Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository or ointment form* called *Preparation H*. Ask for individually wrapped Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug counters. Satisfaction guaranteed or money refunded.

WHAT HAPPENED? In Nov. 4 Elections

The colored vote in Baltimore City which went 82 percent to Republican Governor McKeldin in 1954, went 68 percent for Democratic Governor-elect Millard Tawes in 1958.

It was a big switch from Republican to Democrat.

Democrat Curly Byrd, running for Governor in 1954, polled 18 percent of the colored vote.

Democrat Tawes' 68 percent on November 4, 1958 meant an increase of 50 percent in the Democrat vote.

129 key precincts

These percentages are based on an analysis of 129 key precincts in Baltimore City which are predominantly colored.

Over 74,216 colored voters are registered in these 129 precincts, according to available figures from the Supervisors of Elections office.

There are only 6,754 white persons registered in these 129 precincts.

Tawes 126

Mr. Tawes carried 126 precincts and Mr. Devereux, 3.

The three Republican strongholds that stood firm were:

4th precinct, 11th ward, which Devereux won 33 to 32. This is the area of the new state office building (Park Ave. and Hoffman St.).

11th precinct, 19th ward, Devereux, 175; Tawes, 171 (328 N. Stricker St.), and

14th precinct, 19th ward (318 E. 23rd St.), Devereux, 138; Tawes, 104.

Byrd's 2

In the 1954 gubernatorial election, Byrd carried only 2 precincts. They were the strongly Democratic 27th ward, 17th precinct — Byrd, 175; McKeldin, 52 (Fairfield Homes); and 23rd ward, 3rd precinct (129 W. Oxford St.), Byrd, 226; McKeldin, 136.

McKeldin carried 127 precincts.

For Governor

Actual figures comparing McKeldin's and Tawes' achievements are as follows:

	1958	1954
Tawes (D)	30,335	
Devereux (R)	14,364	
Total votes	44,899	
	1954	
McKeldin (R)	38,973	
Byrd (D)	8,270	
Total votes	47,243	

Here the percentages are important.

Byrd (Democrat) polled 18 percent of the colored vote in 1954.

Tawes (Democrat) received 68 percent of the colored vote in 1958.

The 5 precincts carried by Democrat Curly Byrd in 1954, 11th and 17th precincts; 16th ward, 9th, 10th and 11th precincts.

For U.S. Senate

The U.S. Senatorial battle between Glenn Beall (R) and Thomas D'Alesandro is a different story.

Beall, the Republican, ran against D'Alesandro, the Democrat, in a Democratic year and was the only Republican candidate to win a top office.

Every Democrat running for man or member of the legislature in Baltimore City was defeated. Mr. Beall's majorities came largely from the counties, but the colored vote helped too.

In 1952, Beall carried only 5 of the AFRO's key precincts and received 32 percent of the colored votes.

Last November, Senator Beall carried 15 AFRO key precincts and polled 40 percent of the colored vote.

This 8 percent increase in the Senator's colored vote in the city, which is 3,677 votes, is not to be sneezed at.

Beall defeated D'Alesandro in the whole state by only 13,358 votes, and 3,677 of them were colored votes which he picked up in the AFRO's 29 key precincts.

Here are the actual election figures for 1952 and 1958:

1958	
D'Alesandro	27,344
Beall	18,636
Total votes cast	45,970
1952	
Mahoney	39,818
Beall	19,110
Total votes cast	58,928

7,000 more

Mr. Tawes carried 126 precincts and Mr. Devereux, 3.

Why 7,000 more colored persons voted for U.S. Senator in 1952 than in 1958, is the subject of another analysis yet to be made.

What is important in this Senate election is that Senator Beall's percentage of the colored votes cast increased from 32 percent in 1952 to 40 percent in 1958.

The 15 precincts carried by Senator Beall were:

11th ward, 4th precinct;
12th ward, 14th precinct;
13th ward, 10th and 11th precincts;
14th ward, 5th and 7th precincts;
15th ward, 10th and 11th, and 23 ward precincts;
16th ward, 18th and 24th precincts;
17th ward, 3rd precinct;
18th ward, 1st precinct;
19th ward, 1st and 11th precincts.

Table

A table on this page gives comparative election figures for the Tawes - Devereux election in 1958 and the McKeldin - Byrd election in 1954.

Also the Beall - D'Alesandro election in 1958 as compared with the Beall - Mahoney election in 1952.
