WOULD COVER SELF-EMPLOYED:

Bill would add more to social security lists

By ALICE A. DUNNIGAN

WASHINGTON (ANP) — No working person should be excluded from social security protection because of the type of work he does, Mrs. Oveta Culp Hobby, secretary of health, education and welfare, declared last week at a press conference.

The new proposals differ from present law by eliminating the requirement that domestic workers must work for a certain number of days for a single employer in order to be covered.

It would cover all domestic workers who work in private homes and are paid $5 or more in cash wages by an employer in a calendar quarter.

One of HEW's social security aid another 300,000 or 400,000 would be required to do so under the proposed law.

The bill also includes home workers, that is people who perform certain kinds of work in their own homes for others, Mrs. Hobby said.

Includes Self - Employed

Benefits are extended to many more farm workers including those who are self - employed. The bill also includes such as doctors, dentists, lawyers, architects, accountants and other self-employed professional people. Clergymen are covered on a voluntary group basis as are several other smaller groups.

The bill would also extend coverage to about 40,000 persons engaged in certain fishing activities such as those employed on small boats or others engaged in clam digging.

The proposal plan outlined by Mrs. Hobby has the support of the President and is in line with his old-age and survivors insurance system message presented to congress Thursday.

In his message stated that the proper aims of all levels of government, including the Federal Government, is to help people provide economic security for their old age and for their families when they die.

Liberia to increase taxes on U. S. firms

TUSKEGEE INSTITUTE, Ala. (NNPA)—The Liberian government has worked out satisfactory arrangements for increased revenues from American companies operating there.

This announcement was made in a report to the National Newspaper Publishers association at its annual mid-winter meeting here Thursday, Friday and Saturday.

The report, based on an interview with Clarence L. Simpson, Liberian ambassador to the United States, was made to the NNPA by Dr. Carl Murphy and William O. Walker.

Mr. Murphy is president of the association and publisher of the AFRO-AMERICAN Newspapers, and Mr. Walker is secretary and publisher of the Cleveland Call and Post.

Tax Laws Revised

The Liberian ambassador stated that the Liberian income tax laws of 1939 and 1950 provided that the Firestone company must pay an income tax on a "progressive rate." Mr. Simpson added:

"In early 1953 the Liberian government requested that consideration be given by Firestone to the changed world rubber situation which caused the price of rubber to drop from 79 cents to 19 cents a pound in a few months.

"In the light of the extensive development program which has made facilities and services available to assist the operations of the Firestone Plantations to a degree not envisioned when the 99-year concession agreement was made in 1926," Mr. Simpson said, the request was made.

Firestone Tax Increased

"By arrangement between the Liberian government and Firestone, the latter will pay income tax at the rate of 25 per cent instead of 14 per cent for the next 11- years," the ambassador said, adding:

"Firestone officials admit that their decision was also influenced by a desire to assist in making possible the continuation of the astounding progress the country has been making under the Tubman administration since 1944."

Asked whether the same thing had been done with reference to the American company which is operating the Bomi Hill ore mines, Mr. Simpson replied:

From $100,000 To $1,500,000

"Liberia, until the new agreement made at the end of 1952 received a small royalty on each tone of ore shipped. This amounted to approximately $100,000 a year.

"A revision of the old agreement was requested by the Liberian Government due to the fact that many of the construction costs originally to be borne by the company are being paid for by the Government.

"Under the new arrangement, Liberia will get royalties amounting to between $1,500,000 and $2,000,000 a year now, with an escalating profit-sharing clause which will provide Liberia with a full 50-50 share of the proceeds in twenty years.

Budget Increasing

The report showed that the Liberian budget in the past 10 years has jumped from $770,000 to $10,000,000. "In view of available data," Mr. Simpson told his interviewers, "the estimated revenue for 1954 is $13,000,000 odd."

With the exception of the fragrance of the atmosphere, made up by the perfumed women, spell, but prosperity, The stores are crowded: so are the restaurants, hotels, amusement places, etc.

Old Paris Again

There must be jobs and money to make this possible. Paris, is no longer the ghost city of 1945, but the flourishing Paris of old.

Leaving Paris by plane, for the first ten minutes of your flight from Orly field you follow the valley of the Seine. Near the meandering river below is Fontainebleau, surrounded by a magnificent forest, the hunting grounds of the French kings.

In 15 more minutes beyond Fontainebleau, you reach the geographical heart of France. Soon your plane is over Geneva, the capital of French Switzerland. It is the center of Swiss and international culture.

IMPRESSIONS OF EUROPE AND ASIA:

New post-war prosperity brings back Paris of old

By Rev. ROBERT WILLIAMS

PARIS — Paris has always been one of the principal convention cities of Europe. I remember with a great deal of pleasure the first peace conference in 1946, which it was my privilege to attend as representative of the AFRO and the Associated Negro Press.

While I was in this charming city this time, there was a meeting of the ministers of the 14 NATO countries. These meetings have become a well-established practice with the Atlantic Alliance.

NATO started with small forces in Europe, but now it is strong. It is largely
