Kent News.

SATURDAY MORNING............JULY 4, 1885.

ANDREW PETERSON, a Wilmington policeman, was shot and killed last Saturday by a man named Lewis Davis, who was quarreling with him and drew a revolver on his wife. Peterson endeavored to quiet Davis, threatening to arrest him if he did not desist. Davis then turned upon Peterson and shot him through the heart, killing him instantly. Peterson leaves a wife and seven children. Davis was arrested and removed to Newcastle jail that night for fear he might be lynched.

CHANDLER AND THE DOLPHIN.—Ex-Secretary Chandler has written a letter to a New Hampshire paper, in which he labors in his usual elegant style to demolish his successor at the head of the Navy Department for not being pleased with the Dolphin. He attributes Commodore Belknap's unfavorable report on the Dolphin and Secretary Whitney's action on the report to partisan feeling, both being democrats. As for Mr. Roach, the ex-Secretary maintains that he is responsible only for "good workmanship." The plan and specifications the advisory board is responsible for, not his former client. As for the structural weakness, &c., which has been held to demonstrate either a "looseness of contract" or incompetency on the part of the designers, Mr. Chandler flatly denies its existence. The speed of the Dolphin, he asserts, is all right, as no particular speed was contracted for. In short, the Dolphin is perfect, and if Mr. Chandler was still in office she would be accepted without hesitation and a contract for "repairs" be at once awarded to the constructor to cure her defects.

The Law's Delay and its Consequences.

Professor J. L. Pickard, in the May number of the *North American Review*, publishes statistics to show that crimes against the person, not less than crimes against property, are increasing in this country in a greater ratio than the increase of population, and that a large proportion of the murderers escape the death penalty, the statistics for 1884 showing "three thousand, three hundred and seventy-seven murders, with only one hundred and three legal executions and two hundred and ten lynchings." Defects in the criminal laws, the ignorance or the sentimentalism of juries, and sometimes their fear of consequences, almost justify the boast once made by a New York rough that "hanging is playing out." There is some reason for this belief when we find from the New York *Herald* that in Massachusetts and Connecticut alone during the past thirty years there have been two hundred and thirty-six trials for murder, with only forty-eight convictions and but twenty-three legal executions. It is owing to this uncertainty in the administration of the laws in capital cases that the number of criminals who met their death by lynch law between 1881 and 1884 was greater than the number executed by the process of the courts, the figures being 252 by lynch law against 228 by legal execution. It is this frequent miscarriage of justice, remarks the Baltimore *Sun*, that has led excited bodies of men to take the law into their own hands, and every artifice resorted to before the courts to delay the punishment of confessed or convicted criminals intensifies the popular feeling against such tricks and subterfuges and encourages lawless combinations of men to break down the doors of jails, seize notorious murderers and others guilty of capital offenses and hang them to the nearest tree.

The New York Appointments.

The President last Saturday made the following appointments: Edward L. Hedden, to be collector of customs for the district of New York; Hans S. Beattie to be surveyor of customs in the district of New York; Silas W. Burt, to be naval officer of customs in the district of New York.

Edward L. Hedden was born in New York city in 1828 and from 1859 until last year he was a partner in the shipping house of Wetmore, Cryder & Co., and for 35 years conducted the custom-house business of that firm. He is vice-president of the North River Bank and a director in several insurance companies. He has always been a Democrat in politics. His father studied law with Alexander Hamilton and was the representative of New York city on the occasion of the opening of the Erie canal.

H. S. Beattie is a lawyer, and was an associate in the corporation counsel office during Secretary Whitney's term. He has been an active man in the County Democracy organization, and is at present deputy county clerk of New York and has always been a Democrat.

Colonel Silas W. Burt was formerly naval officer and was removed by President Arthur. He is at present chief examiner of the New York civil service commission. He supported Cleveland for governor in 1882, and was an active supporter of the Democratic candidates last fall.

Fish Gets Ten Years.

James D. Fish, late president of the Marine National Bank of New York, was sentenced Saturday to ten years' imprisonment in Auburn penitentiary. In passing sentence Judge Benedict said:

"James D. Fish: You were charged by the grand jury with many offenses against the laws of the United States. After a fair and impartial trial you were found guilty of the misappropriation of the funds of the bank of which you were president. You were also found guilty of making false entries in the books of the bank while in that position. The verdict of the jury was that you were guilty. The evidence clearly showed that there could be no doubt as to your guilt. A more shameful or a more lawless abuse of the powers of the president of a national bank can scarcely be imagined. It is proper, therefore, that fit punishment should be meted out to you, and in order that others may be deterred from similar offenses, it is necessary that the full penalty of the law be pronounced upon you. A merciful consideration for your age forbids a culminative sentence. The sentence of the court is that you shall be confined in the prison at Auburn for ten years."

