1474

Needwood Jany. 18, 1834

Dear Sir

It was only in this week that I received the enclosed letter from Col. Sappington - We pleased to shew it to the gentlemen named at the close - I suggest for your consideration whether an application to the Legislature would not be more likely to be successful thro' the intervention of Memorials, printed & names obtained in the County, than thro' the means of a general County meeting or from meeting, in the several Districts. We know from experience how difficult it is to procure a respectable attendance in regard to numbers, even upon the important subject - I am still inclined to promote a separation of a part of the Westminster District, in conjunction with portions of Baltimore & Anne Arundel Counties -
