SATURDAY MORNING.....Aug. 14, 1886.

THE DIFFICULTY WITH MEXICO.

Views of Secretary Bayard.

The Washington correspondent of the Baltimore *Sun*, under date of the 8th instant, writes: If the speck of war on the Mexican border is fanned into a flame it will not be the fault of the federal governments, either of the United States or of Mexico. Secretary Bayard, speaking of the Cutting imbroglio tonight, said in the most earnest manner that he saw no reason why a satisfactory adjustment of the difficulty should not be reached. He has been assured that such was the desire of the Mexican government. Senor Romero, the Mexican minister here, said some days ago that his government would promptly settle the matter. Secretary Bayard seems to think that the difficulties in the way have been created, not so much by Mexicans as by obliging friends in this country, who, in their efforts to embarrass the administration, have suggested to the Mexican authorities methods of opposition which perhaps they would not have thought of. Mexico's attitude in the matter, it is claimed, has been greatly strengthened by the efforts of Mr. Blaine's friends to show that Mr. Bayard has acted with precipitancy, and has been too exacting with Mexico. Mr. Bayard himself feels strongly in the matter, and said tonight, with much impressiveness, that he considered the principle involved in the Cutting affair to be one of the gravest importance, and one as to which the whole country, without reference to party, should be a unit. The personal merits or demerits of Cutting himself had nothing to do with the matter. It made no difference whether he was an angel of darkness or an angel of light, but it did make the greatest possible difference to the American people whether the contention raised by the State Department in his case should be maintained or not. Mexico claims in Cutting's case the right to try an American citizen for an offense committed in the United States, and Cutting has actually been convicted and sentenced for publishing a libel in Texas. Secretary Bayard thinks this raises the gravest possible question between the two countries, and if Mexico's claim were once conceded, no American traveling in Mexico would be safe. Mr. Bayard is deeply in earnest in his determination to resist the position taken by Mexico, and he expresses full confidence as to popular approval of his course. "My countrymen," he said with evident feeling tonight, "will not be deceived by partisan misrepresentation. They will recognize the gravity of the question involved, and will never consent that one of their fellow-citizens shall be tried by a foreign power for an offense committed in this country. Suppose Cutting had stabbed his Mexican rival on Texas soil instead of merely attacking his reputation. Does any one pretend that Mexico could have tried him for murder? Certainly not." The case, Mr. Bayard thinks, is too clear for equivocation, and he has no idea of retreating from the position taken by the department weeks ago when it demanded Cutting's release. The Secretary will not anticipate the action of Mexico, but he evidently looks for full reparation from that country. That the local court should have convicted Cutting does not necessarily imply that the Mexican government will refuse to set him at liberty and go to war. Speaking of this feature of the affair tonight, Secretary Bayard said both countries were pledged by the treaty of 1848 to exhaust every possible means of effecting a peaceful settlement of all political questions. Should Mexico persist in her present attitude, the question would then arise as to what action should be taken by this country to enforce acquiescence in its demands.

Slaughter-House Bone Fertilizers!

The well-known High Grade Fertilizer, Manufactured by Williams, Clark & Co., are offered to the farmers of Kent for Fall Seeding. Considerable quantities of the different brands were sold in Kent county last year and in every instance gave perfect satisfaction, indeed in many cases the results have been remarkable, and it is only necessary that the farmers should become thoroughly acquainted with their intrinsic value to insure almost their universal use.

Some instances may be mentioned: One farmer applied our Americus alongside of four other brands. The result was that the Americus gave him five bushels more per acre than either of the other goods. Another test with two other goods gave us 72 bushels, while the other brands yielded 54 and 65 respectively on the same quantity of ground, time of seeding &c., being exactly alike.

This house being one of the largest in the United States, considers their reputation involved in every ton of goods they send out and consequently will not allow anything but a first-class article to be sold under their brand, and may be confidently relied upon by the farmers as strictly according to representation.

THEY ARE UNIFORM.

The goods we manufacture are uniform in composition, and are only varied in proportions, year after year, as we believe it to be an advantage to the crop. We have such large supplies of Bone, Blood, &c., from the slaughtering establishments of New York, that our fertilizers are largely composed of these, and there is not that inducement for us to use cheaper material, that there might be if we did not have this material.

BONE FERTILIZERS.

Our products are of a BONE BASE, because we believe that it is the most satisfactory source of phosphoric acid, and the large amount of animal matter our fertilizers contain makes them especially valuable in what may be called the poor or off seasons. Some years it is noticed that almost any fertilizer will give fairly good results, but we find the most favorable comparisons for our products are in poor years.

ACORN BRAND PREPARED CHEMICALS.

We always carry in stock a large supply of all Kinds of Materials which we WILL SELL AT BOTTOM PRICES.

