere to abstain from everything which may be construed into dictation. He would have no delegate to Cincinnati instructed to vote for him. Delegates should be left free to decide how they shall vote after they get there; and whatever the result may be, he shall be content, conscious of having, from first to last, done his whole duty by his country and his party. These are, as nearly as may be put in another's words, the opinion's of Mr. Tilden.

THE PRESIDENCY.—The *Democratic Advocate*, published at Westminister, Md., and edited by Senator Vanderford, has an article in its last issue upon this subject, which so clearly enunciates our views, that we give the concluding paragraph, which is as follows:

"The policy of the Democratic party, if it is to be controlled in this instance by prudence and sagacity, is plain. It is not to go into this contest heavily handicapped, but free from all dead weights, obstructions and complications. They should wage an aggressive warfare, not a defensive one. Hence their candidate ought to be one whose personal and political record is unassailable, so that public attention cannot be diverted from national or general to local or personal issues. If the Cincinnati convention cannot harmonize on one of the gentlemen most prominently mentioned for the nomination, the precedent set in the convention of 1844 would be a good one to follow in 1880. That convention, after a most violent and protracted struggle between the friends and adherents of the prominent contestants for the nomination, took up a comparatively new man, buried their bickerings, jealousies and heart-burnings, and under the leadership of James K. Polk, of Tennessee, inaugurated one of the most enthusiastic campaigns ever fought by the Democracy, one which culminated in a glorious and triumphant victory. Is the Democratic party of 1880 capable of drawing a lesson of wisdom from the past? Has it the sagacity to profit by the light of experience?"

PERSONATING CONKLING.—All sorts of tricks, it appears were practiced by the friends of Grant to induce the colored voters of this State to give their aid to the friends of the General. The Baltimore *American* relates the following deceptive game:

"The Grant leaders even went so far as to take some of the more prominent colored Republicans into the office of a lawyer doing business on St. Paul street, himself a Grant man, and then and there they introduced the colored men to a personage who they said was Senator Conkling, and they requested the latter to tell to the colored people what he and General Grant would do for them if they assisted to carry the city for him. The man who personated Senator Conkling replied that the colored people would receive the best of the land; that one of their number would be appointed Surveyor of the Port; that another should be made Deputy Collector, and that they should have one-half of all that the administration has the power to grant."

STONEWALL JACKSON'S widow and her daughter Miss Julia Jackson, will unveil the Winchester, Va., monument to Stonewall on June 9.

GRANT'S POSITION DEFINED.—The Galena (Ill.) *Gazette*, whose editor is a person friend of General Grant, and knows whereof he asserts, publishes the following: "An item has been going the rounds of the press, asserting that George W. Childs, of the Philadelphia *Ledger*, had stated that Gen. Grant would order his name withdrawn from the contest at the national convention in Chicago. Neither Geo. W. Childs nor any one else has authority for making such an assertion. Gen. Grant's name has never gone before the public as a candidate for the presidency by any word or act of his own, and he most certainly will not order his name withdrawn. A very large class of American people have chosen to make him their candidate, and if the republican national convention at Chicago sees fit to tender him the nomination he will not decline it. This we know to be a fact, and we publish it because it is well that the republicans of the country should cease to hold the matter in doubt."

DEPRESSION in the iron trade, caused by the over-importation of English iron, has had the effect of throwing fourteen hundred iron workers out of employment in Philadelphia and will probably have similar results elsewhere. The persons controlling the iron market were warned in time, but persisted in forcing up prices until purchasers were forced to go abroad, with the result of swamping the market. Another time, perhaps, they will hesitate before killing the goose that laid the golden egg.

THE House Committee on Railroads and Canals, after hearing Representative Henkle, of Maryland, in advocacy of his bill to provide for a ship canal to connect the waters of the Chesapeake and Delaware bays, Representive Shalley submitted a resolution proposing the appointment of a special sub-committee to take the whole matter in hand, investigate it thoroughly and report as early as practicable whether the Government should construct or aid in constructing the canal. This resolution was adopted.

AT Erie, Pa., on Monday a babe was born without a head, but otherwise fully developed. It weighs about seven pounds. There is an excrescence protruding from the top of the trunk between the shoulders, where the neck ought to be, which has two large eyes, a nose and a mouth with hair lip. There is no occipital or parietal bones, and, no brain. In a sitting posture the child resembles a huge frog.

REFEREE BLAIKIE says he has the best of reasons for believing from what Riley told him that Courtney sold out the recent Potomac boat race.

Political Notes.

