Harpsichord Trio performs for Barbour school pupils

The Harpsichord Trio, an outstanding New York chamber music ensemble, will present a recital for pupils of Barbour School No. 161, Saratoga and Schroeder sts., at 2 p.m., Monday.

The program has been arranged by the principal, G. Albert Wright, in cooperation with Mrs. Sidney Friedberg, chairman of public school participation for the Young Musicians Series.

The trio whose members are Gabriel Banat, violinist; Samuel Baron, flutist, and Fernando Valenti, harpsichordist, will perform works of classical and modern composers.

They will also explain the mechanics and aesthetics of their instruments during an informal discussion period.

First Such Concert

The concert will be the first to be sponsored by the Young Musicians Series in a colored elementary school, and will be attended by elementary department officials as well as by the school staff members.

Young Musicians Series was organized four years ago to give Baltimore school children a first-hand acquaintance with some of the country's finest young musicians and with the chamber music literature written by the greatest composers.

A small group of schools subscribed to the first series of concerts, which were performed by string and woodwind ensembles monthly throughout the school year.

Also At Art Museum

Additional recitals were presented at the Baltimore Museum of Art for the public.

The movement has grown until many schools are now subscribers, and many additional children, including pupils in the colored schools, are enthusiastic veterans of the museum concerts.

Coppin State Teachers college has been a series subscriber this year.

The trio will give a public concert at the Baltimore museum of art on Saturday, March 13, at 11 a.m. Proceeds will be used to support next year's recital series.

Coppin slates young musicians

The third in a group of recitals presented by the Young Musicians Series to students and friends of Coppin State Teachers college will be given on March 12, at 8:30 p.m. at the Baltimore Museum of Art.

The group was organized to provide young musicians with opportunities to appear before the public, and be heard at their best.

Chamber Music

The program on March 12, "An Evening of Chamber Music," will feature a harpsichord trio assisted by Miss Betty Allen, mezzo-soprano.

Miss Allen is another newcomer to the Youn Musicians Series with a rich background on the adult concert stage. She is a graduate of the Hartford School of Music.

She has appeared with the Boston Symphony in Boston and New York. She is a winner of the Marian Anderson Award, and was selected as a John Hay Whitney Foundation Fellow for the current year.

Student wins chemistry award

Excellence in general college physics during the first semester has won for a Morgan State college student a chemistry achievement award of the Chemical Rubber Company of Cleveland, Ohio.

The award, the 35th edition of the Handbook of Chemistry and Physics, has been presented to Miss Blanche Leatherman, an honor student from Chicago.

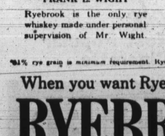
The following is the United States Government's official definition of Straight Rye

"Straight Rye Whiskey is straight whiskey distilled from a fermented mash of grain of which not less than 51 per cent is rye grain."

If the whiskey you're drinking is real rye whiskey, it will say so right on the label. If it doesn't say so, you are not drinking rye whiskey.

So if you want to drink rye, make sure the label says it's rye. And if you want to drink the choicest rye—true Maryland rye—get a bottle of Ryebrook. This is the only rye whiskey made under the personal supervision of Mr. Frank L. Wight. He's making Ryebrook on the original site of the famous Hyatt & Clark Distillery, founded in 1868. He's making it just as it was made then. Just as his father and grandfather before him made it. Unless you're an old-timer, this is rye whiskey such as you may never have tasted before.



FRANK L. WIGHT

If your taste runs to rye, make sure your next bottle says it's rye right on the label. And to drink "the flower of Maryland rye," try a bottle of Mr. Frank L. Wight's specialty . . . RYEBROOK.

$1.54 Half-Pint

$3.00 Pint $4.75 4/5 Quart (Plus Local Taxes)

Ryebrook is the only rye whiskey made under personal supervision of Mr. Wight.

*84% rye grain is minimum requirement. Ryebrook is made with 90% rye grain.

