Seek Truth, McKinney Advises Students at Morgan Chapel

"If you are fashioning your life a dear relative—one who passed his examination with a "C" average or one who had applied himself diligently to his studies and had made a high grade.

"and do not use truth as a basis, you are lost" Dr. Richard I. McKinney told students in Morgan Chapel Sunday.

Dr. McKinney, former president of Storer College, is now director of religious activities at Virginia State College. He has been prominently mentioned as the next president of Shaw University.

Urges Application to Studies

He told his hearers to extend themselves to find the truth.

ADVISES EYE CARE

Take care of your eyes . . . and your eyes will take care of you.

This is the advice of Dr. M. N. Boskin, well known optometrist. Among many other precautions to take in guarding against eye strain or eye neglect, never hold your work or your book nearer to your eyes than 13 inches.

Another important bit of advice from Dr. Boskin, optometrist, is to be sure not to read with the light shining into your eyes. Let the light fall over your left shoulder.

It is important that you see your optometrist immediately if you suffer from any eye deficiences. An early examination may mean the difference between no trouble at all and serious trouble.

You can have your eyes examined at Penn Optical Company, 1525 Pennsylvania Avenue.

If you need glasses, you can get them for as little as $10 and pay only $1 a week, at the Penn Optical Company.
