SATURDAY MORNING.........SEPT. 18, 1886.

Galena and Vicinity.

Messrs. Editors:—The tent-meetings in Galena, conducted by that earnest preacher and eloquent and persuasive speaker, Mr. Tompkinson, are daily increasing in interest and solemnity. Quite a number have already professed conversion, and each evening witnesses eager enquirers at the altar. Strong men are being moved through the spirit's potent influence, and much good will undoubtedly result.

With regret we learn of considerable sickness in our community, and Drs. Latimer and Scott are both kept very busy. Miss Lizzie Scott has suffered a severe attack of illness, but is at present convalescing.

The fruit evaporators of this section have suspended operations, owing to the sudden termination of the peach season. Messrs. Gooding & Taylor have dried upwards of 15,000 pounds.

The building boom has struck Galena for certain. Besides the pretty residences of Messrs. Ruth and James Hicks, already mentioned in your columns, Mr. B. Briscoe is improving the front of his dwelling and Dr. Ed. Scott is erecting a neat office.

One of Galena's active young men—Mr. Robt. Wilson—has invented and nearly completed a corn harvester that gives excellent promise of being a success. He has built a good share of it himself at the implement manufactory of Mr. Hyland and is an excellent mechanic for one self-taught. The machine alluded to has the appearance of a self-binding wheat machine, cutting the corn however with a gang of circular saws and leaving it in piles for shocking. If successful in its operation—and that is hard to question—the genius of the inventor certainly will be rewarded.

A lady member of St. Andrew's congregation says "Observer" should call attention to the deplorable condition of the churchyard and agitate the matter of having it thoroughly cleaned up ere the arrival of the new pastor. A hint to the wise will generally suffice. OBSERVER.

Opening of the Social Season.

The first event of the social season in this vicinity was the "Fruit Supper" given by Mrs. E. M. Wilkins at her residence to her daughter Miss Sue, a recent graduate of Lutherville Seminary, on Friday night of last week. The night was exceedingly beautiful—the moon being at the full—and the house as we approached it brilliantly illuminated, and with its porches and grounds lighted by Chinese lanterns gave one the impression of approaching fairyland. The interior of the mansion was redolent with the perfume of flowers and the walls artistically wreathed in evergreen.

Nearly all the young society people of the town were present and a number from a distance. Mrs. Wilkins seems to have the happy faculty of selecting guests congenial to each other and this invariably insures the success of all her social gatherings. A much remarked feature of the occasion was the number of pretty ladies present. The supper, as its name indicates, consisted of fruits served in their natural state, and there could be seen on the tables the products of every clime. Dancing was indulged in by many present, others diverted themselves with the ever-interesting "Witch-board," and the answers given by it frequently heightened the color in the cheeks of the questioners. The hammock and swing were patronized in an absorbed manner by various couples, who of course were only watching the moon. About two o'clock the festivities ceased and the guests dispersed amid general expressions of congratulation for the pleasant evening enjoyed. OMEGA.

FRIENDLY RIVALS.—A feature of the Pennsylvania State fair at Philadelphia this week was the presence of the three gubernatorial candidates, Hon. Chauncey F. Black, Gen. James A. Beaver and Hon. Charles S. Wolfe. The democratic and republican candidates went to the fair together, accompanied by the chairmen of the two leading State committees, Senator Cooper and W. U. Hensel. The quartette occupied an open carriage, the two gubernatorial candidates on one seat and the two chairman on the other. In carriages behind ride the other candidates on the two leading State tickets. Mr. Wolfe went to the show accompanied his colleagues on the prohibition ticket.

THE people of Tennessee are to be congratulated on their prospect of escaping in some measure the character of personal politics which so often disgraced heated campaigns. The gubernatorial standard bearers of the two parties being brothers, the republican candidate cannot well call his opponent a slab-sided son of a sawlog without reflecting at the same time on his own origin, while the democratic candidate will be restrained, for the same reason, from hurling the charge against his antagonist that his grandfather stole a setting hen from her nest.—*Louisville Courier-Journal.*

The circuit court for Cecil county begins on Monday next.

A TROUPE of plantation colored vocalists will give free concerts daily in the Bazaar Building at the State Fair.

Mrs. General Hancock has about completed her volume of reminiscences of her late husband, and expects to publish it this winter.

The work on the statue of Liberty Enlightening the World, on Bedloe's Island, New York harbor, is progressing rapidly and it will be ready for the formal unveiling on October 28th.

