NOTICE TO FARMERS!

OCEAN BONE T. R. HUBBARD & SON,

MANUFACTURERS OF

American Standard and Extant BONE SUPERPHOSPHATES,

Sole Proprietors and Importers of OCEAN BIRD GUANO.

The above FERTILIZERS

are MANUFACTURED OF pure dissolved Bone, Bone Tankia, Nitrogen and Potash, rendering them among the most concentrated and valuable manures ever sold on the market. The process of grinding Bones and mixing fertilizers is rigidly carried on by the use of the best and most improved machinery of about 60 Tons capacity per day to the inspection of which all Farmers and the public generally are most cordially invited.

See references below of a few of our many patrons who have repeatedly used our goods with full satisfaction:

A PRIZE

Will be given to Every Farmer

WHO TRIES THE

DEERING

TWINE BINDER,

AND DOES NOT DISCOVER THAT

It is Excelled by None!

But is Superior to Most!

It is warranted equal to or better than

any Binder and Harvester made.

Unequalled for Simplicity, Beauty of

Design and Durability.

During the Harvest of 1883 this machine

gave repeated proof of its incompara-

ble excellence, and stands as the leader

and most successful Twine Binder of

the Farmer in Kent Co. today, and

now as you are preparing to meet

the harvest of '84 we would respectfully

request you to look at the record of the

DEERING TWINE BINDER in the

past in Kent Co., or in other words, at

home.

In 1882 we sold thirty Deering Binders.

On the merit of these eight in 1883 we

sold THIRTY-ONE!

Every Machine Sold Settled for and

Giving Satisfaction.

No other Binder sold in the County can

produce as satisfactory a record both to

patrons and manufacturer.

OUR LIST OF PATRONS:

Samuel L. Brock, Henry J. Gray,

John Morris, J. E. Newcomb,

Henry J. Carrill, William Morris,

Benj. F. Beck, Geo. Beck,

John F. Copper, Wm. Purnell,

Thos. L. Bowers, Harrison I. Parsons,

Mrs. Simon Wickes, Samuel Vannort,

John W. Fowler, Willard Ellison.

We would be pleased to have you en-

quire of the above owners of "DEERING

Self Binders" from all parts of the

County as to the merits, simplicity, durability,

light draft and good work of their Har-

vesting machines.

REMEMBER, we use but ONE-FIFTH

as many parts in our knot-hug device

and ONE-THIRD as many in our tucker

and other binders do to make the same

work.

That we now enter our sixth year and

harvest with every assurance of a thor-

oughly successful and satisfactory career

for the DEERING Self Binders with all

its patrons.

That the agency of the Binder remains

the same year after year, making it con-

venient for repairs and instructions—A

decided advantage over most competi-

tors, many of them changing agencies as

often as their managers pass through

the County.

That the 5 ft. Deering cut actually 5

ft. 4 in.; the 6 foot cuts 6 ft. 4 in.; the 7

foot cuts 7 ft. 4 in.; and the 8 foot 8 ft. 4 in.,

and without driving the near horse into

the grain—a marked contrast with many

of our competitors. One of the latter put

up a machine last year with a cutter bar

exactly 7 ft. long and called it an 8 foot

cut!

POSITIVELY no Harvester and

Notice to Farmers

Known and reliable house of

Read what the Farmers say that

have used the Osborne:

Rock Hall, July 5, 1883.

Messrs. D. M. OSBORNE & Co.—Gentlemen—

I bought one of your No. 12 six (6) foot Binders,

and used it all through my harvest of 1883, and

will say that it gave me perfect satisfaction

in every particular, and if my crop is good next

season I shall want another of your Binders.

The machines are of light draft and easily man