Announce New Way To Shrink Painful Piles

Find Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to stop bleeding—without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

New this new healing substance is offered in ointment form for hemorrhoids under the name *Preparation H.*® The price is only 98¢ a tube including an applicator. The name to ask for is Preparation H—at all drug stores. And remember—if not entirely satisfied—your money will be refunded promptly. *Trade Mark

Court convicts women rioters

ANNAPOLIS, Md. — Sixteen women who took part in last summer's riot at the State Reformatory for Women were convicted Wednesday.

Sentences which totaled 68 years on charges of rioting, assaul and destruction of property were suspended by Circuit Judge James Clark.

The trials which lasted for two days in the Anne Arundel County Court drew testimony from a House of Correction official and more than 25 State Troopers who helped quell the July 7 riot.

Fifty-three women were housed in one of the dormitories where troopers were forced to make two invasions before ending the riot.

One police officer was cut by a fragment of glass and several inmates at the institution were injured.

NEW FACTORY BRANCH — The world's largest exclusive electronics manufacturer, Motorola, recently opened a factory branch at 522 Light St., under the supervision of C. F. Shaw, general manager. Motorola, long known for the first car radio, is now producing fine quality television and home radios, available to the dealers of Baltimore through this new point of distribution.

all the American people," he added.

No stranger to Washington, Mr. Wilkins has for the past six months served as vice-chairman of Mr. Eisenhower's government contract compliance committee headed by Vice President Nixon. When he was introduced to the press at the Labor Department about 60 Washington correspondents gave him "the full treatment."

He was first asked if he were a Republican. He replied that he is one. He was then asked if his son, John Robinson Wilkins, who was present, were also a Republican.

Mr. Wilkins said he felt his son could best answer that question. His son answered by saying:

"I support the present administration."

Mum On FEPC

Mr. Wilkins was then asked to comment on a statement made on Wednesday by President Eisenhower in which the President said he is opposed to a Federal FEPC law.

"I do not think it is within my jurisdiction to comment on that," Mr. Wilkins replied. "I think the question should go unanswered here."

A reporter then asked him whether he felt his race would aid him in his new job where he will represent the United States in international labor conferences around the world. Mr. Wilkins answered that he felt his race would be "an aid to American government" in such matters.

Awaits Confirmation

Mr. Wilkins resides at 1059 Hyde Park ave., Chicago. Besides John R., Mr. Wilkins has two other sons: E. Ernest Jr., now employed at the Nuclear Development Associates, White Plains, N.Y., and Julian B., a lawyer in Chicago. John is an attorney in the U. S. Department of Justice.

Mr. Wilkins' appointment will be sent to the Senate for confirmation.

Mr. Wilkins was born in Farmington, Mo. He received his A.B. degree from the University of Illinois, J. D. degree from the University of Chicago law school, and an honorary LL.D. degree from Lincoln University, Missouri, in 1941.

He has practiced law in all of the courts in Chicago continuously since 1931, and is a member of the Illinois Appeals Board of the U. S. Selective Service.

To Phi Beta Kappa

Mr. Wilkins has a unique family background. He is a Phi Beta Kappa from the University of Illinois. Two of his three sons are graduate lawyers from Harvard University. J. Ernest Wilkins Jr., a scientist, is the youngest person to receive a Ph. D. from the University of Chicago. Young Wilkins worked on the atomic bomb project during World War II.

Mr. Wilkins is a member of the Cook County (Illinois) Bar Association; the Illinois State Bar Association; the National Bar Association and the American Judicature Society. He is a Mason, a member of the Kappa Alpha Psi fraternity and the Methodist Church.

He holds the distinct honor of being the first colored man to ever be elected a member of the Judicial Council of the church. The Judicial Council is Supreme Court of the church. He served from 1942 to 1948 as a member of the executive committee of the General Commission on World Service and Finance.

J. ERNEST WILKINS

The President's Government Contract Committee, of which Mr. Wilkins is vice - chairman, determines whether industries and businesses holding Federal contracts are engaging in discriminatory employment practices.