The Mutual Fire Insurance Company of Cecil county has declared a dividend of 40 per cent. of the balance standing to the credit of each policy which was in force on August 7, 1886. The dividend is payable on January 1, 1887.

During the earthquake at Charleston, S. C., a negro drayman slept all night on his dray. He said he had measured the houses and knew they could not fall as far as he was. This became popular before morning. A long line of wagons was drawn up in the centre of the streets and filled with sleeping people.

Ferdinand Ward does not want James D. Fish pardoned unless he can be pardoned too. Ward fears, however, that Fish may get the start of him in the matter of breathing the free air again and has written a letter to President Cleveland asking the privilege of submittting letters and documents relative to the guilt of Fish in case a pardon is really under consideration. Thus do rogues fall out and justice get its own.

Near Little Rock, Ark., on Monday, the twelve-year-old son of Joseph Morse was bathing in a pond near the house, when he was taken with cramps, and called to his brother Henry to save him. Henry sprang to the water, but both were drowned. Mrs. Morse witnessed the death of her two sons. She fainted at the sight, and when restored to consciousness it was found that she had become a raving maniac.

William Smith, better known as "Extra Billy" Smith, twice governor of Virginia, and almost from youth a very prominent person in American politics, has reached his 90th birthday. He is still quite active, physically and mentally, and daily visits Warrenton, Va., requiring a walk of a mile. When over 60 years of age he entered the Confederate Army, and was conspicuous for his galantry, being wounded twice.

THERE is probably no large city on this continent where living can be had so cheaply as at Baltimore. The terms at the "Maltby House" fully illustrate that fact. *

SAMUEL AUSTIN, Jr., of Fieldsborough, Del., states: "My crop of this year was the largest I ever raised, and was produced by the use of Diamond State Fertilizer." tf.

BALTIMORE MARKET.—The Baltimore papers of yesterday quote as follows: WHEAT—Longberry 86c.@90c.; Fultz, 84c.@88c. for fair to good. CORN—White, prime, 50@52; yellow, 50@52. OATS—32.

The Cooley Creamers
IN FOUR STYLES,
Senior, Junior, Elevator and Cabinet.

The Cooley system possesses a two-fold advantage; it is submerged and water-sealed, which is of the very greatest benefit, increasing the cooling surface and keeping the cream from oxodizing, thus allowing all gases or odors to penetrate it, and be absorbed by the water. The above Creamers guaranteed and for sale at manufacturer's prices by J. K. ALDRIDGE & CO., Chestertown.

RETURNED FROM ALASKA.
A Summer Excursion to the Pacific Coast and Alaska Territory.

Mr. B. F. Newcomer, of Baltimore, has returned from a summer trip of two months to California and Alaska. He spent some time in San Francisco and the Yosemite Valley, and then took a steamer for Alaska, which is only beginning to attract attention of tourists. The voyages of the Alaska steamers begin and end at Port Townsend, Washington Territory, where the passengers from San Francisco join them. Mr. Newcomer and party were twenty-one days on this Alaska trip by an inside water route through sounds, bays and inlets, and only occasionally getting out into the ocean. The snow-capped mountains were nearly always in sight, and the temperature was rarely above the fifties. Tourists are told before they start that Alaska is not a country for swallow-tail coats or party dress, and that umbrellas, heavy shoes, coarse, warm and comfortable clothing are needed. The trip was extended as far north in Alaska as Chilcat, about the 58th degree of north latitude. Stops were made at Wrangle, Sitka and Juneau and numerous other places. Sitka is the capital of Alaska, and Juneau is the chief settlement. The Douglass Island mines are the main stay of Juneau, and these are said to be the richest in the world. Mr. Newcomer has done Switzerland, and he has seen glaciers there; but his visit to Glacier bay, Alaska, was a revelation nevertheless. There he saw a glacier 400 feet high, three miles across the face, and extending back into the country for many miles. Fur trading, extensive salmon fishing and mining are the Alaskan industries. He is satisfied that the Alaska Indians are of Asiatic origin. The summers in that region last about sixty days, and strawberries and vegetables are grown. The summer was waning in August, and snows will begin to fall in the present month of September. Mission schools are doing much to improve the condition of the Indians. Mr. Newcomer says a trip to Alaska repays the tourist fully. It is indeed a wonderland, with nothing like it to be seen elsewhere in the world. Mr. Newcomer and party left the Pacific slope for the East over the Northern Pacific Railroad, and were six days and nights on the journey. He is himself a railroad man, and the good management of the Northern Pacific pleased him. The speed was about twenty miles an hour, or 500 miles every twenty-four hours. The train was always on time, and never missed a connection. For 800 miles the road runs across Montana. Mr. Newcomer says people of the East cannot realize the immensity of this great Western domain unless they have seen it.—*Sun.*

We Desire to Call the Thoughtful Attention of Farmers
TO THE SUPERIOR MERITS OF

ORCHILLA GUANO
AS A FERTILIZER FOR
WHEAT AND GRASS.