Fish is 65 years of age and has four children. His wife has been dead for several years.

THE PRESS EXCURSION.—The executive committee of the Peninsular Press Association, composed of the newspaper men of Delaware and the Eastern Shore counties of Maryland and Virginia, has decided upon the time and route of the annual excursion. Briefly stated, the route is down the Peninsula to Cape Charles City, across the bay to Old Point Comfort, a day's excursion to Norfolk and other points of interest adjacent to Old Point, up the bay to Baltimore by the Bay Line of steamers, to Washington by the Baltimore and Potomac Railroad, a day or two in the Capital and home by rail. The party will set out on Saturday, July 25th, by the Old Point Express, which leaves Wilmington at 9.40 a. m., and is due at Old Point at 5.15 p. m. Sunday and Monday will be spent at and about Old Point and on Monday evening the party will leave by the Bay Line for Baltimore, arriving there on Tuesday morning and going direct to Washington. It is possible that an excursion to Mount Vernon may be arranged for Wednesday. The executive committee will spare no pains to give the association four full days of sightseeing, at least three nights of unrest, and as much innocent fun as a strictly moral association can stand, and the extent of newspaper incomes will allow.—*Middletown Transcript.*

EXCURSION TICKETS TO YELLOWSTONE NATIONAL PARK.—It is announced by the passenger department of the Pennsylvania Railroad Company that there has been placed on sale at all principal ticket offices of the company a stock of excursion tickets to Yellowstone National Park. These tickets will be sold in connection with Pennsylvania Railroad tickets to Chicago, thence by the several roads from that point to Council Bluffs or St. Paul, thence by the Union or Northern Pacific to Yellowstone Park. The tickets by both the Union and Northern Pacific routes bear liberal conditions as to limit of going and returning trips.

PETER COOPER is credited with the following: "In all towns where newspapers are published, every man should advertise, even if nothing more than a card telling his name and place of business in which he is engaged. It not only pays the advertiser, but lets the people at a distance know that the town you reside in has a prosperous class of business men. As the seed is sown so are recompenses. Never pull down the sign while you intend to do business, for it often indicates that your grip, commercially, is broken. The judicious advertiser will receive, in return, ten dollars for every one invested in the columns of a local newspaper."

Children's Day in Piney Neck.

ROCK HALL, June 30, 1885.

Messrs. Editors:—Sunday last was "Children's Day" at Piney Neck M. E. Church. Owing to the severe storm in the morning there was no meeting until the afternoon, when the children, officers and friends of the school turned out in numbers sufficient to fill the church very comfortably. It is a difficult thing to give a description of the meeting and floral display without a recapitulation of our report of Rock Hall's Children's Day, as the program was the same. The promptness and efficiency with which the scholars answered the questions in the responsive readings displayed the fact that they have been well trained and instructed in the duties of Sunday-school scholars and the marked improvement in the school is due to a very great extent to the introduction of the lesson papers, as for a long time the people held the idea that the old question book, a verse or two from the Bible and the memorizing of a hymn constituted a Sunday-school, but we are glad to see our neighbors up with the times and ready to utilize the benefits of the careful study of educated men. The church was handsomely decorated with flowers and evergreens in the shape of bouquets, wreaths, crosses, festoons, &c. The meeting was addressed by Messrs. Downey, Scott and Edes with selections well suited to the occasion. The singing was very good and showed a marked improvement since the church has had an organ. The school numbers about sixty scholars and is in a very prosperous condition, with Mr. John Beck as superintendent.

A vote of thanks was extended to Rock Hall Sunday-school for its assistance. Here, let me say, we are glad we were able to give our sister school what help we did.

The ladies of Rock Hall church propose holding a supper and festival on the church green in two or three weeks time, but due notice will be given in the NEWS.

We forgot to say Mr. Conaway did not deliver his address last Sunday owing to the lateness of the hour when his time came, so will expound the truth to the young of Piney Neck, and others who may choose to go to hear him, next Sunday afternoon. Yours truly, SYLVANUS.

A New and Attractive Schoolhouse—Examination Exercises, Etc.

