The swanky party on Sunday afternoon, hosted by Dr. and Mrs. Joseph Thomas of Dundalk on their yacht, the Fla-Joe, was chiefly in honor of a number of out-of-towners who were visiting their guests, Dr. and Mrs. Madison Briscoe of Harper's Ferry, Va.

CHAMBERS' STAG

Another party that is going to be more fun than a kit of kittens is Orchestra Leader Earle Chambers' stag at Woodbine, Md., Sunday.

It's the annual affair, for the 26 men of his orchestra, plus allied workers, plus former associates, and provides a day of feasting (with the proper liquids on the side) and a spot of baseball with two teams (musicians and waiters) vying.

Special honorees this year will be Samuel (Tee) Spede, a bridegroom; and Leroy Loggins, who completes 20 years with the musicians' aggregation. There are gifts in store for both.

The day will be spent at "Roc Acres," the Chambers' summer place, at Woodbine.

MRS. SCOTT CELEBRATES

With the heat lifted just in time for merriment, the past week end turned out to be just one gala event after the other for Carrie D. Scott, who celebrated a birthday.

In spite of doing a stint at Douglass high school she managed to plan, shop and entertain with a vim and vigor that left some of the hardiest of us gasping.

Supplying mobs of fine German spiced punch (champagne and **brandied peaches) and an endless assortment of sandwiches** plus all the other niceties of a well executed party, she managed to greet her guests attractively attired in an aqua print, cool looking linen and kept them **going at pinochle, games, dancing and chit chat** until wee hours.

Congratulating her with gifts and cards (and a cable from Ethel Payne, who was in Lucerne, Switzerland this week) were:

Peggy and William Riddick, Gwin and Bill Spencer, Audrey and Douglas Brown, Alice and Milton Brown, Lelia and Lt. William Terry, Myrt and LeRoi Bennett.

Alma Williams, Etna Blackwell, Queenie Lane, Mary Newton, Joe Brooks, George Thompson, Melvin Randolph, Charlie Murray, Alonzo Nickens, John Holbrook and Henry Hall.

On Sunday some of the same gang journeyed to the Severn where Ella and Roland Brooks hosted at their delightful shore nook.

Monday offered dinner and greetings from Chester Slater, and there was a finale at the Comedy Club.

Only regret was at absence of Thelma Parks who usually shares birthday fun with Carrie. This year she couldn't get away from New York.

CALL STEVENSON 'MIDDLE-ROADER':

Tan Delegates Like Adlai But Want Representation

CHICAGO (ANP) — Governor Adlai Stevenson of Illinois will make a good candidate for President, according to the feeling of most of the colored Democratic convention delegates who assembled here last week.

Many of them, however, would have preferred W. Averell Harriman as the candidate, but expressed satisfaction with Stevenson. On the whole, most of them were pleased with the party's convention and platform.

The delegates had one basic criticism, however, of the convention—tan delegates did not take enough active roles in the meeting.

Most of them, who had seen the Republican convention on television, felt that colored GOP delegates had more to say to the party than similar Democrats.

Gave Civil Rights Views

Governor Stevenson is liked by colored delegates because he is a middle of the road liberal — one whom many feel does not go as far as they would like, but who would do something. At his campaign headquarters, his followers gave out this statement on how he feels about civil rights:

"I think the Democratic party cannot retreat from the platform plank adopted at the 1948 convention.

"In Illinois, I have tried earnestly to effect the adoption of a fair employment practices law with powers of enforcement. I feel very strongly this is the first responsibility of the states themselves.

Qualified Federal Intervention

"If the states are unwilling or unable (to prevent discrimination in hiring workers), then I presume there is no alternative to having the federal government do so (and, if that had to be done, the government would have to use) whatever means were necessary."

Among the colored workers at the Stevenson campaign headquarters were Miss Rose Jourdain of Evanston, Ill., a student at Lake Forest College; Robert Ming, James attorney; Raymond Ewell, a student at the University of Chicago, and Lou Alexander of Chicago.

Delegates in general approved of Stevenson. Silas F. Taylor of Boston said:

"Gov. Stevenson is a good, broad liveral who will present the electorate a program of which it can be proud."

Powerful Leader

In Boston, Taylor is a member of the state parole board, a druggist, and a powerful political leader who has respect of both races.

Two Ohio men, alternate Joseph E. Bowman of Columbus and delegate Charles V. Carr of Cleveland called the platform the "best we ever had." They said they were confident Governor Stevenson will carry Ohio.

Delegate Leon M. Martin, a Harriman supporter delegate from New York, was not satisfied with the civil rights plank.

Celester V. McDuffee, an alternate of Detroit, called the plank on civil rights a "watered down" statement. Of Stevenson he said:

"Gov. Stevenson is the best man after Harriman didn't have a chance."