At this juncture, the Vicksburg *Herald* thinks, Bayard can be elected President over any other man in America.

Col. John B. Brownslow, the Parson's son, says the South will give just as big a majority against Gen. Grant as against any other Republican candidate.

The Charleston *News and Courier* says: We have not wavered in the belief that Mr. Bayard is the strongest candidate that the Democracy can nominate—stronger than Field or Hancock, or English of Indiana, or Seymour or Palmer.

Here is Wm. E. Chandler's figuring on the first ballot at Chicago: Blaine, 305; Grant, 289; Sherman, 105; Edmunds, 35; Washburne, 12; Windom, 10—or 289 for Grant and 467 against him. He predicts Blaine's nomination on the second ballot.

The New York *Times* asserts that the bolting Blaine delegates from instructed Grant delegations have possibly been "hypnotized." This condition can be produced by placing a "shining object" in front of the subject, whose eyes must be fixed steadily upon it until he becomes oblivious of all other things.—*Washington Republican.*

John Cochrane, Horace White and other independant republicans are circulating a paper for signatures of republicans in New York city and State who will not cast their votes for Gen. Grant, if nominated for the presidency. This paper will be presented to the Chicago convention to show "the danger that cannot be overcome in New York." Copies of this paper are in circulation in different parts of the State, and the interested persons claim that 5,000 names have already been appended to it. They claim that they will have all of the 20,000 "scratchers" of last year.

General Grant has still a strong hold on the American people. He is highly respected as a skillful and patriotic soldier. His wonderful career is indissolubly connected with some of the proudest pages of our history. He could retire with the respect and esteem of his fellow citizens, including tens and hundreds of thousands who would not vote to make him President again.—*Boston Herald.*

The friends of Gen. Hancock have printed a pamphlet giving the history of his military administrations in the South and elsewhere subsequent to the war, showing that he always yielded obedience the civil authorities. Several hundred to thousand copies of the pamphlet are understood to have been distributed, and will be properly circulated. It is understood that, as in 1876, the name of Gen. Hancock will be presented before the democrated convention by the Pennsylvania delegation.

Prominent colored politicians are advocating the nomination of Sen. Bruce, col'd, of Mississippi, for vice-president. A meeting of colored people was recently held in Washington for the purpose of divising plans to secure recognition of their race by the Republican national convention, and it was determined to ask the nomination of a colored man for the second place on the ticket.

The Democratic State convention of Delaware was held at Dover on Tuesday. The session was very harmonious. The following delegates were selected to the national convention and instructed to vote for Bayard: New Castle county—George Gray, George H. Bates. Kent county—Cove Saulsbury, James Williams. Sussex county—E. L. Martin, A. P. Robinson.

A German correspondent has written from Milwaukee that if Grant is nominated at Chicago and Bayard at Cincinnati, Wisconsin can be relied upon to give her Electoral vote to the latter, as nine-tenths of the Germans of that State would heartily support him. It is generally admitted that the Delaware statesman would unquestionably command more independent votes than any other candidate whom the Democracy could present.

A letter from a Washington correspondent says:—The Virginia Democratic members of Congress are quite satisfied with the action of the Virginia Democratic convention. They have also now entire confidence in the ability of their party to carry Virginia for the nominee of the Cincinnati convention, of which there have been apprehensions for some time past. It is said, further, that there is now the best reason to anticipate that Gen. Mahone will act with the Democrats in the Senate.

The introduction of the

English Condition Powders,

In our American market, exempt from duty, freight, &c., has proved to the thousands who are daily using them that they have been a long felt want.

For the past half century they have grown in public favor and general use in all quarters of the Globe, until their name and fame is world-wide.

There is not an ailment (known in Veterinary practice) of the Horse, Cow, Sheep or Pig, but yield to their miraculous influence.

Their rare balsamic properties are conveyed to every part of the brute creation, and immediate relief is given.

They heal Internal Ulcerations, banish all derangements, and give the stomach proper tone.

No Stock-owner need despair a cure, whilst this *never-failing remedy* can be obtained; and the reputation they bear from all quarters of the *Globe* is fully borne out by the success they have attained—corroborated by testimonials of all classes and countries.

They have cured Thousands of Cases conceded Incurable.

The many ailments of each class of animals and their various forms are too extended to discuss. But we *guarantee* in each case a tenfold remuneration for the small investment that places them within reach of the most humble who often have to rely on their stock for support.

The majority are more directly interested in Horses, and to them we say one trial will convince you that they work wonders; and no matter how doubtful the *case* is, you will invariably be benefitted, & your animals made & kept healthy by their use.