The advantages resulting from its use are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow.

"ORCHILLA" is no new thing. For twenty-one years it has been undergoing trial,—and well has it stood the test. At first, its progress to favor was naturally slow; but merit will, sooner or later, have its reward, and now its sales every year are largely increased over those of the preceding year, **and the friends of its early days are its best friends now.**

It has been used extensively in Maryland and the adjoining States, and from its abundant success everywhere we are justified in recommending it to you as being well adapted to your soils. No fertilizer for your use has had such unvarying success and continued popularity. Some of the largest and best farmers in these States use it almost exclusively.

It is Successful, because it is Nature's own provision for he exhausted fields.

It is Low Priced, because we have none of the expense of manufacturers, and, without regard to its high commercial value, we base its price solely upon its actual cost to import.

We refer you below to some of the farmers who have used it and ask you to enquire of them its merits.

R. A. WOOLDRIDGE & CO., Importers,
64 BUCHANAN'S WHARF, Baltimore.

DAVID R. DERRICKSON, Edesville, Kent Co., Md., July 1st, 1886, says:—I used Orchilla Guano on my young peach orchard in the spring of 1884, and planted the land in corn. The guano gave me a good crop of corn, and its effect was very prominently marked on the trees.

HON. THOMAS A. HULME, Fairlee, Kent Co., Md., July 1st, 1886, says:—I used Orchilla Guano in 1883 on corn. The guano was put on in April, 400 lbs. per acre. I could not see any marked effect of it on the corn, but the next year I put the land in peach trees, and the effect was very decidedly shown in the healthy and vigorous appearance of the orchard—which has continued ever since. I afterwards used Orchilla in the drill for potatoes with the most satisfactory results.

WM. I. BURGESS, Chesterville, Kent Co., Md., June 30th, 1886, says:—I used Orchilla Guano in 1883 on wheat, and it did me good service on that crop, as well as on the grass crop that followed, which was as good as ever grew on the farm.

J. EDWARD HURLOCK, Chesterville, Kent Co., Md., June 30th, 1886, says:—I used Orchilla Guano in 1884 on wheat alongside of Hubbard's Phosphate. In the early spring the latter was ahead, but at harvest I could see no difference at all. The stand of grass from Orchilla was an excellent one. The land on which Orchilla was put was very thin. I applied about 400 lbs. per acre, broadcast.

DANIEL R. NEALL, Chesterville, Kent Co., Md., June 30th, 1886, says:—I used Orchilla Guano on corn in 1884. It was put on in February and plowed down. The season was a very dry one, but I had as good a crop as any of my neighbors had from other fertilizers. The land was put in wheat and made a good yield, and the grass that followed was a first-class stand. I would say that the land where Orchilla went was exceedingly poor. I believe it to be a good fertilizer, especially to improve the land.

WM. P. CROSBY, Fairlee, Kent Co., Md., July 2d, 1886, says:—I applied Orchilla Guano in the spring of 1884—on land for corn, 400 lbs. per acre—broadcast. I got no marked result in the corn, but the effect of the guano was very distinctly shown in the wheat crop that followed.

WM. S. GOSLIN, Federalsburg, Caroline Co., Md., wrote January 15, 1886:—Two years ago I seeded one of my fields, containing 18 acres, in wheat, followed with clover. On 12 acres as an experiment, I used Lime and Orchilla Guano both; on the other 6, the poorest part of the field, I applied Orchilla alone. I had a good crop of wheat. On the 20th of June I commenced mowing my clover. The superiority of the clover on the 6 acres attracted the attention of all who saw it. I shelled 16 bushels of clover seed from the 6 acres, and only had 25 bushels from the 12 acres! I shall use Orchilla by itself hereafter. I have had 17 years' experience in the use of Orchilla Guano, and I unhesitatingly say, that for good results and the permanent improvement of the soil, it has no equal.

J. M. ANDERSON, Providence Mill, Cecil Co., Md., writes, July 30, 1885:—I have used Orchilla Guano on wheat, side by side with Bone; and find it produces equally as well as the Bone. The cost being in favor of Orchilla.

