## Words To Live By

By Rev. Robert T. Newbold

Let's face it! It is not easy to be a Christian. Many individuals fancy it as a soft and convenient sort of thing. To them it is something good to have for emergencies. Others are always considering its "social advantages."

Christ, however, constantly pointed up the hazards and hardness of being a Christian. His constant injunction was to "count the cost."

And often he spelled out "the cost" in terms of patience, fortitude, and devotion.

On one occasion he indicated that those who were not willing to pay this high price could not be his disciples.

It should be clear, therefore that Christianity makes demands of each disciple. The demands are high.

THE ERROR of many is in believing that "there's nothing to the business of following Christ."

The haphazard Christian living of many church members gives rise to this attitude on the part of others. The impression is left that ours is an easy religion that makes no demands of us.

When we are called to follow the Master we are actually invited to take part in a breath-taking cause. He does not seek men and women to accept a soft religion to cushion them in a soft little corner.

Instead he sends them out where opposition, criticism, and even death await.

There are no marked down ways to follow Christ. The cost has always been, it will always be high. Perilous times could not be his disciples.

It should be clear, therefore that Christianity makes demands of each disciple. The demands are high.

## ANNAPOLIS SPINGS

By ELOISE RICHARDSON

HELP! HELP!

Do be a good neighbor and come to the aid of a young Bates High School student!

The Anne Arundel County Tuberculosis Association has appealed to this column to ask you for blood for Virginia Hall, 15, who has been a patient at Henryton State Hospital for over a year.

The daughter of Mrs. Etta Dowell, who lives on the outskirts of Annapolis, was recently found due to need surgery very soon, and must have blood transfusions in order to do so.

Anyone who is willing to answer this call may contact Mrs. Dowell by phone at Colonial 2-7983, or Mrs. Sibyl Moon, executive director of the association at Colonial 8-8111, or go directly to the Mount Wilson State Hospital at Pikesville, where the patient awaits surgery.

Hours for giving blood are as follows:

Mondays through Fridays, 2 to 4 p.m. and 6 to 8 p.m.; Saturdays, 9 a.m. until noon, and Sundays, 2 to 5 p.m.

Persons who are under 21 years old and not older than 50. They may be men or women who are in good health. DO BE A GOOD SAMARITAN AND ANSWER THE CALL!

WAIT! HOLD ON! I just received another appeal from the Anne Arundel County Tuberculosis Association.

This time it is in the interest of a young man, Sydney Diggs, 18, who must have surgery at the Mount Wilson State Hospital next week.

Sydney has been at Henryton State Hospital for about a year, and at present, his father, William Henry Diggs, is confined there. His mother is Mrs. Eve Dyer Diggs, and the family lives at Waterbury.

Please open your hearts and come to the rescue of these two people, who deserve a chance in life just as we all do. Let this column know that you are standing by to cooperate.

WE ARE WONDERING just what progress has been made as a result of efforts put forth by the Anne Arundel County NAACP Branch through its Voters Registration Campaign, which culminated last week end.

Voting is a democratic method by which the people decide issues and choose their leaders and governments.

A citizen who is indifferent or too lazy to vote is throwing away one of his most precious rights. He is deliberately disregarding his right to have a voice in his own government.

The indifference may well lead to control of government, whether it be city, county, state or nation, by a dishonest political machine.

There are more than 97,000,000 eligible voters of voting age. Many of these have never voted. Such public indifference has caused some countries such as Costa Rica and Uruguay to compel every qualified citizen to vote.

If citizens in these countries do not vote, they are fined or given a prison term. Certainly such a thing like that would not happen in our country.

Before claiming that one how never does, must qualify by registering, and unfortunately those who are not registered now will not have the opportunity to vote this time because the deadline was Saturday.

THIS COLUMN at all times encourages good citizenship movements in the community which tend to strengthen our citizenship. Voting and knowing what is going on in our government is a most important phase of good citizenship.

Also as good citizens, we must vote intelligently. By that we mean we must know something about the men and women who aspire for public offices, these qualifications morality, integrity, ability, experience and reputation.

There are two methods of selecting candidates. One is the convention system, where nominees are selected by the delegates or party leaders.

Then there is the primary system, which gives the people a chance to select a candidate to run for office, but we also declare our political affiliation.

The primary comes up for your convenience on May 20. Those of you who are registered, but have been indifferent, must rise up and do your duty as good citizens.

This column will do what it can to inform you about those men and women who are seeking votes, that you might have an opportunity to know something about them.

The time has come when colored citizens must realize that their vote is their power and ultimately to gain equality, — that is to say every right, privilege, advantage and opportunity accorded any other citizen group.

Those who contributed their services in helping to make the clinic an overwhelming success were:

Mesdames Bertha Wyche, Philip Smith, Marjorie Jones, Ruby Powell, Catherine Herndon, Mary Randall, Louise Butler and Mrs. M. C. Alsop, who served as chairman of the health program.

The school has set up a fund to aid in the welfare of its indigent pupils. Such a project has attracted outside interest.

The workshop, which was held at Colonial Williamsburg, Va., gave the trio a fine opportunity to gain valuable information through two outstanding speakers and consultants, who are specialists in their fields.

They were Nelson Jackson, associate director of the National Urban League, and George Butler, who is serving on the Educational Committee of the President's Committee on Government Contracts.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Relieves Pain, Stops Itching as it Shrinks Hemorrhoids

New York, N.Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne*)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H.* Ask for individually sealed convenient Preparation H suppositories or Preparation H ointment, with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.
