Wilmer Bell, director of adult education, has announced that the Baltimore Public Evening Schools, located throughout the city, will be open for registration during the week of Sept. 14th and all classes are scheduled to start during the week of Sept. 21.

**All indications locally point to a heavy enrollment. More than 16,000 turned out for the free night classes last year, and, according to Mr. Bell, this figure will probably be topped by several thousand during the coming term.**

Each year many more adults are taking advantage of the excellent free courses being offered in the Evening Schools. More than 200 courses are being scheduled this year in the following areas:

Elementary - junior - high school, high school, Americanization and citizenship, arts and crafts, vocational and trade training, business education and distributive education, patternmaking, personal develop ment, apprentice training, supervisory management and special industrial training.

Copies may be obtained by calling, writing or stopping at 1415 N. Paul St., Hopkins 5-2000, extension 321.

This publication presents the opportunities for adults, and describes the various service areas, in addition to other valuable information.

FOREST PARK Education Center will again offer the best selection of adult education courses in the areas of special courses, industrial arts and vocational education, commercial education, according to Harvey Nichols, principal of this center, is preparing for registration of approximately 5,000 students.

Mergenthaler and Carver should again attract those men and women desiring to increase their knowledge and skills in business, industrial and technical fields.

Joan Edelmann, principal of Mergenthaler, and Ethel Williams, principal of Carver have competent staffs of expert teachers to handle the following subjects: Acetylene Weld ing, Arc Continuous Airplane Mechanics, Agricultural Diesel Mechanics, Auto Mechanics, Bakery, Barbering, Bricklaying, Cabinet Making, Carpentry, Combination Welding, Commercial Art, Cosmetology, Dressmaking, Dry Cleaning, Electric Welding, Electric Wiring, Electronics, Engineering, Floriculture — Green House, Food Preparation Service, General Woodwork, Machine Shop, Oil Burner Service, Painting, Decorating, Power Machines, Practical Nursing, Printing, Radio, Refrigeration, Shoe Repairing, Sign Painting, Tailoring, Television, etc.

* * *

IN SEVERAL of the adult evening schools during the 1959-60 term special courses will be offered in Machine Shop, Electricity, Electronics, Drafting, Blue Print Reading, Industrial Mathematics, Physics and General Science.

These courses will not offer first hand information and practical experience.

Mr. Bell indicated that there has been an increasing need for courses such as these in which an adult can get basic information, new skills and practical experiences as a supplement to his regular job or as a means of obtaining a better understanding of a new field of work.

SINCE THE beginning of adult education in Baltimore the Americanization program has been one of the most important activities in the community.

During the coming year it will open the door to citizenship for many of our foreign born residents, and provide additional classes in English, citizenship and conversation for non - citizens.

According to Mrs. Minnie Graham, supervisor of Americanization, special classes for illiterates are also available, and in addition to these opportunities for the adults there are also classes for foreign born children offered during the day.

**WE HAVE A POTENTIAL** big league player in our midst. Hilbert Hebron, tenth grader at Banneker, played baseball with the Chesapeake Transfer Team as catcher and left fielder.

He ended the season with a batting average of .400.

Here's hoping Hilbert goes places. When you have talent and ambition, the sky's the limit.

**Incidentally, your own Banneker Playground, functioning under the Baltimore County of Department of Recreation and Parks develops many hidden talents in various areas every year. It's one of the largest and best organized summer recreation centers in the county.**

And weren't you proud when the kids won the American Athletic Union Jr. Olympics of Baltimore County for the 6th straight year!!!

With such a record they truly deserve to be considered champions!

OTHER ACTIVITIES sponsored by the playground were story hours, music and action games, bowling and softball.

Regular movies were shown every Thursday to help fill the emptiness children feel when there is no movie nearby for them to attend.

**The smooth operation of the recreation center can be credited to its well trained staff. Senior worker is Henderson Neal Jr. who holds a master's degree from N.Y.U. and is a teacher at Baltimore City's Booker T. Washington Jr. High School.**

Assisting Mr. Neal were Mrs. Cleaver Poag and Miss Florence Brown. Mrs. Poag is a graduate of Morgan and has done further studies at Boston U.

Although Mrs. Poag has worked extensively, directing the winter teen center, this is her first year as a summer playground worker.

Miss Florence Brown is a secretary in the principal's office at Sollars Point High School. This is also Miss Brown's first year on the playground and she too has had invaluable experience working with the winter teen center. By the way, this lady's pride and joy is her son, Nathaniel, Nathaniel, "Spider," Parham was Catonsville Senior High's star forward and highest scoring basket ball player last year. How about a repeat performance Spider?

DID YOU KNOW that Mrs. Jessie Stewart, president of the Recreation Council in this area and a relative of Miss Florence Brown did much to make your recreational program a success?

You'll be reading about Mrs. Stewart in a later issue. She's a dedicated community worker. Every community needs more interested citizens like her.

WHILE THE ice cream cone set, high school and college crowd were dasing here and there, Baltimore County faculty members were dashing too, dashing to workshops and various schools of higher learning so that they may be better prepared to educate your children.

**Off to the I.B.L.E. workshop at Morgantown were our principal, Mr. David S. Driver, Mrs. Edith S. Clement of Catonsville Junior High and Mrs. Ellen Thornton of Sollars Point High School. I.B.L.E. is an industry Business Labor Work shop.**

Again, Syracuse University beckoned to Miss Lola Mills, Banneker English and Reading teacher. Finding time within her six weeks stay at the university to put aside the study of tests and measurements and occupational education, Miss Mills visited neighboring cities and points of interest around Syracuse.

I'M NOT A MATHEMATICIAN, but 62 out of 450 has some percentage value. The 3rd Summer Science Institute sponsored by the National Science Foundation was held at Morgan College.

**Our Mr. Gerald S. Griffin was one of the lucky applicants. From 450 applications, 42 were accepted.**

**For eight weeks top scientists and instructors from throughout the United States and foreign nations lectured on the topic Modern Trends in Mathematics And Science.**

When the course was over, teachers from Maryland, other states and the Virgin Islands departed for home with their minds brimming over with the most recent scientific information. Congratulations, Mr. Griffin.

HOLD ON TO YOUR HATS!! Here's something else. This is the first year the General Electric Corporation has sponsored a Guidance Program.

**Fifty fellows from 11 states and the District of Columbia were elected. Our counselor, Mrs. Gwendolyn Faggett, was one of the counselors sent, by the company, to Syracuse University on a General Electric Guidance Fellowship for the 1959 summer session. Congratulations Mrs. Faggett!!!**

Your columnist, Doris B. Brown, worked for credits toward a master of education degree at Loyola College.

LET NOT OLD ACQUAINTANCES be forgotten.

Faces we'll miss at Banneker this year: Miss Julia Clark who has been assigned to Bragg Elementary School. Irving L. Green Jr., now chairman of the art department of Cherry Hill Jr. High School. Bye by, Mr. Green lacks but six credits before he wins his master's degree.

Mrs. Cleaver Poag former physical education teacher at Banneker is now junior high physical education insructor at Sollars Point High.

**Mrs. Edith S. Clement, former senior class sponsor at Banneker, is now an 8th grade core teacher at Catonsville Junior High School.
