buckskins and denims... one up on the West

HOW THE EAST WAS WON: REVERSIBLE BUCKSKIN JACKETS AND WELL-DRESSED DENIMS
How did they get to be such city slickers? Denims worked on the ranch. And buckskin was the fringed Western jacket they called pardner. But look at them now, come to town and ready to be roped into a casual, classic east Coast look. The downtown denims are all slicked up with classy rainbow stitching or lattice work pockets, by Miss H.I.S. And they still break records for endurance and comfort with cotton. The buckskin suede jackets rustle up a big surprise . . . they're reversible! Each side has different style pockets and switches from mostly suede to a mostly pigskin-effect trimmed in the reverse. At home anywhere, and definitely in your range. A. The updated Missouri Breaks jacket in earth or rust; 8-18, $55. B. The in-town Rio Grande denim blues with lattice pockets; 8-16, $20. C. The new Gold Rush jacket in amber or brown; 8-18, $55. D. The big-city High Sierra rainbow jeans; 10-16, $21. E. The new Great Divide split skirt with lattice pockets; 8-16, $20