Messrs. Editors:—At the southern extremity of Cherry Lane, near Spry's Gate, stands a newly erected schoolhouse of modern design and finish. Its interior is no less attractive and adapted to the essential needs of a progressive school than is its exterior pleasing and attractive. In short it probably comes nearer to measuring up to the ideal schoolhouse than any other in the county. The credit for this, we believe, belongs to Maj. E. F. Perkins, examiner of school board. If this were all that could be said we should not feel satisfied — all things considered the school compares favorably with the building. On Friday of last week there were some special exercises, which proved quite entertaining to friends present and reflected great credit on both teacher and pupils. The exercises consisted of review questions, map drawing, recitations, select readings, &c. The readiness with which the pupils answered the questions asked showed a thoroughness in their studies seldom seen, while the drawing of maps from memory on the black-boards by scholars showed an efficiency of which pupils of a higher grade might feel proud. There were some geometrical designs in crayon, also, exercises by the most advanced pupils of the school, which would do credit to a teacher.

Miss Etta Jones, the teacher of the above school, has had charge nearly ten months, and is entitled to much credit for her systematic and thorough teaching. A graduate of the State Normal School, and thoroughly in love with her work, she is one of the best teachers in the county, as an examination of her pupils will readily discover. L.

Letter from Millington.

Messrs. Editors:—The Democratic voters of this town when from home are frequently asked, "What is the matter with the people of Millington? I hear they are not going to support the ticket." Now, sirs, we wish to say right here to "the whole world and the rest of mankind," such is false. The Democrats of Millington will give the ticket their ardent support. All they want is fair play and no "niggaring." If there is a Judas in town who is causing said report to be circulated he will be found out and muzzled in time to prevent trouble. It looks to us like an old republican dodge; and on the other hand, if the man from a distance, he is the inventor of his own fears. We say to him, dry up, "It is the thief that fears every bush is an officer." We feel well assured that the masses will act for themselves, and give the usual Democratic majority. We have a number of young men who show a disposition to take a working part in the coming campaign. Score the First district her usual vote. M. R.

OUR JAIL AND ALMSHOUSE.

Mr. Griffith's Visit of Inspection to Kent County.

In the Baltimore *Sun* of Monday we find the following report of a recent visit made by Mr. G. S. Griffith, president of the Maryland Prisoners' Aid Association, to the jail and almshouse of Kent county. Mr. Griffith says:

"I visited the jail at Chestertown June 28, and was glad to find that a new building had taken the place of the old dilapidated one that had so long remained a disgrace to this rich county. The ground and building together cost $17,000. An objection to its construction is in not having a separate apartment for the females. The windows of the lower story are only five and a-half feet from the ground. This renders the hall insecure, as any one from the outside could communicate with the prisoners and hand them tools with which to make their escape.

"The jail contained eight prisoners, two of whom were serving out a sentence for petty offenses, and the other six, including one woman, are awaiting trial at the October session of court. The institution is well managed and its sanitary condition is good.

"The almshouse is located on a farm of 300 acres, three miles from town. It contains fifty-five paupers, eleven of whom are colored; fifteen or twenty were either idiotic, weak-minded or insane; eleven were children averaging from a few months to eight years of age. An additional building, which was greatly needed, has been recently erected, and the sanitary condition was tolerably fair. The discipline and management were not satisfactory. The superintendent is over eighty years of age; his wife is the matron. They have held these positions for thirty-four years. The duty of superintending the farm and caring for fifty-five or sixty paupers is too heavy a charge for them. I have no doubt they have done the best they could, but there is a great want of adaptation to the work. Habits of industry should be more rigidly enforced on all who are physically able to work. The men could be employed on the farm and garden, and the women in knitting and sewing. This would be an advantage in every way. Another serious defect is the intermingling of the sexes with all its pernicious results. The superintendent acknowledged that much immorality existed, but also stated that he could not help it.

"Another great error is in allowing children to remain in the institution after they are three or four years old. They should be placed out in good homes or in suitable asylums. If allowed to remain in an institution of this kind they grow up to swell the pauper ranks and imbibe the evil habits of those by whom they are surrounded. Of these eleven children six are bright-looking boys and girls between five and eight years of age. To illustrate the evil effects of a pauper life on a child I will mention the case of a white woman, an inmate of this institution, and her child. She was born in the old almshouse of this county and lived there until she was seven or eight years of age, when she was placed out, but evil impressions had been made, and from time to time she came back to the institution as a pauper and disreputable character. She will always be an expense and burden to the county. The board of trustees should look into this matter and make some provision to save the children.