Dissolved Bone Black, Muriate of Potash, Pure Raw Bone Meal, Dissolved South Carolina Bone, Kainit, Dried Blood, High Grade Sulphate Potash.

Sold separately for farmers to mix. Guaranteed analysis on each bag sold.

DISSOLVED ANIMAL BONE,

Being Pure Slaughter-House Bone and Acid.

Early orders solicited. We guarantee the goods to be AS CHEAP AS ANY on the market and our terms as accommodating.

TO WHEAT GROWERS

1858.  1886.

Forming the most concentrated, universal and durable FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano and the ever-durable fertilizing properties of Bones in fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre. It is the opinion of many close-calculating Farmers, after TWENTY-EIGHT YEARS experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of "EXCELSIOR" is equal to 200 pounds of any other fertilizer or guano, and therefore fully 100 per cent. cheaper.

Uniformity of Quality Guaranteed by the Manufacturers.

☞Farmers can only be secure from inferior imitations by seeing that every Bag is Branded with our Name and Analysis in Red Letters.

Ammoniated  SUPER

BONE PHOSPHATE

Composed of the most concentrated materials, it is Richer in Ammonia and Soluable Phosphates than any other fertilizer sold except Our Excelsior, and is made with the same care and supervision; uniform quality guaranteed. Fine and dry, in excellent order for drilling. We have also a very superior quality of Dissolved Bones, and keep constantly on hand a large supply of high grade Peruvian Guano.

CHAMPION

Farm Wagon!

THE OLD-FASHIONED WAGON MUST GO.

Every one who uses a Champion Wagon becomes an enthusiast over its advantages over the old style wagon. The rougher the roads, the harder the tests that are made with it, the more infatuated becomes the driver. We subjoin a few letters from those who have used it. Every other wagon maker in the country is its enemy, for its novel features are protected by patents so they cannot make it. Thousands of opposition wagon agents will make every possible exertion to keep it from getting a start in their territory, but "facts are stubborn things" and "just as sure as the sun shines," wherever it once gets introduced, it will supersede the old style wagon as its advantages are so great they cannot be fought down.

Testimony of an Expert in Machinery as to the Merits of the Champion Wagon.

The following testimonial from Mr. S. C. Lee should have great weight with any one about to purchase a wagon. Mr. Lee is the head of the house of L. H. Lee & Bro., the general agent of the Champion Binders, Reapers and Mowers, and has extensive experience with machinery and his knowledge of what constitutes advantages and defects should make his opinion valuable. There is no connection between Champion Wagons and the Champion Reapers—one being made at a factory in New York and the other in Ohio. Mr. Lee was quick to appreciate the advantages of the new principles involved in the construction of the Champion Wagon, and after several months' use of it, he is sufficiently convinced of its success in practice as well as in theory to voluntarily add his testimony to that of the many others who have tested it.

E. B. WHITMAN.

Baltimore, June 11th, 1886.

E. B. Whitman, Esq.:—*Dear Sir*—The Champion Wagon purchased of you about two months since, has been severely tested; has frequently carried more than two and one-half tons actual weight over very rough and stony roads. My teamster is so proud of it that he washes it and keeps it in better order than the family carriage. It is a vast improvement over the old plan of construction and is about as much of an advancement over the old style wagon as the binder is over the old reaper.

Yours, etc., S. C. LEE.

Iron Hill, Cecil Co., Md., Mar. 29th, 1886.

Mr. E. B. Whitman:—*Dear Sir*—I received the wagon all right and think a great deal of it, it seems to run so easy. All the farmers that have seen it seem to admire it. I think any one that wants a wagon would certainly buy a Champion from what I know of it so far. Enclosed please find check for the same and send me another one just like the one I have got, if you can send it right away, which I hope you can, for the man wants it this week.

Yours resp'y, CHARLES WALTON.

Practically as well as Theoretically the Champion Wagon is all that is claimed for it.

The Severer the Test the More Enthusiastic in its Praise is the Purchaser.

Prince George's Co., Md., June 18th, 1886.

Mr. E. B. Whitman:—Dear Sir—We have thoroughly tested the Champion Wagon and are so well pleased that if we wanted another wagon for our own use we would rather pay $100 for a Champion than take one of the old style as a gift. We are now using in the Champion a fine mare that was lamed for life in one of the old style wagons, by being repeatedly struck by the pole, but on the Champion the pole has never struck one of the horses. Our hauling is heavy —largely consisting of hauling timber out of the woods—the load often weighing three tons. The roads are rough and the strain on the wagon and horses severe, and my experience has demonstrated that we can haul one-third heavier loads on the Champion and bring the horses in fresher at night than we could with the old-fashioned wagon. The ease with which it rides out of holes and over obstructions without the pole striking the horses, alone makes it worth double the price of other wagons.

