Moby Dick Predicts

By Moby Dick

Spring madness will bring violence, both national and political

Economically, the USA gets punched in the gut this month, though it is mainly the stock market that staggers; employment and other economic indicators are not involved, except that a few big companies go broke. Don't be discouraged. Next month the economy blooms and booms.

Day by day, the early days of the month are dull days, but may also bring violent words and acts, mostly between countries, and any demonstrations are likely to turn into riots.

The first week is one of the likeliest earthquake periods, as the eclipse sets up a strain on the earth's crust. Look for things begun during this period, to pay off, good or bad, in either two weeks or six months.

The second week brings good news out of bad, poignant human interest stories of people helping people out of disaster.

The first good news about this year's abundant harvest surviving the floods, and even benefitting from them comes near the end of the week. It is a good time for you to go after what you really want.

APRIL 13 — Get your business affairs taken care of — it's a good day for work, and play day is coming.

APRIL 14 — Don't expect to get much done today, and be discreet about who finds out what you do. A day of romantic surprises and secrets for a surprising number of people. Spring Madness!

APRIL 16 — Lies and love dreams are hard to separate. It might be more fun to (pretend to) believe. Romantic, artistic and creative things work well today.

APRIL 21 — Mixed news. The world is doing great and your heart is likely to be broken.

APRIL 25 — A brave day, with heroes doing daring deeds. Of course, that always means trouble.

APRIL 26 & 27 — The core days of a long period of explosive changes, and violence both natural and political. There will be heated debate over abortions and capital punishment, those who are against the one being for the other. But the events indicated by this transit may happen up to a month before, or even a week or two after this climax.
