22 debs presented at Tri-state cotillion

On Saturday, March 12 the Tri State Association of Maryland, Delaware and the District of Columbia of the Improved, Benevolent, Protective Order of Elks of the World held its twentieth annual Debutante Cotillion at the Hilton Hotel in downtown Baltimore.

The association presented 22 debutantes to society in a program reeking of class.

The presentation of these young women to the community represents the Tri-State effort to encourage scholarship, continuance of education and the development of leadership qualities of youth.

There was a prelude by the orchestra and the introduction by William S. Fountain, State president. Emcee was Dr. Charles E. Johnson.

The presentation of the debutantes, during which they took their formal bow, was choreographed by Mrs. Nikki Randolph. Chairperson was William Braxton. Co-chairperson was Mrs. Effie Coleman.

Self-Help Collective to celebrate

Black Women's Self Help Collective, a grass roots organization of black women who have decided to do something about the tragic status of health in the black community, will host a celebration on Sunday, March 27.

March 27 is the first anniversary of the community based organization which sees the need for black women to promote a turn about of health in the black community.

In the words of Fannie Lou Hammer, which Black Women's Self Help Collective has adopted as their motto, they are, "Sick and tired of being sick and tired."

ABWH CONFERENCE

The Association of Black Women Historians (ABWH) is proud to announce that the National Endowment for the Humanities has funded its proposal to hold a research conference entitled, "Women in the African Diaspora: An Interdisciplinary Perspective."

The Conference will be held Sunday, June 12 through Tuesday, June 14, 1983 at the Blackburn Center, Howard University, Washington, D.C.

There will be no charge for conference participation; however, participants will be limited to 300. Pre-registration is required for admittance.

This Conference will include speakers and an audience of scholars from a variety of fields, who are teaching or researching either black women's history, black women's studies, black studies, or African diaspora studied.

The audience will be selected on the basis of their desire to contribute dialogue and to raise questions about future research in women in the African diaspora.

For further information about the Conference, call: Rosalyn Terborg-penn home: 301-730-4296 Morgan State University: 301-444-3190 OR CALL Lillian S. Williams at Howard University 202-636-7090 or 7077.

Hints For Homemakers/Inez Kaiser

How to get kids to brush their teeth–and like it!

DEAR INEZ: As one of your former students, I'm looking to you for help. My seven-year-old daughter doesn't like to brush her teeth. She says all toothpastes have an awful taste. How can I get her to brush her teeth more often? —EXASPERATED MOM

DEAR EXASPERATED MOM: It is good to know that you remembered me and value my advice. And I happen to have a sure and simple solution to your problem.

Just go out and buy a tube of AIM toothpaste. It is sure to help show your daughter that toothbrushing can taste good and sometimes can even be fun.

AIM is a gel toothpaste that comes in two flavors—regular and mint. The important point is that AIM has the great taste that children really love. It encourages children to brush their teeth longer and better, which we all know is an important part of the job.

AIM also contains fluoride and is clinically proven to reduce cavities. That's especially important for children between the ages of 6 and 12 when they are so cavity-prone.

Aim— Aim—

In fact, no other toothpaste has a more effective fluoride formula or fights cavities better than AIM. The American Dental Association recognizes AIM as an "effective decay-preventive dentifrice" because of its cavity-fighting effectiveness.

I would also suggest that you write for a copy of Aim's "Parent's Guide to Hassle-Free Cavity Fighting." Just send your name and address to: Parent's Guide, P.O. Box 7118, Stratmar Station, Bridgeport, CT 06650. You will find this booklet full of helpful hints that will make it easier for you to establish good dental habits for your children.

SOFTER, SMOOTHER SKIN IN 7 DAYS

ONE OF THE BEST advertisements for a product comes from asking women to tell you what they think about it.

This is just what the makers of DOVE beauty bar did. They asked lots of women across America to give up using their ordinary soap and take the DOVE seven-day test. [illegible] and asked them how their skin felt after taking the DOVE test.

All of the women agreed that soap had dried their skin, but that DOVE left their faces feeling soft and smooth.

More and more women each day are discovering that DOVE is not a soap. It is actually a very special beauty bar with an exclusive formula containing one-quarter moisturizing cream plus mild cleansing agents which leave your skin feeling soft and smooth.

The story of DOVE's mildness has been supported by the findings of Dr. Albert M. Kligman who recently conducted a study to assess the irritancy of 18 well-known toilet bars and their effects on skin.

The study singled out DOVE as the only bar tested that could truly be call d "mild," thereby placing DOVE in a class by itself.

ADD CLEANING POWER TO YOUR SINK!

THERE'S A NEW liquid dishwashing detergent on the market that has been making quite a splash these days. In fact, it seems to be a favorite topic of conversation wherever I go.

The new product, called SUNLIGHT, has extra cleaning power, because it has the juice of a whole lemon in every regular-sized bottle. Lemon juice is an especially effective cleaning agent.

The real lemon juice in SUNLIGHT provides the extra cleaning power that cuts through the toughest dishwashing jobs like caked-on, baked-on, dried-on foods.

