MARYLAND DEPARTMENT OF TRANSPORTATION
BY AUTHORITY OF THE TRANSPORTATION ARTICLE, SECTION 2-103 OF THE ANNOTATED CODE OF MARYLAND

This is to announce the availability of a GRANT PROGRAM to fund FEASIBILITY STUDIES (50% of total cost up to a maximum of $15,000) to examine the fesibility of establishing FERRY BOAT SERVICE on the Chesapeake BAy and Maryland estuaries of the Bay.

The purpose of this program is to encourage private sector, potential owner/operators to examine the feasibility of establishing ferry service by partially subsidizing financial and market analyses.

Individuals, groups, and organizations interested in evaluating a specific concept for ferry service on the Chesapeake Bay, or one of its estuaries, may be eligible to receive funds through the Program. Only those interested in operating the service will be considered. Prospective grantees will be required to provide a preliminary financial plan as part of the submission.

Funding is not restricted to any particular type of ferry service or technology. Service can be commuter and/or tourist, vehicular and/or freight using conventional or high speed vessels. The potential grantee should be cognizant of applicable federal laws governing vessels providing water transportation.

To obtain a copy of the Grant Program, which outlines the proposal information that must be developed to apply for a grant, please contact:
