SLIMS AND INVIGORATES:

Mirror Reducing Salon Offers Scientific Care

Sluggish? Overweight?

The Mirror Reducing Salon at 1420 Pennsylvania Ave., which opened this week, offers a scientific treatment which invigorates as well as gets rid of excess pounds.

Previously, colored Baltimoreans who have suffered with these physical nuisances have been unable to get scientific attention, simply because there was no place open to them.

The first complete salon in the State, the Mirror is staffed by competent, trained personnel.

Chiropodist Consultant

It is managed by Mrs. Bernice Lettier, a trained technician who administers treatments to women. Dr. James Burke, a chiropodist, serves as consultant.

William Harris, known professionally as "Seattle Kidd," gives vapor baths, and administers hand massages. A former prizefighter, Mr. Harris has 40 years of experience as a masseur and is licensed in several states.

At the open house, Sunday, visitors were amazed at the large reception room, booths and offices are of attractive design and done in pastel shades. Continuous music, soft and soothing, is provided.

Patients are received by appointment only. Separate hours have been designated for men and women.

Many Intricate Machines

A full course would include treatments upon an electrical massage table. Adjustable to the body, the vibration of the table increases the blood circulation and invigorates the body.

Operating upon the same principle, a "dual" chair slenderizes the hips, waist, and abdomen, and gets rid of excess under arm fat.

An electrical "hobby horse" is used to remove fat from the thigh. A foot unit relieves tired feet. An adjustable hand removes fat and stimulates those areas (such as the face) not accessible to the other machines

Treatments Relaxing

Thus, a full course of the non-shock treatments would give new life to the entire body. The treatments are relaxing, and involve no exercise. The patient needn't disrobe to take them.

The hand massage and vapor baths, as administered by Mr. Harris, are modern applications of the time-tested manual method of reducing.

By Appointment Only

The Mirror affords a beautiful atmosphere for treatments. The reception room, booths and offices are of attractive design and done in pastel shades. Continuous music, soft and soothing, is provided.

Patients are received by appointment only. Separate hours have been designated for men and women.

Neck Broken in Street Fight

Flashlight Believed to be Death Weapon

YOUTH, 18, HELD

Victim, 24, Dies at Hopkins Hospital

A 23-year-old man died at Johns Hopkins Hospital, Wednesday, shortly after his neck was broken in a street corner fist fight.

He is Arthur Leach of 1431 E. Preston St. Police say Leach was knocked down, and kicked while fighting Samuel Covington, 18, of 1611 Gilsboth St.

Covington has been charged with the killing and is being held without bail pending a States Attorney's hearing in Northeastern police court.

Dies in Hospital

After he failed to regain consciousness following the fight, Leach was carried to the hospital by Clarence Hamlett of 1330 N. Bond St., and Andrew L. Jackson of 1229 N. Bond St.

The two men left the hospital while doctors attempted to revive the fight victim. When they returned about an hour later, police waiting there took them into custody.

Covington was arrested at his home early the following morning.

Sgt. Howard Collins of the Northeastern police district, reported finding a flashlight near the fight scene. Witnesses said Covington struck Leach with the flash, light during the battle.

Christens Salon's Vapor Bath Apparatus

Open House visitor of the Mirror Reducing Salon, 1420 Pennsylvania Ave., decided to try a vapor bath, one of several reducing treatments available at the modern establishment. He is Avorn Davis. William (Seattle Kidd) Harris is the male attendant. Another visitor, Mrs. Mageline Carter, looks on.

Paper Bag Flung in Gutter Holds 102 Dope Capsules

A paper bag, flung in a Lurens St. gutter Monday morning contained 102 capsules and a quantity of loose heroin police reported Wednesday.

Arraigned before the U.S. Commissioner Wednesday William J. Phillips, 24, of the 100 block Reedbird Ave., was held under $7,000 bail for a hearing before Commissioner Ernest Volkart next Thursday, on charges of violation of the Federal Narcotics Laws.

Phillips was arrested in a 1950 model automobile, by two plain clothesmen who said they saw him come out of a restaurant in the block of Laurens St. and throw the bag from the car, as they approached.

Valued at $1500

The officers, Joseph Carroll and Casmir Moniewski, said that a search of Phillips uncovered four capsules of cocaine and 10 marijuana cigarettes. The total value of the dope was estimated at $1500.

Captain William C. Feehley at Northwestern police station, said that Phillips told police he rented the car for $125 a week and made weekly trips to NYC, where he purchased the narcotics in bulks.

Police said that Phillips told them he put the drugs in capsules and sold them in 100-capsule lots. He was on his way to make a delivery when arrested, police stated.

