Kent County Agricultural Association.

Minutes. Errors.—The Kent County Agricultural Association, after an adjournment of several weeks, met in the club room at the usual hour last Monday at the call of President Gale. The attendance was small, and it is hoped that a larger number of members will be on hand next week as business of importance is to be attended to. Subject for discussion was: "Is a collegiate education, with years spent in the study of dead languages, of any importance to the farmer of any use to the boys of Kent county who expect to become farmers?" Mr. H. Meeks and Rev. Mr. Morris were present and were invited to take part in the discussion, which they did, taking the affirmative side. Mr. Meeks was present and took the ground that a good English education was sufficient. We think that the more learned a man is the better he is fitted for any station in life.

Question to be discussed next Monday is: "Could it be more profitable for our farmers to hold their wheat for better prices or sell now?" This is a very important matter and it would be well for all to turn out and exchange views on the subject.

The executive committee are at work for the coming fair. The premium book is nearly out of the press and they hope that every one will take an interest and bring something to help make the fair a success.

Read the Appended Testimonials.

Messrs. Parvis & Williams:—I threshed a solid field last week, and though I do not know the exact amount, yet I am sure I got something between 25 and 30 bushels per acre.

Messrs. Parvis & Williams:—The Wheat Grower Phosphate has proved a fall, I am pleased to state has done exceedingly well, giving me a good field of wheat from very poor land.

Messrs. Parvis & Williams:—Dear Sirs:—Your Phosphate used by me last fall has exceeded my expectations; has given me as good results as higher priced goods. Respectfully yours, W. T. HERRON.

Messrs. Parvis & Williams:—I used your Wheat Grower Phosphate on my wheat last fall, and am entirely satisfied with the result. It far exceeds higher priced goods used in same field. Respectfully, SAMUEL TAYLOR.

Messrs. Parvis & Williams:—Dear Sirs:—Your Wheat Grower Phosphate used by me seed time of 1884 has given me much better results than other kinds used, and cost me less money. I cheerfully recommend it as a first-class fertilizer. Respectfully, J. C. DAN. HILL.

Messrs. Parvis & Williams:—Your Wheat Grower Phosphate has proved a success. My crop of nearly thirty-five hundred bushels, all exceeded twenty bushels per acre, part of last third year in wheat.

Messrs. Parvis & Williams:—The Wheat Grower Phosphate purchased in the fall of 1884, I used on my corn ground. The field was hilly and the poorest on the farm. It yielded me twenty-two and a half bushels per acre. I do not hesitate to recommend it. Yours respectfully, T. J. SHALCROSS.

Messrs. Parvis & Williams:—Dear Sirs:—I take pleasure in saying that your Phosphate used by me in the fall of 1884 was decidedly the best of several other kinds used. It produced twenty-three bushels per acre on corn ground. Yours, W. J. JONES.
