ADVISES EYE CARE

Take care of your eyes . . . and your eyes will take care of you.
This is the advice of Dr. M. N. Boskin, well-known optometrist. Among many other precautions to take in guarding against eye strain or eye neglect, never hold your work or your book nearer to your eyes than 13 inches.
Another important bit of advice from Dr. Boskin, optometrist, is to be sure not to read with the light shining into your eyes. Let the light fall over your left shoulder.
It is important that you see your optometrist immediately if you suffer from any eye deficiences. An early examination may mean the difference between no trouble at all and serious trouble.
You can have your eyes examined at Penn Optical Company, 1525 Pennsylvania Avenue.
If you need glasses, you can get them for as little as $10 and pay only $1 a week, at the Penn Optical Company.
