Frdk. March 18th 1850

My dear Sir

I wrote to you this morning & have then yours of the 17th just was handed me. I fear this note not so by this days mail. In regard to the notes they both can be drawn payable 12 mo. after date. This is my mode of doing business with interest from date. I prefer this course because it gives me the command of my own concerns. The notes both will be drawn in my name & to me personally without any other discription. The notes altho' drawn payable in 12 months. It is not my design to call them in at that time. It is an investment and if the interest is paid annually my design is to permit the convenience of every stockholder. This is my purpose & design but state I can bind myself in contract. I have mortgages out for 8 & 9 years in the same manner. I am in haste

Draw the notes made sure. The Watters call
