A Ship Canal on Paper.

Philadelphia Evening Telegraph.

"I have heard for ten years past of the Delaware Ship Canal," said an officer of the Chesapeake and Delaware Canal Company the other day, "but I have never seen anything to convince me that the project would be carried out. The scheme is said to have originated in Baltimore; and every now and then it is spoken of as though the canal would be completed in short order. A big appropriation for surveys is made occasionally, and then the canal drops out of sight for a year or so. I understand that once in a while a few shovelfuls of dirt are dug, in order that the company may retain its charter. The cost is stated at $8,500,000, but as this company barely earns the interest on $2,000,000 bonds, and has paid no dividend on its stock since 1876, I don't see exactly where the profit will come in."

The Peach Crop of the Peninsula.—The Milford *News* thus summarizes the Peninsula peach crop: "The peach crop of the Delaware and Maryland Peninsula has been marketed and the happy growers are, collectively speaking, about $2,000,000 richer than they were eight or nine weeks ago. The total yield is estimated at 3,000,000 baskets. The Pennsylvania railroad has carried to market about two-thirds of the crop. Half a million baskets have been shipped to Philadelphia or Baltimore by steamers, mainly from the Maryland side of the Peninsula, and the remaining half million baskets have been evaporated or canned on the Peninsula, principally in Delaware. The crop is nearly one million baskets short of that of 1884 and was not so well distributed over the peach growing belt. In Maryland, the Queen Anne's county orchards yielded a full crop, but the number of trees in bearing is not large. Cecil, Kent and Caroline, the other peach producing counties of the Eastern Shore, marketed less than half a full crop. In Delaware the yield was light north of Wyoming. Sussex county and lower Kent produced more than two-thirds of the crop. Middletown, once the great peach centre of Delaware, and which in 1875 shipped upwards of 900,000 baskets from nearly a million bearing trees, has this season shipped less than 50,000. The productive peach belt has been steadily moving southward. In 1875 its centre was at Middletown, three or four years later 12 miles south, at Clayton, and in 1884 nearly 40 miles south, at Wyoming."

A Claim for Millions.—Mention has been made of a statement in the Rome (Ga.) *Courier* of a claim to a large tract of land in Baltimore city by the heirs of Col. Philip Yeiser, an officer of the revolutionary war, who left Baltimore in 1788 and settled in the wilds of Kentucky. Shortly before leaving Baltimore, it is stated, he made a lease for ninety-nine years of twenty-one acres of land, which was at that time in the outskirts of the city, but is now, the account says, in the heart of the city, divided into small lots and covered with blocks of valuable buildings, valued at $50,000,000 by one account. Col. Philip Yeiser, of Paducah, Ky., and Mr. Fox, of Danville, Ky., have been employed as counsel to bring suit in Baltimore for the property as soon as the lease expires, which, it is claimed, will be in about eighteen months. A search of the records in the clerk's office of the Superior Court for the year 1778 by the Baltimore Title Company disclosed no such lease as that referred to, and a search by a conveyancer for 1787 to 1790 was equally fruitless.—*Balt. Sun.*

A Bridal Trip at Sea.— The sloop-yacht White Wing arrived at Baltimore on Monday evening with Mr. and Mrs. Hugh J. McBirney, of Chicago, on board on their wedding tour. They chartered the yacht for an indefinite period of time, and left New York October 10 for a tour of the Southern coast cities to Florida and probably to the West Indies. The bride and bridegroom are the only passengers on board the yacht, which is under command of Capt. E. J. Savage and manned by a crew of six men. The captain reports that the yacht weathered the October gales beautifully, and the bride proved an excellent sailor, not missing a meal, while her husband missed but one. She appeared on deck in the roughest weather, and enjoyed the blows with keen delight. For the information of expectant bridegrooms it may be stated that the expense of this kind of a bridal tour is about $50 a day.—*Sun.*

Opposed to a Change.—At a meeting of the Tennessee Conference of the Methodist Church South, at Columbia, Tenn., last week, the matter of changing the name of the church so as to eliminate the word South by using the plain term Methodist Episcopal Church came up unexpectedly, and failed, after a sharp and short debate, by a vote of 175 to 25. It was then submitted whether the name should be so changed as to read "Methodist Episcopal Church of America." This also met with repulse, and so far as this conference is concerned this question is now at rest, and will be so reported at the Richmond, Va., general conference in May next. Each conference must act on the question, and the general conference will decide according to majority.

