Kent News.

SATURDAY MORNING............Nov. 7, 1885.

A MESSAGE BY MR. LINCOLN THAT WAS NEVER SENT.—Hon. John Usher, of Lawrence, Kansas, who was Secretary of the Interior under President Lincoln, writes to the St. Louis *Globe-Democrat* in reference to a message said to have been prepared by Mr. Lincoln on his return from the Hampton Roads conference in February, 1865: "Soon after his (Lincoln's) return from the James river the cabinet was convened, and he read to it for approval a message which he had prepared to be submitted to Congress, in which he recommended that Congress appropriate $300,000,000 to be apportioned among the several States in proportion to slave population, to be distributed to the holders of slaves in those States upon condition that they would consent to the abolition of slavery and the disbanding of the insurgent army, and would acknowledge and submit to the laws of the United States. The members of the cabinet were all opposed. He seemed somewhat surprised at that and asked: 'How long will the war last?' No one answered, but he soon said: 'A hundred days. Well, we are spending now in carrying on the war $3,000,000 a day, which will amount to all this money besides all the lives.' With a deep sigh he added: 'But you are all opposed to me, and I will not send the message.'"

COLORED EDUCATION IN THE SOUTH.—In an article on colored education, the New Orleans *Picayune* says: "The truth is that the white people of the South, although the expense of the undertaking falls almost entirely upon them, are making the most strenuous efforts to educate the colored children of their section. This statement is amply supported by statistics. In 1882, 56 per cent. of the white school population were at school (in public schools,) and of the colored 45.70 per cent. It is true that these figures show a somewhat larger proportion of white than of colored children at school, but the races share alike under laws that make no distinction between them. The fact that the cost of maintaining public schools is borne almost entirely by the white people must appear particularly significant when we remember that the South pays more in proportion to her taxable property for public schools than the rest of the Union. The Southern people will plead guilty to poverty, but what they have they will share with the negro for educational purposes. They understand perfectly well the danger of living in the midst of a barbarous population. They believe in a government by the people, but they insist that suffrage should be intelligent."

GENERAL McCLELLAN'S RESTING PLACE.—According to the New York *Sun*, the late Gen. McClellan expressed the wish, while visiting the battlefield of Antietam, on the 30th of last May, to be buried there, on the field of his renown, "I should like to be buried here when I die," he is reported to have said to his wife, "and then I can get up with my boys when the reveille sounds." Gen. McClellan's body was interred in River View Cemetery, Trenton, but, says the *Sun*, "it is not unlikely that later it may be transferred to Antietam." There is already a national cemetery at Antietam containing the graves of many thousands of Union dead, and no fitter resting place could be chosen for the great but unfortunate soldier than the spot of Maryland soil on which he repulsed the invading army of Lee.

A LETTER received by Mayor Grace, of New York, from Mrs. Julia D. Grant in reply to an inquiry from him as to whether she and other members of Gen. Grant's family desired the removal of his remains to Washington, Mrs. Grant says Riverside Park was selected because she believed New York was his preference; because it is near the residence she hopes to occupy as long as she lives, and she is convinced that the tomb will be visited by as many of his countrymen there as it would be at any other place, and because the offer of a park in New York was the first which observed the condition imposed by Gen. Grant that she should have a place by his side.

THE odds were clearly against the Democrats in New York until both the candidate and the party put themselves in distinct accord with the President, and the fact that they did so, and won the victory in a distinctive Democratic battle unaided by the Independent Republicans, proves that the President is impregnable in his own State. His party wins on his own platform, and the Cleveland Republicans who refused to support Hill, warmly support the President. He can therefore turn to New York, the pivotal State in our national contests, as his earnest champion, and factions will be silenced in Congress by the significant verdict of the Empire State.—*Phila. Times.*

WHERE DID WARD'S SAVINGS GO?—The theory is maintained by persons who ought to know something of the matter that Ferdinand Ward has a cool million of mammon laid away somewhere for enjoyment after serving his term out. One view is that Warner is the custodian of it. Another is that it is invested in England. It is a rather obvious reflection that a man who went so far to make profits out of imaginary contracts for others must have been an unusually altruistic financier if he did not try to make something for himself.

A TRIBUTE TO McCLELLAN.—Gen. Dabney H. Maury, who was a Confederate major-general, concludes a warm tribute in the Richmond *State*, to the late Gen. George B. McClellan as follows: "All Virginians bear witness that wherever his flag flew 'manly warfare reared his honest front.' No word nor act of harshness to the victims of war who fell within his power has ever been attributable to him, and no discourtesy to woman tarnishes his bright shield, for he was a soldier without fear and without reproach."

SENATOR STANFORD'S MUNIFICENCE.—Senator Stanford has given orders to deed in trust his three immense ranches known as Vina, Grindley and Palo Alta, for endowment of a university and schools about to be erected at Palo Alto, Cal. The three ranches comprise 85,000 acres, and together represent a value of $3,500,000. It is Senator Stanford's intention to make this institution the best in this country or Europe, and the ablest professors will be secured, both at home and abroad.

