—Handicapped

(Continued from page 1)

students from nearly every state were enrolled full - time, meeting the projected enrollment capacity goals.

In 1977, NTID entered a new phase in its development with the creation of NTID Project Outreach, a special, major, long - term program of national scope. It formalized NTID's intent to grow as a resource for schools and other agencies involved in the mainstreaming of deaf persons.

More recently, NTID established the National Center on Employment of the Deaf, which will serve as a national service agency and authority on the employment of hearing - impaired persons throughout the nation. It will coordinate the development of national job opportunities for deaf people with other post-secondary institutions, rehabilitation agencies and employers.

Today, NTID is an integral part of RIT, and one of its ten colleges. Although it serves a special segment of the student body, approximately 25 percent of NTID students also attend regular RIT classes. It is a one - of - a - kind program that educates a large number of deaf students in a hearing environment.

NTID is also a national institute in its own right, receiving annual federal appropriations as a special institute (along with Gallaudet College, Howard University and the American Printing House for the Blind), regulated by the Congress, Department of Health, Education and Welfare, and by the National Advisory Group.

In summarizing NTID's success, Dr. William Castle, NTID director and vice president of RIT, notes, "NTID is the only college - level institution in the world where more than 900 deaf students are assimilated into a hearing college environment.

As such, NTID has established a nationally recognized prototype for the successful delivery of a comprehensive system of support services for deaf students to facilitate their education with larger numbers of hearing students. We have built a model here which could be appropriate to other handicapped and other disadvantaged populations."

In order to better serve our readers and advertisers, the AFRO-AMERICAN NEWSPAPERS requests that you take a few moments to complete this questionnaire. Your responses will help us to make improvements for future Special Supplements like Opportunities 1979.

Please complete and return by January 1, 1980

READER SURVEY

Age _____ Present Address: City _____

Are you presently a Student _____ Name of College _____

employed _____ Name of Company _____

unemployed _____

Last grade of school completed: Please circle

High School: 1 2 3 4 ☐ College: 1 2 3 4 ☐ Grad.: 1 2 3 4 ☐

Degree received: yes _____ MA _____ BA _____ PhD _____

no _____ MS _____ BS _____

How long have you been employed? _____

unemployed? _____

Field of study: _____

Field of work: _____

Career goal: _____

Are you currently looking for a job or thinking of moving to a new one? yes _____ no _____

Would you consider relocating to another state to accept a new job? yes _____ no _____

If yes, area preferred for relocation: _____

This is the 17th year Opportunities has been published. Have you seen previous editions of Opportunities or Career Planning before? yes _____ no _____

If yes, did the recruitment advertising help you in your job search? yes _____

or choice of school? yes _____ no _____

Did the articles help you? yes _____ no _____

The University of Florida (Florida's first University) is located in Gainesville, Florida. Gainesville, a city of approximately 85,000 residents, excluding the university's 30,000 students, is situated in North Central Florida. The city is known as an agricultural and small industrial center. Gainesville is "the University City" and is well prepared to accommodate the needs of students.
Located on 1,919 acres of land, the University's twenty colleges offer a wide range of career choices. The University of Florida ranks among the top three universities in terms of course and program offerings on a single campus.