Mr. J. W. Crowell, shipbuilder, of Cambridge, Md., has secured a contract to build for Capt. Wm. H. Lewis, of New Bedford, Mass., a whaling brig 90 feet long, 25 feet wide and 10 feet deep. It will be the first vessel of this kind ever constructed in Cambridge, and probably the first one ever built south of Mason and Dixon's line. She will be of first-class white oak out and out, except the deck, which will be of white pine. She is intended for Arctic and Hudson bay whaling grounds, and is as large as any vessel in the service.

The grand jury concluded its labors on Thursday and made the following report:

To the Honorable, the Circuit Court for Kent Co.:
The Grand Jury beg leave to report that they have examined 53 witnesses, made eleven presentments and found eight true bills: also, beg leave to make the following report concerning the jail: The jury visited the jail on Wednesday. They found it kept in a thoroughly cleanly manner, and the comforts of the prisoners properly cared for. As to security in keeping prisoners who are inclined to escape, the jury did not feel so well satisfied. From a window in the bath room, one or more prisoners have escaped; the window is only secured by a wire screen instead of being secured in the same manner as the other windows in the building; also, at one of the end doors of the cell corridors several prisoners have escaped. We would therefore recommend that measures be taken to remedy the above defects. In conclusion we tender thanks to the Court and the officers connected therewith for the uniform kindness and courtesy extended to us during our session.
ROBERT NICHOLSON, Chairman.
T. A. HULME, Clerk.

Dynamite at Work.

Tolchester Farm, Oct. 21.

Messrs. Editors:—If you belong to that class of people who like to see things "git up and git" you would have been pleasod had you been on Tolchester Farm yesterday. The dynamiters were around. Mr. Green and his friend from Baltimore came over to show what Judson's Dynamite could do in the way of lifting stumps. It was pronounced a success by all who saw it. The largest stump lifted measured twelve feet in circumference; it took about five pounds of dynamite to blow it out and lay it around in pieces that one man could put on a wagon—cost of material $1.25; time, less than an hour. They lifted a stump out of the public road leading to Tolchester Beach at a cost of 40 cents. The county had spent $4 trying to get the stump out and it world have cost at least $4 more to have finished the job. There appears to be no danger in the stuff; you can set fire to a cartridge and it will burn slowly without explosion. Mr. Green will take out stumps by the piece, by the acre or by the day; or will sell the material and show how it is done.

How to Treat Cholera.—United States Consul Frank H. Mason, at Marseilles, reports that the number of deaths in that city during the present epidemic of cholera up to October was 1,230, an unusual record for a second year's visitation. He says there was no deaths among Americans in Marseilles. There were nine cases on two American vessels, all of whom recovered by using the following recipe of the late Dr. Valentine Mott, of New York, which Mr. Mason recommends, and which is as follows: Tincture of rhubarb, ten parts; laudanum sydenham, four parts; camphor, one-half part; syrup of ether, fifty parts; syrup of bitter orange peel, fifty parts. One teaspoonful in a little water, and repeat until symptoms cease.

A Veteran of Two Wars Insane.—A Louisville (Ky.) dispatch to the New York *Herald* states that the startling information came out Wednesday that Gen. William Howard Irwin is insane. Gen. Irwin was an officer in the Mexican war, and was on Gen. W. S. Hancock's staff during the civil war. His mania is violently homicidal, and he has tried to kill his wife and son. During his lucid intervals he has begged his wife to have him confined. Gen. Irwin is sixty-five years of age, and about ten years ago married Miss Julia Chambers, the daughter of a wealthy citizen, and at that time the reigning belle in Louisville society. Gen. Irwin has been connected with many important local enterprises, and is highly esteemed.

Scott Way, formerly editor of the Middletown *Transcript*, now has engagements to contribute regularly to *Puck*, the Philadelphia *Weekly Press* and a New York newspaper syndicate which furnishes original matter to a number of papers. He is also an occasional contributor to the Detroit *Free Press*, is doing some special correspondence for one or two dailies and has finished the opening chapters of a novel that is to appear next year.