English Condition Powders

are a *certain* and *speedy remedy*, no matter what the disease is, or how complicated. They are not a temporary, but have *invariably* proved to be a *radical cure.*

They *restore health* and *produce flesh, milk and butter.* They aid digestion and assimilation, and thoroughly renovate the system, and will be found invaluable and remunerative to every stock-owner.

TO CONSUMERS.—They are only one-third the price of all others, and are as superior in quality as quantity.

The following TESTIMONIALS speak of their merits:

Baltimore, June 17, 1879.

Mr. P. Warren—Sir: We have been handling your English Condition Powders for some time past, and find that their merits as compared with similar compounds, meet a want seldom (if at all) found in goods of a similar class. With Patrons of Husbandry they are growing into favor rapidly. Signed: H. O. DEVRIES, Ag't Maryland State Grange.

Ashland House, 24th St. & 4th Avenne, *New York City*, Mar. 10, 1879.

I have used the English Condition Powders and can recommend them to the turf profession as being pure and similar to the imported, and would use no other.—For purity and quality they are *unequalled* and invaluable to horsemen.

Signed, HARRY HARTMAN, Late manager Budd Doble's Turf Stock.

Baltimore, Md., Aug. 6, 1879.

P. Warren, Esq.—Sir: The English Condition Powders are conceded by all my patrons to be the *purest, cheapest* and *best* on the market; and have worked wonders where used. I sell five times as many of *them* as all others combined.

Kennard & Co's Sterling Phosphate!

$23.00 CASH. $25.00 TIME.

THE GREAT SUCCESS of our Fertilizer last Spring has encouraged us to enlarge our Factory and adopt new and improved machinery, so that we are prepared to again offer our goods to the farmer, and guarantee a prompt and certain delivery of all orders. We respectfully invite the patronage of all, and are satisfied that a trial will insure the endorsement of those who use the "STERLING."

The following testimonials are a few of those received as to its work last Spring:

Chestertown, Md., Feb. 21st, 1880.

Dear Sirs:—Your Phosphate that I used on my Corn last Spring gave me great satisfaction. I also used your Wheat Phosphate last Fall; it is now looking as well as other Phosphates on the same land at a higher figure. I expect to use your goods next Spring. Yours, truly, COMEGYS BROWN.

Chestertown, Maryland, February, 1880.

KENNARD & CO.:—In reply to your question regarding the action of your Fertilizer, I will just state that I have only tried it on sugar beets. I applied it to my beets last Spring, putting it in the drill before I planted the seed, and notwithstanding the unfavorable circumstances to which the beets were subjected, the yield was far ahead of my most sanguine expectations. Yours, &c., I. C. TAYLOR.

Chestertown, Md., March 5th, 1880.

MESSRS. KENNARD & CO.—Gentlemen: I used your Phosphate last Spring on my Corn; applied it at the rate of one handful to three hills, and where I put it the yield was about twenty-five bushels to the acre; where I did not put any the yield was about ten bushels to the acre. On a portion of the same land I applied barnyard manure, and the result was about twelve bushels to the acre. Where I used your stuff the ear was large, well filled, and I could not find a worm in a hundred ears; the grains were large and close together. Where I did not use the Phosphate a great many ears were wormy and poorly filled. I can cheerfully recommend it, and will use more this spring. Yours, truly, GEORGE W. LONG.

We also keep on hand a full stock of Pure Dissolved and Ground Raw Bone Potash and other Chemicals, which we furnish at prices equal to any offered.

Mogee's

Norristown, Pa., Schuylkill LIME,

Manufactured Expressly for

B. F. FLEMING, Chestertown, Md.,

Delivered to all Rail Road Stations or Boat Landings on the Peninsula south of Wilmington, Del.

MOGEE'S SCHUYLKILL QUICK LIME is claimed to slake MORE TO THE BUSHEL, LESS CORE, WILL ACT QUICKER and LAST LONGER *than ANY LIME used on the Peninsula.*

We respectfully refer to the following testimonials and names of persons who have used Mogee's Schuylkill Lime:

MR. B. F. FLEMING:—We used 3,000 bushels Mogee's lime last year. It acts well and paid handsomely on corn. JAMES L. BECK, WALTER H. BECK, } Beck's Wharf.

This year 1880 I have rented from Major Hynson the Huntingfield farm; will use 5,000 bushels Mogee's Lime. Your Captains give good measure and deal fair. JAMES L. BECK.