The owner of the car also was arrested and questioned in connection with the dope cache but later was released.

The two plainclothesmen who arrested Phillips, also figured in an extended police drive which began in February with the dope deaths of two close buddies.

Climaxed With Arrest

The drive was climaxed on March 31 with the arrest of the alleged ringleader of an organized East Coast narcotics ring and the confiscation of a supply estimated to be worth $20,000.

Since the Feb. 6th deaths of the two 19-year-old pals, Norman Bibbs and Eugene Woodford, was attributed to overdoses of heroin, arrests for dope violations have heightened.

At the time of the smashing of the ring and the confiscation of the $20,000 worth of dope, Captain Feehley stated that his officers would still be on the alert for dope peddlers and addicts in an effort to clear up any subordinates of the ring.

The captain stated that although he is not sure, the arrest of Phillips could be the result of hangovers from the ring.

Robinson Opposes Principle of Nominating Sitting Judge

I can't see how the AFRO can favor re-election of "sitting judges" Julius T. Robinson, 4th, and Israel this week.

Mr. Robinson continued:

"Sitting Judges are always endorsed by small committee of the Bar Association, which never endorses a colored candidate.

"No vote is ever taken by the total number of lawyers. It is always a small committee of the association which determines who is qualified to be judge when a vacancy exists.

No Voice in Appointments

"The committee makes recommendations to the Governor, who in turn appoints its nominee. After a man has been appointed by the Governor, he stands for election at the polls as a 'sitting judge.'

"Why should the appointment of judges depend on the recommendation of some small group in the bar committee which does not include colored lawyers or a majority of all State lawyers?

"Albert S. J. Owens ran against Judge Duffy, the 'sitting judge,' and the sitting judge was defeated.

"Once the small committee of the Bar Association refused to endorse Michael J. Manley. Lawyers forced his name on the list. He is now Judge Manley, and a good one."

Mr. Robinson is an independent candidate for a judgeship in Monday's primary elections.

Suspect Cleared in Dual Attack

Asked why he thought a young mother identified him as the assailant who entered her home, Thomas Howard suggested, Thursday, "Maybe something's wrong with her head."

At any rate, Judge Michael Manley acquitted Howard, 25, who had been arrested on charges of assaulting the woman and her three-year-old child in their home on Sept. 3.

Pointed Him Out to Hubby

There was no evidence against Howard of the 300 block N. Carey St. except the identification of Mrs. Lillie Jones, who pointed him out to her husband several hours after a man entered her house in the 400 block.

Mrs. Jones said she heard her baby crying, and entered the child's room to find her trying to crawl back into bed. It was then, she said, that the man grabbed her for a second, and then fled.

Howard was arrested at his home after Mrs. Jones spied him in the neighborhood later that day.

Was With Girlfriend

He testified that he had spent the night in question with his girl friend, and added that his price record with police was clean.

Prosecutor Alan Murrell asked him why he thought the woman would identify him if he were innocent. It was then that Howard suggested that something was "wrong with her head."

Dental Care Available for School Children

Does your child need dental care?

If your child is in kindergarten, first, or second grade, (public or parochial schools) it is eligible for free care provided by the Baltimore City Health Department in its recently inaugurated program of dental care for school children.

Dental clinics are presently located in Public Schools No. 122 and No. 139.

EYE STRAIN IN SCHOOL

Dr. M. N. Boskin, optometrist-in-charge at the Penn Optical Company, has often been asked, "what can be done to prevent eye-strain in school?"

He says "Eye strain can be prevented by:

1. Correct lighting diffused evenly distributed light (either natural or artificial) without glare.
2. Adjustable seats and desk.
3. Clear, simple book types, printed on unglazed paper.
4. Dull finish schoolroom walls.
5. Letting the child sit where he can see the blackboard.

All children, especially the near-sighted ones, should be guarded against excessive use of their eyes, and all eye defects properly corrected by glasses.

Dr. M. N. Boskin, one of Maryland's outstanding optometrists, corrects this defect when he finds it existing in his patients. His careful examination and the extensive use of scientific instruments that he employs in the detection of astigmatism and other kindred defects has helped give new sight to thousands and thousands of Marylanders.

His offices, the Penn Optical Company, are located at 1525 Pennsylvania Ave. and his hours are from 10 A.M. to 9 P.M., Wednesday, to 6 P.M.

Prices are extremely reasonable with a careful examination and complete glasses furnished for as little as $10.50.

Dr. Boskin's Optical Company has its own laboratory located right on the premises at 1525 Pennsylvania Ave., and so can give you the advantage of quick, courteous service at direct low laboratory-to-patient prices.