JOHN E. WILSON, attorney-at-law, Elkton, Cecil Co., Md., wrote Oct. 7, 1885:—I used Orchilla 200 lbs. per acre, on 7 acres of land this fall, put it on buckwheat. It was on land that never would raise anything before. I have never seen a finer crop of buckwheat grown from any land. Manure or any phosphate formerly used on the land was of no avail. I estimate a yield of no less than 200 bushels from 7 acres. I left out a strip in seeding, on which I put a mixture of different kinds of phosphate, but got no buckwheat except where Orchilla went. I have used Orchilla all over my wheat this fall, and shall also use it on land for corn next spring.

MR. WILSON writes now, July 22, 1886:—The wheat on which I used Orchilla, 500 lbs. to the acre, was as good as that produced by a high grade phosphate; and a better stand of grass I never saw. Where I used the Orchilla on corn this spring, I can see to a foot where I applied it; and the corn there is better than where I applied barn-yard manure heavily beside it. I consider Orchilla Guano better than barn-yard manure for corn and grass, and equal to it or any other phosphate for wheat.

JOHN T. GAMBLE, Bayview, Cecil Co., Md., July 22, 1886, says:—I have used Orchilla Guano to advantage on wheat, on which I consider its action quite as good as bone. For grass Orchilla is unexcelled by any fertilizer I know of.

THOS. N. WARBURTON, Bayview, Cecil Co., Md., writes July 12, 1886:—Orchilla Guano has been used upwards of ten years on the farm of my father, (now deceased,) where I have always lived, and now live—and always with the best results on the various crops to which it was applied, and with large and continued increase of the grass crop following, and this may now be seen on the place.

WM. T. MILLER, Elkton, Cecil Co., Md., writes July 20, 1886:—I do unhesitatingly endorse and recommend Orchilla Guano as a fertilizer. It has always improved my wheat crop greatly, and the grass following is always remarkably excellent. I shall want my supply this fall.

CHARLES H. OWENS, Elkton, Cecil Co., Md., writes July 4, 1885:—I have used Orchilla Guano for several years, and meantime have used other fertilizer phosphates, and find the Orchilla equally as good for grain crops, and far more productive for grass; and for permanent improvement of land, the best.

JOHN WHITE, Mechanics' Valley, Cecil Co., Md., July 10, 1886, writes:—I confidently recommend Orchilla Guano as a good and permanent fertilizer, it having produced for me excellent crops of grain and grass. I think it fully equal to bone.

JOHN T. GALLAHER, Elkton, Cecil Co., Md., writes, July 12, 1885:—I have used Orchilla Guano, year after year, for several years, and have always found it beneficial to the crops, both of corn and wheat, and therefore recommend it as a reliable fertilizer for grain and for grass as well, and at less cost than most fertilizers.

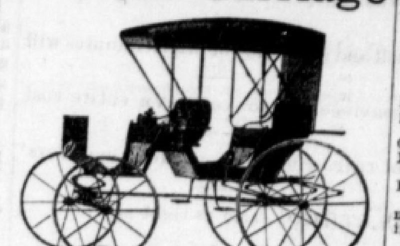
FIRST-CLASS WORK!
GUARANTEED BY THE OLD RELIABLE FIRM,
CHAPMAN & LAMBERT

We are manufacturing some of the finest work done in this State. We sell First-Class Work. If you want

A Good Carriage



it will be to your interest to buy of us, as we are now—after Twenty-Two years' experience—better able to suit you in every respect.

Light Phætons, Brewster Spring Buggies, Dayton and Jump-Seat Carriages.

We do not offer this work in competition with the shoddy work, but sell it on its merits, and our reputation.

All kinds of REPAIRING done neatly and with dispatch. Do you want your Carriage newly painted this Spring? If so, go to a carriage shop and have it done with English Varnish by a first-class painter, and you will get what you want.

The Tariff Reduced!

Not anticipating these hard times and scarcity of money, I bought for THIS SPRING AND SUMMER a very heavy stock of

MEN AND BOYS'
COARSE AND FINE SHOES,

which MUST BE SOLD, and in order that they may be sold soon I propose to offer them to all cash buyers at a very small margin above first cost.

They are all FRESH and STYLISH GOODS and we only make this offer because we need money.

We have a variety of other goods, such as SUGAR, Coffee, Flour and Molasses; Segars and Tobacco, Powder and Shot, and many other articles, all of which can be bought at a low figure for the money.

This is NO HUMBUG

but we intend to do just what we say.—But in order to be convinced of the truth of this statement, we invite you to call—with the money—and we feel sure that we can satisfy you both in the price and quality of goods.