MR. B. F. FLEMING:—I have used Mogee's Lime for the past 2 years on corn. It acts well; keeps the corn green and largely increases the yield. It slakes fully double, contains no core and is as near genuine Lime as any I ever used. GEO. H. SNITCHER.

MR. B. F. FLEMING:—I have used 2,600 bushels of Mogee's Slaked Lime on Mrs. A. M. Hurtt's farm; it has given excellent satisfaction. STEPHEN CONSTABLE.

MR. B. F. FLEMING:—I used three car loads of Mogee's Schuylkill Lime on Corn last Spring. It slaked fully *double.* There was nota half bushel of core in the whole. It kept the corn green, and I believe it is the best lime I ever used. I shall use it on corn this Spring. PURNELL JEFFERSON, Chestertown P. O., Kent co., Md.

MR. B. F. FLEMING—Dear Sir: I used about 6,000 bushels of Mogee's Quick Lime last year. It gave me good satisfaction. ISAAC PARSONS, *Hanesville, Kent co., Md.*

MR. B. F. FLEMING:—We have used several different kinds of Lime. The 1000 bushels of Mogee's Schuylkill lime we tried on corn last spring slaked better, contained less core and coal, acted quicker, and gave the best satisfaction of any lime we have ever used. Send us 2,000 bushels of the same lime this Spring. GEO. R. REED and S. A. REED.

MR. B. F. FLEMING:—I have used several thousand bushels of lime since I have been living on Mr. Wm. Vannort's farm; I used two cars of Mogee's Schuylkill lime last Spring. It slaked more than two bushels for one, and there was no core at all. I believe it is the best lime I ever used, and expect to use more of it this Spring. J. E. NEWCOMB.

MR. B. F. FLEMING:—I have used Mogee's Lime for two years past, and believe it to be the best lime sold. JOSEPH H. PORTER.

MR. B. F. FLEMING:—Before I commenced to use Mogee's Lime I could not raise enough corn and wheat to supply me. I am happy to say that I have been using it for 3 years; it slakes well, acts quick on corn and wheat, makes the clover grow, and I believe that where I used Mogee's lime the yield is double for corn, wheat and clover. If any one doubts this Mr. Fleming will give them a free ride to Worton and I will convince them. GEO. M. PORTER.

MR. B. F. FLEMING:—I have through the instructions of J. Frank Black, Esq., of Chester, Pa., used on the "Round Top" farm several thousand bushels of Mogee's Schuylkill Lime, and it gave good satisfaction. I have also used it on my farm near Crumpton, and it acted well. I believe it is the best lime in the market, and expect to use it largely this Spring. JOSEPH S. FOWLER, Round Top farm.

PLOWS! PLOWS! PLOWS!

"Ohio Chilled" & "Gibbs' Imperial"

At KENNARD & CO.'S.

Read the result of the late Plow Contest as shown by the report of the committee to the Kent Co. Agricultual Club, together with the opinion of the plowman, and be convinced as to which is the best Plow in the market:

Synopsis of Report:—"The Ohio Chilled Plow was the lightest and the Advance was the heaviest. The Ohio Chilled was 27.03 lighter to the cubic foot than the Oliver Chilled; 33.57 lighter to the cubic foot than the Roland Chill, and 169.08 lighter to the cubic foot than the Advance."

Chestertown, Md., March 6th, 1880.

J. E. NEWCOMB, ESQ.,—Dear Sir: You having been elected by the Judges, as plowman in the late plow contest, held on the farm of Mr. Wm. Morris, Tuesday, the 2nd inst., we would be pleased to have your opinion of the "Ohio Chilled" and "Imperial" Plow, entered by ourselves. Respectfully requesting an early reply, we remain, very truly, Yours, &c., KENNARD & CO.

Worton Station, March 8th, 1880.

MESSRS. KENNARD & CO.—Gentlemen: In answer to your question of March 6, about the Plows tried at Mr. Wm. Morris', of which I was plowman, I will simply state to you what I said to the Kent Co. Agricultural Club this afternoon, that of all the plows I handled, viz: the Advance, Roland, Oliver Chilled, Ohio Chilled & Gibbs' Imperial, that the Ohio Chilled and Gibbs' Imperial, as sold by you, were the best I have ever handled. I state this in justiceto your Plows; not being pleased with them at first, am glad to say I was agreeably disappointed.

Very truly, yours, J. E. NEWCOMB.

We also intend carrying a full line of Agricultural IMPLEMENTS and are satisfied it will be to the purchaser's interest to examine our goods and prices.