"I regret to say that no religious services are held either in the jail or almshouse of this county. The meagre salaries paid to the superintendents of most of our county almshouses is one reason why the institutions are not better managed. Well-qualified persons will not accept the position at a salary of two or three hundred a year and their living, which is all that is paid, not only for the services of the superintendent and matron of this almshouse, but of many others in Maryland."

A BRIDE OF 19 MARRIED FOUR TIMES.—Mrs. Nellie Dame-Yourex-Baker-Phillips was married in Freeport, Ills., last Sunday evening to Chas. Yourex, from whom she had been divorced. She first married him in June, 1882, and only lived with him one day, as she was taken away from him by her parents. Yourex left that section, and not hearing from him, she married one John C. Baker in February, 1883, who left her after a short time, he having another wife elsewhere. Later Nellie married Harry L. Phillips, a railroad brakeman. They quarreled, parted and Phillips got a divorce, but before the decree was finally made, he married again, for which Nellie brought suit against him for bigamy and had him bound over to court. The decree was granted in the meantime, and Yourex having come back, the marriage of Sunday night followed. The bride is now only nineteen years of age and has been married four times, and all of her husbands are still living.

BALTIMORE MARKET.—The Baltimore papers of yesterday quote as follows:

WHEAT—Longberry $1.00@$1.00.; Fultz, 94@96 for fair to good. CORN—White, prime, 66@67; yellow, 56@56. OATS—39.

AYER'S PILLS.

A large proportion of the diseases which cause human suffering result from derangement of the stomach, bowels, and liver. AYER'S CATHARTIC PILLS act directly upon these organs, and are especially designed to cure the diseases caused by their derangement, including **Constipation, Indigestion, Dyspepsia, Headache, Dysentery,** and a host of other ailments, for all of which they are a safe, sure, prompt, and pleasant remedy. The extensive use of these PILLS by eminent physicians in regular practice, shows unmistakably the estimation in which they are held by the medical profession.

These PILLS are compounded of vegetable substances only, and are absolutely free from calomel or any other injurious ingredient.

A Sufferer from Headache writes:

"AYER'S PILLS are invaluable to me, and are my constant companion. I have been a severe sufferer from Headache, and your PILLS are the only thing I could look to for relief. One dose will quickly move my bowels and free my head from pain. They are the most effective and the easiest physic I have ever found. It is a pleasure to me to speak in their praise, and I always do so when occasion offers.

W. L. PAGE, of W. L. Page & Bro."
Franklin St., Richmond, Va., June 3, 1882.

"I have used AYER'S PILLS in numberless instances as recommended by you, and have never known them to fail to accomplish the desired result. We constantly keep them on hand at our home, and prize them as a pleasant, safe, and reliable family medicine. FOR DYSPEPSIA they are invaluable.

J. T. HAYES."
Mexia, Texas, June 17, 1882.

The REV. FRANCIS B. HARLOWE, writing from *Atlanta, Ga.*, says: "For some years past I have been subject to constipation, from which, in spite of the use of medicines of various kinds, I suffered increasing inconvenience, until some months ago I began taking AYER'S PILLS. They have entirely corrected the costive habit, and have vastly improved my general health."

AYER'S CATHARTIC PILLS correct irregularities of the bowels, stimulate the appetite and digestion, and by their prompt and thorough action give tone and vigor to the whole physical economy.

TO THE FARMERS

—OF—

Kent, Queen Anne's and Cecil Counties.

IT is universally acknowledged by the most practical farmers that the

OHIO CHILLED PLOW

—IS THE—

Best Plow in the World

for NEATNESS OF WORK and lightness of draft to the team. As I have ordered a large number of these plows, both two and three-horse, farmers will do well to give me an early call.

We also keep on hand the old reliable Concave Nos. 9, 10 and 11. Polished Minor & Horton, Wiley Nos. 3 and 4, and Two-Furrowed Plows; Harrows, Twin Single A and Double A; Cultivators and Cultivator Teeth unsurpassed by any manufacture. Single, Double, 3 and 4-Horse Trees and Hames.

As there have been a great many Chilled Plows sold in these counties, and as farmers have been put to a great deal of trouble to get Castings for them, if they will only give the name and number of the plow we will endeavor to keep them on hand at my shops in Galena and Chestertown. I always have on hand Plain and Slip Shares for the Ohio, Oliver, Roland, Advance and Syracuse.

If any of you are in need of anything in my line please give me a call, as I intend to sell *low* for the *cash*.

Thankful for past patronage, I solicit a continuance of the same.

WM. A. HYLAND,
GALENA AND CHESTERTOWN.