Almena Lomax and her husband, L. W. Lomax, Los Angeles newspaperman, and supporters of Kefauver from California walked out on the convention after they saw that Senator Kefauver was fighting a losing battle. They went home.

Wanted Kefauver

Henry F. Mease of Des Moines, Ia. did not like the Democratic plank and favored a Harriman-Kefauver ticket.

Victor C. Bynoe, delegate from Boston where he is a street commissioner, was critical of the convention in one basic phase—participation of colored men. He said Stevenson was the best candidate the party could choose. He said:

"Not enough colored Democrats took part in key activities of the convention. We better wake up and do more to have our voice heard."

Mrs. Lillian Hatcher, alternate from Detroit, felt as he did. he said:

More Women Workers

"I was very happy to see a large number of women participating as delegates and also various members of minority groups taking active part. However, I would have enjoyed seeing more than one outstanding colored leader taking the podium as principal speakers."

Delegate Prince Clark of Detroit said the civil rights plank was stronger than the one in 1948. He is president of the North End Civic Council. Of Stevenson, he said:

"I am sure he is the candidate who is able to hold liberal. He is a fair minded man who will do the right thing and will work hard to get over his program."

Metcalfe For Stevenson

Ralph Metcalfe, former track star now an alternate from Illinois, definitely was for Stevenson, but said it was "regrettable" that Illinois restricted its vote on the seating of Virginia.

Isaiah Edwards, alternate from Seattle, Wash. said:

"In nominating Stevenson, there is no question in our minds that he definitely will be the choice of the American people in November. General Eisenhower may as well get ready to return to his uniform."

Stanfield, 200 meters, and Harrison Dillard, 110-meter hurdles.

Second places (silver medals) were won by Bill Miller, javelin; Meredith Gourdine, broad jump; Milton Campbell, decathlon; Jim Gathers, 200 meters.

Ollie Matson picked up a third place (bronze medal) in the 400 meters.

In addition, Dillard and Stanfield shared the gold in the 4 x 100 meters relay; and Matson and Whitfield had a part in the 4 x 400 relay, which also brought us a medal.

U.S. Men Prove Best

The United States has had no more entries in each event than either Russia, Great Britain, Germany or Finland. In most cases they have had only two men—but they have somehow proved to be the two best men.

They had that extra kick in a race and that bit of form in the field events. Lack of competition in a Finnish specialty, but the Americans have so mastered the art that Nyrop, Miller complete, is by dominated this event.

Form was plainly apparent in the pole vault and high jump. The Rev. Bob Richards and Don Laz soared over the bar with perfect co-ordination, while most of the others floundered over their way.

The same thing was true in the high jump. The big Texan, Davis, just flowed over gracefully, while the losers looked like flailing windmills. Superior coaching seems to be the key to our success.

VETERANS GROUP MAKES REPORT:

Air, Navy Intergration Better Than Army's-AVC

WASHINGTON (ANP) — On the fourth anniversary of President Truman's executive order directing "that there shall be equality of treatment and opportunity for all persons in the armed services without regard to race, color, religion, or national origin," the American Veterans Committee released a survey of the progress made in carrying out this order.

"The progress has been good" declared Curtis Champaigne Jr., national chairman of AVC. "We congratulate President Truman and the armed forces for this progress. This survey reveals, however, that more must be done before the order is fully carried out. We urge the armed forces to do now what is necessary to comply with this four-year old order."

The AVC showed the following: The air force has come closest to full compliance with the President's executive order. Three months after its issuance, the air force adopted a non - segregation policy. Seven months later the policy went into force.

Now the air force is completely integrated. Opportunity for enlisted airmen, for officers and pilots is open to all without regard to race, color, religion or national origin.

Few Navy Officers

In the navy, four years ago, 80 percent of colored sailors were assigned as messmen. After President Truman issued his executive order, racial signs at Norfolk, Pensacola and all bases came down. Now only 50 percent of tan navy men are messmen, however, there are not more than 50 colored officers in the Navy and none higher than lieutenant, according to the survey.

The worst progress has been made in the Army, stated the report. For a time the army refused to pay any attention to the President's order. Even a year after the order had been issued the army officials were deploring a lack of manpower while still keeping to segregated units, and closing enlistments because of the quota system.

Colored soldiers were barred from basic training in 85 of the 106 training courses.

Segregated Units

This structure was broken down by a manpower shortage at the start of the Korean war. The army followed the Korean example of integration in Europe. Within the United States recruits go into integrated basic training units, but when they leave basic training for other posts in the United States, they go to segregated units. Then when they go overseas, they are again integrated. The AVC spoke of this as an "illogical and somewhat silly situation."

The survey revealed that basic training was integrated in 1950 two years after the President's order
