My dear Sir

In Mitchells Estate there appears to be some error in the calculation of commissions you have made them in the accts $255.90 — I make them calculating on each sale as usual $318.90. If calculated on both sales they amount to $285.90. If this be not designed you had better have it corrected have the correct amount allowed.

In relation to what you say about the Trustee ship in Lees Estate I do not know how to reply. For myself I shall be satisfied with compensation for my services regulating the decree which allowed me $50. But Mr Darne wants to be Trustee I understand. Whatever arrangements you may make with Mr Kilgour will be satisfactory to me. I dont want to be Trustee alone unless forced to be in order to get paid for my services

The Chancellor has been out of town ever since your package arrived. As soon as he returns I will get the guardian