Respectfully, J. W. HICKS & BRO., Hicks' Mills.

RELIABLE FERTILIZERS

FOR WHEAT AND GRASS.

Farmers, if you wish to obtain large yields of the above crops and get the worth of your money, use the best Fertilizer in the market—

"WHITELOCK'S VEGETATOR."

If you desire a lower price manure, an Ammoniated Phosphate, which is the cheapest and best for the money, purchase our

"Sunnyside Pure Bone and Dissolved Phosphate."

To those desiring a Dissolved Bone Phosphate, without Ammonia, the action of which is superior to most articles sold as Acid Phosphate or South Carolina Bone, we offer our

"SOLUBLE PHOSPHATE AND POTASH FERTILIZER."

The above brands are sold and delivered, 12 bags to the ton, and in fine and dry condition for drilling. Extra moisture in a Fertilizer adds to the cost. Our Fertilizers have been thoroughly tested by Farmers in all sections, and have proven themselves very reliable as well as a paying investment. Try them by the side of any Fertilizer, and be convinced of their value. We refer you to your neighbors who have used them.

HARDESVILLE, June 29, 1886.

T. R. HUBBARD & SON—Gents: We used your "A. A." on both our fallow and corn ground, in connection with two other brands—one costing six the other eight dollars more per ton—and anybody could see the difference was in favor of "A. A." and consider it the best fertilizer we ever used, and the clover from your phosphate has every year that we have used it been the best. Respectfully,

GEO. R. & W. W. STEPHENS.

FAIRLEE, Md., July 10, 1886.

T. R. HUBBARD & SON—Gentlemen: The 12 tons of "A. A." bought of you last fall was used on our three farms in connection with a Fertilizer that cost us $8 more per ton and in every instance yours seems to have taken the lead. Mr. Lewis on the Swan Creek place took a load of 200 sheaves from each and whilst there was such a difference in the cost of the fertilizer, "A. A." yielded the most by seven bushels to the acre. My grass is good, and expect to use more. Respectfully, R. S. DIEHL.

GEO. W. CHRISFIELD, Esq., of Galena, Kent Co., Md., says he has used our fertilizer for eleven consecutive years, with the exception of one; at which time he says he lost over one hundred dollars by the change.

CECILTON, Cecil Co., Md. July 6, 1886.

T. R. HUBBARD & SON—Gentlemen: For 10 years I have used your fertilizer, with entire satisfaction. One year, through the negligence of a captain, failed to receive your goods in time, and was forced to use two other phos., and lost a crop of wheat by so doing. Last fall I used your "A. A." again on the thinnest land I had, and it is generally conceded to be better wheat than where I used other goods that cost more money and on better land. I have excellent grass, and expect to use your goods next fall. Respectfully, ROBT. BLACKWAY.

CECILTON, Md., July 8, 1886.

T. R. HUBBARD & SON,—Gents: For three years we have used your Fertilizers with entire satisfaction. Last year where applied it gave us an average of over 40 bushels to the acre. Our present crop is very fine. We believe your Phosphates to be reliable, and expect to use more. Very truly yours, J. WARD DAVIS, WM. B. DAVIS.

MESSRS. T. R. HUBBARD & SON—Gents: I used your "A. A." Bone Superphosphate last fall and had an excellent wheat and the best clover I have ever had since I have been on the farm. Whatever I require this fall will use of "A. A." Respectfully, JOHN JUDEFIND.

LOCUST GROVE, July 8, 1886.

Gents: Last fall I used your "A. A." on the last wheat sown, in fact thought it was too late, but it started off nicely, in fact took the lead, and cost me several dollars less per ton than some others, and believe it to be an excellent article. Respectfully, JNO. C. SUTTON.

NEAR CHESTERTOWN, June 29, 1886.

T. R. HUBBARD & SON—Gents: Last fall we purchased of you two tons of your "A. A." and used it in connection with one of the highest grade goods on the market, it having cost $8 more per ton, and think the difference in favor your fertilizer, and expect to use again.

Respectfully, J. W. FOWLER, ISAAC PARSONS.

T. R. HUBBARD & SON—Gents: Last fall we used 12 tons of your "A. A." Bone Superphosphate, which has grown for us as much wheat as one of the highest grade goods on the market, which cost us $10 more per ton; your fertilizer handles nicely, and believe it to be fully reliable.

Respectfully, J. W. SKIRVEN, JOSIAS RINGGOLD.

We have already taken numerous orders from our largest and most successful farmers; and to insure prompt delivery, you will do well to send in your orders early. Samples can be seen at our office, and will be pleased to furnish it to the trade, either from factory, Chestertown, or warehouse in Baltimore.