The National Crops.—The Department of Agriculture at Washington reports that the yield of wheat per acre for the area harvested is 10½ bushels and only 9 on the area sown, which was nearly 40,000,000 acres. The area harvested will not exceed 34,000,000 acres. As to corn, the indications point to the yield of 26½ bushels per acre, which would give a yield of 1,960,000,000 bushels. The oat crop exceeds 600,000,000 bushels. For cotton the condition has dropped from 87 to 78.

Baltimore Market.—The Baltimore papers of yesterday quote as follows: Wheat—Longberry $1 03@$1 05, Fultz, 93c. @96c for fair to good. Corn—White, prime, 54@54; yellow, 53@53. Oats—33.

HIGH GRADE BONE FERTILIZERS.

We take pleasure in again calling the attention of farmers to our High Grade Fertilizers. It being eight years ago this spring since they were first offered to consumers under their present form; and from that time until now there has been an increasing demand for them, which is a far better testimonial to us than any letters of praise could be, although we do not want for these latter, as we are in receipt of many. It has been our aim to put up the best fertilizers we know how, and the results in the field clearly show that we have hit the mark right in the bull's eye, and we believe if consumers will take our target (American Brand, bull's head) they will get a good result every time—the bull's eye, if their aim is good.

THEIR CHARACTER.

The main characteristic of our fertilizers is that they are prepared with particular reference to the *crop*, and not to a chemical analysis; the latter does very well in its place, and we believe in chemistry thoroughly, but consumers are too often deceived with the idea that a chemical analysis is the main thing, and if they get a good analysis and high commericial valuation as figured out with arbitrary prices by the chemist, they must have a fine fertilizer. Now it may happen that a fertilizer, with a commercial valuation of $25 00 per ton, will give a better result on the crop than one with a valuation of $40 00 as based on a chemical analysis. Now why should this be? Only because the material used in the one valued at $25 00 was better adapted to the crop than the other.

THEY ARE UNIFORM.

The goods we manufacture are uniform in composition, and are only varied in proportions, year after year, as we believe it to be an advantage to the crop. We have such large supplies of Bone, Blood, etc., from the slaughter establishments of New York, that our fertilizers are largely composed of these, and there is not that inducement for us to use cheaper material, that there might be, if we did not have this material.

BONE FERTILIZERS.

Our products are of a *bone base*, because we believe that is the most satisfactory source of phosphoric acid, and the large amount of animal matter our fertilizers contain makes them especially valuable in what may be considered the off or poor seasons. Some years it is noticed that almost any fertilizer will give fairly good results, but we find themost favorable comparisons for our products are in the poor years.

FIFTH DISTRICT, ATTENTION!

'Come, let us Reason Together!'

AS citizens we desire to have good roads—we wish to attract visitors and strangers; as good and charitable people we want to make the poor comfortable; to secure peace and order it is needful to have efficient officers. Your boys and girls must be educated. All these things need money—it is indispensable. The Tax Books are now ready, and to facilitate the payment of your taxes I will be at

ROCK HALL at 10 A. M., GREY'S INN 12 M., and EDESVILLE at 3 P. M..

First and Third Wednesdays in each month.

At LANKFORD and KILBURN the 2d and 4th Monday in each month

I shall be pleased to meet all my friends with their pockets full of current coin of the County, State and Nation as above appointted.
JAMES THOS. LAMB, Coll'r.
aug8.tf. 5th District.

A Word to the Wise About Taxes!

THE MAN—or woman either—who pays his taxes most promptly, is the most happy. He has relieved himself of a burden that increases in weight the longer it is borne; costs and interest are added and the tax-payer feels justified in blaming everybody and everything for the results of *his own negligence*. Therefore, be wise and happy—PAY YOUR TAXES at once—out of your Wheat or Peach money and don't wait for corn or uncertain collections.

To accommodate payers I will be in Chestertown every Tuesday and Worton Station every Saturday afternoon.

I have my books now in hand and your bill are ready. Resp'y,
aug22-tf. JAS. S. GEMMILL.

PAY YOUR AXES!

AS COLLECTOR of the Fourth Election District I have my tax books in hand, and bills made out against each individual tax-payer. I am prepared to receive taxes for the year.

To accommodate tax-payers I will be at the Register's office in Chestertown every SATURDAY and TUESDAY afternoon.

Prompt payments are requested, so that I may not be embarrassed and saved the unpleasant necessity of forcing collections.
GEORGE S. BIDDLE,
aug22-tf. Collector 4th District.