THE most daring and adroitly-planned robberies ever committed among the shipping in Baltimore were successfully accomplished during Friday morning of last week. Four vessels were boarded and the depredations took place while those on board were evidently under the influence of chloroform or some other drug. About $400 were obtained in valuables and money.

BALTIMORE has a new weather prophet. On Saturday last a ground hog was received at the City Hall for the zoological collection at Druid Hill Park. It came from Mr. M. N. Rohrback, of Frederick. The giver says it was recently captured on "our mountains," and adds that "I trust he will predict favorable weather for the good people of Baltimore city."

A DISPATCH from Boston says that the daily expenses of the city of Montreal are $3,000, and that owing to the ravages of small-pox business is prostrated, and the poor people who are not unwell appear to be preparing to move south into New England. The authorities are much concerned, and the Boston board of health was in consultation with a view to prevent pauper immigration from Canada.

COMMERCIAL and other travelers visiting Baltimore would do well to give the "Maltby House" a trial. It is situated in the business centre of the city, convenient to places of amusement, churches and railroad depots, and its omnibuses meet all trains arriving at and departing from the city.

THE regular ducking season on the Susquehanna river and Chesapeake flats began last Monday.

BALTIMORE MARKET.—The Baltimore papers of yesterday quote as follows: WHEAT—Longberry $1 00@$1 00; Fultz, 93c.@95c for fair to good. CORN—White, prime, 48@52; yellow, 52@53. OATS—34.

THE NEW RAILROAD TO PHILADELPHIA.—The Baltimore & Ohio Railroad Company are running construction trains from Canton to the Susquehanna river, and for the past week have been carrying freights for shippers from Abingdon, Abereden and other places. The first shipment was a consignment of canned goods from Abingdon, Harford county, for the West, and on Monday a consignment of canned goods was shipped from Aberdeen to Chicago direct. The cars are run to Canton and ferried over to Locust Point. Three engines are in service between Baltimore and the Susquehanna. The material for the line beyond the Susquehanna is shipped by water to Wilmington, and there distributed by construction trains. The officials of the company say that the bridge across the Susquehanna will be completed within the next two months, and they expect that trains will be running regularly between Baltimore and Philadelphia about the first of next year. It is stated on the authority of Vice-President King that the company expect to have their line connected with the Reading at Philadelphia May 1, 1886.—*Sun.*

BADLY ABUSED.—In the case of Emory & Neavitt against D. Coblens & Son, on trial in the Superior Court of Baltimore last week, for breach of warranty of a mule for which $175 had been paid, Mr. Johns, counsel for Emory & Neavitt, described the mule as full of faults and defects. Mr. R. Stockett Mathews, in reply, said the mule was as badly abused as the senior Senator from Maryland. [Great laughter.] Judge Stewart said: "No personalities, gentlemen." [Renewed laughter.]—*Sun.*

HIGH GRADE BONE FERTILIZERS.

We take pleasure in again calling the attention of farmers to our High Grade Fertilizers. It being eight years ago this spring since they were first offered to consumers under their present form; and from that time until now there has been an increasing demand for them, which is a far better testimonial to us than any letters of praise could be, although we do not want for these latter, as we are in receipt of many. It has been our aim to put up the best fertilizers we know how, and the results in the field clearly show that we have hit the mark right in the bull's eye, and we believe if consumers will take our target (American Brand, bull's head) they will ria good result every time—the bull's eye, if their aim is good.

THEIR CHARACTER.

The main characteristic of our fertilizers is that they are prepared with particular reference to the *crop*, and not to a chemical analysis; the latter does very well in its place, and we believe in chemistry thoroughly, but consumers are too often deceived with the idea that a chemical analysis is the main thing, and if they get a good analysis and high commericial valuation as figured out with arbitrary prices by the chemist, they must have a fine fertilizer. Now it may happen that a fertilizer, with a commercial valuation of $25 00 per ton, will give a better result on the crop than one with a valuation of $40 00 as based on a chemical analysis. And why should this be? Only because the material used in the one valued at $25 00 was better adapted to the crop than the other.

THEY ARE UNIFORM.

The goods we manufacture are uniform in composition, and are only varied in proportions, year after year, as we believe it to be an advantage to the crop. We have such large supplies of Bone, Blood, etc., from the slaughter establishments of New York, that our fertilizers are largely composed of these, and there is not that inducement for us to use cheaper material, that there might be, if we did not have this material.

BONE FERTILIZERS.

Our products are of a *bone base*, because we believe that is the most satisfactory source of phosphoric acid, and the large amount of animal matter our fertilizers contain makes them especially valuable in what may be considered the off or poor seasons Some years it is noticed that almost any fertilizer will give fairly good results, but we find themost favorable comparisons for our products are in the poor years.

DISSOLVED ANIMAL BONES, Guaranteed to be entirely Pure Bone.