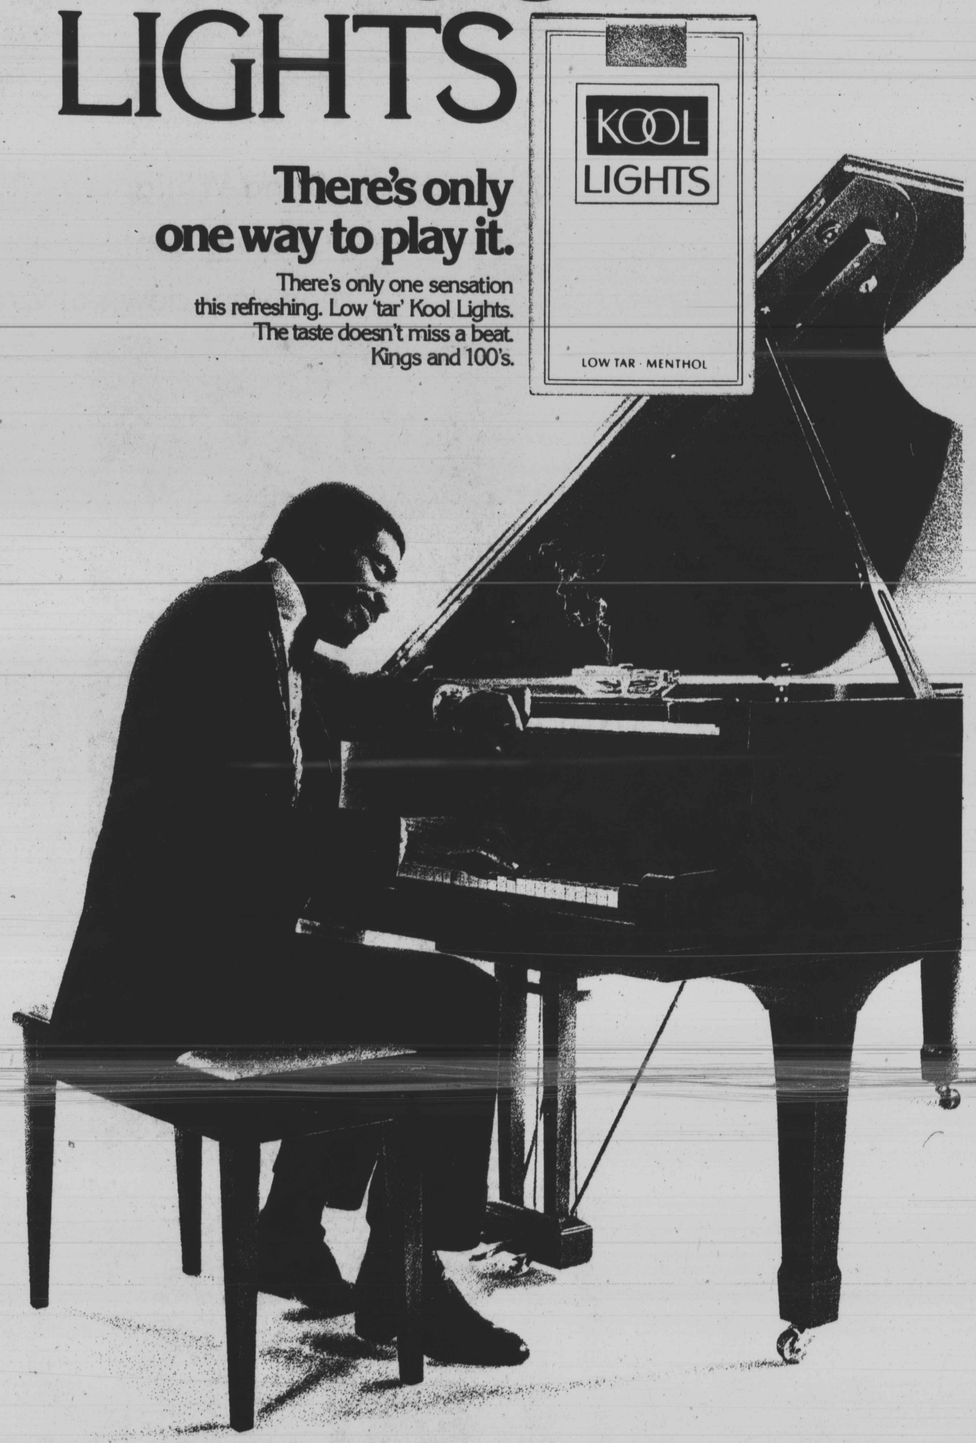
Once you use SUNLIGHT, it will be easy to discover the difference that real lemon juice makes when you wash dishes and glassware and silverware and pots and pans. In short, the whole thing!

So start using SUNLIGHT now. Let its extra cleaning power get your dishes SUNLIGHT clean.

KOOL LIGHTS

There's only one way to play it.

There's only one sensation this refreshing. Low 'tar' Kool Lights. The taste doesn't miss a beat. Kings and 100's.



Warning: The Surgeon General Has Determined That Cigarette Smoking Is Dangerous to Your Health.

Kings, 9 mg. "tar", 0.8 mg. nicotine; 100's, 10 mg. "tar", 0.9 mg. nicotine av. per cigarette by FTC method.
