SATURDAY MORNING..... SEPT. 18, 1886.

How Long Do Fertilizers Last.

In attempting to arrive at some arraagement, says an English journal, by which renters of farms in England could secure remuneration for the labor and expense of keeping up the fertility of the farms, the conclusion arrived at was that lime applied to bill pasture was supposed to last fifteen years, one-twentieth to be exhausted the first year, and one-tenth a year up to the seventh inclusive, one-twentieth from the eighth to the thirteenth inclusive, one-fourth each of the two remaining years; when applied to permanent grass other than hill pasture, is held to last for twelve years, one-tenth being exhausted each of the first eight years, and one-twentieth each of the last four, and when applied to arable or meadow land to be exhausted in eight years, one-tenth the first, two-tenths each of the second and third and one-tenth in each of the remaining five years. Undissolved bones applied to permanent pasture to last for ten years, the rate of exhaustion to be similar to that of lime on arable land. When applied to arable land in rotation of crops, it is supposed to be exhausted at the rate of five-tenths the first year, two-tenths each of the second and third year and one-tenth the fourth, and when applied to meadow land is supposed to exhaust at the rate of four-tenths the second and two-tenths the third. Dissolved bones, phosphatic guano and potash, applied to arable lands are calculated to vanish at the rate of sixth-tenths the first, three-tenths the second, and one-tenth the third. Sulphate disappeared on arable land it is assumed, at the rate of eight-tenths the first year and two-tenths the second. Nitrate of soda and sulphate of ammonia go with the crop. The material residue of purchased cakes, etc., consumed on permanent pasture is supposed to have effect five years—one-tenth during the first year, three-tenths each of the next two years, two-tenths of the fourth year and one-tenth the fifth year. On meadow land the duration is three years—five-tenths being exhausted the first year, three-tenths the second and two-tenths the third year.—*Tribune and Farmer.*

No More Fooling.

"I am a lawyer's daughter, you know, George dear," she said, after George had just proposed and been accepted, "and you wouldn't think it strange if I were to ask you to sign a little paper to the effect that we are engaged, would you?"

George was too happy to think anything strange just then, and he signed the paper with a trembling hand and a bursting heart.

Then she laid her ear against his middle vest button, and they were very happy.

"Tell me, darling," said George, after a long delicious silence, "why did you want me to sign that paper? Do you not repose implicit confidence in my love for you?"

"Ah, yes," she sighed with infinite content, "indeed I do; but George, dear, I have been fooled so many times."

A Bit of Advice.

An autograph letter that I would like to own was shown me a few days ago. "A. Lincoln" was boldly signed at the bottom of it, and this wisdom was there, paragraphed in this wise:

"Do not worry.
"Eat three square meals a day.
"Say your prayers.
"Think of your wife.
"Be courteous to your creditors.
"Keep your digestion good.
"Steer clear of the biliousness.
"Exercise.
"Go slow and go easy.
"Maybe there are other things that your especial case requires to make you happy, but, my friend, these, I reckon, will give you a good lift."

How Long Would She Run if Wound Up?

A slab-sided, mud-covered granger entered a Main street clock store about dusk Saturday evening, and, with a bewildered look, asked: "Mister, is this where a man kin git a clock?"

"Yes sir," said the clerk.

"Wall," said the granger, "what be that ticker worth?" pointing to an ornate and intricate piece of time-recording mechanism on the shelf.

"That, sir," said the clerk, "is a wonderful timepiece. It is worth $200 and will run three years without winding."

"Great Scott!" gasped the granger; "three years without winding! Say, mister, how long would the blamed thing run if she was wound up?"

"Oh, dear," sighed Widow Jones, "if John had only made a will there wouldn't be all this trouble about the property." "Do the lawyers bother you?" "Bother me? They almost worry me to death. I declare, I sometimes wish John hadn't died."

A FARMER spends $13 per year for tobacco, and his wife spends $2 per year for shoes. How much more does her shoes cost than his tobacco?

PLAIN FACTS!

IT IS A FACT—That no matter how severe your rheumatism or how long you have suffered, you can get relief, and what's more, get it permanently—"for keeps," as the boys fondly put it.

IT IS A FACT—That thousands have had this glad experience, and now rejoice in perfect health. We can show you the testimonials of many such.

IT IS A FACT—That the

RUSSIAN RHEUMATISM CURE

does the business and has done it successfully every time it has been tried according to directions.

IT IS A FACT—That this remedy, though country, has been used very many years in some parts of Europe, and with wonderful success.

IT IS A FACT—That the Russian Rheumatism Cure has the endorsement of eminent European physicians and Government sanitary commissions, without which it could not be publicly sold in some of those countries.

IT IS A FACT—That HENRY M. PEACE of Frank Bros. & Co. 51 N. 3d St. Philadelphia, suffered for years with Rheumatism in the arms and shoulders. He says: I tried everything, but nothing helped until I bought the R. R. Cure. "It cured me completely and very quickly."

Descriptive pamphlet, with testimonials, free.

Price $2.50. If mailed, 10c. additional. If registered, 10c. more.

As yet it is not to be found at the stores, but can only be had by enclosing the amount as above, and addressing the American proprietors.

LISTERS' PHOSPHATES!

Owners of land as well as tenants, want as good yield of crops and as great improvement of the soil as can be had from the outlay that may be made. This want is supplied by

LISTERS' PHOSPHATES

which have stood successfully the test and competition of MORE THAN THIRTY YEARS. In addition to the various preparations of former years, they offer this season the

"HARVEST QUEEN" BONE PHOSPHATE,

at a price that must strike the observer as very low. The analysis shows it to be among the highest standard goods. Prof. Genth of the Pennsylvania University gives the following as the analysis and commercial value of its constituents:

Soluble Phosphoric Acid	10.63
Reverted Phosphoric Acid	1.46
Available Phosphoric Acid	12.09
Insoluble " "	0.65
Potash	1.97
Ammonia	2.65
Comparative Commercial Value	$33.47

This Phosphate is offered at $28 per Ton,

of pure BONE base (no rock is or has been used by the Listers.) The low figure at which it is offered should commend it to very favorable consideration.

W. N. E. WICKES,

Agent for Listers.

SAMUEL H. CRAWFORD and HENRY E. COOPER, Salesmen.

Samples of the Fertilizer prepared by the "Listers" can be seen and examined and circulars obtained at the store of WICKES & BRO. Orders left there will be promptly attended to. August 7, 1886—2m.

A $32 STANDARD FERTILIZER

For Only $26.00!

READ IT IS

HOW DONE.

The great popularity of our Fertilizers and the exceedingly low prices of Grain have determined us to greatly lower the price of our goods. From the beginning of our manufacturing we have always LED IN LOW PRICES, and quality, and now that our farmer friends require goods as low as they could possibly be bought, we offer you these goods at

Only $26, a Reduction from $32.

Careful sales to reliable parties, and a great reduction in expenses, with only a small profit to ourselves, enables us to do this, and as this is the BEST and lowest priced goods upon the market, SUITED to the profit on eighty-cent wheat, we call it the NEW ERA. To place these goods so LOW and only by the quantity sold thus make a living profit. We sincerely ask your help, promising in return to give you a $32 Phosphate for $26.

We will print testimonials after more farmers have threshed, actual results are what we want and so do you. Chemicals for home mixing at lowest market figures. We have bought our goods as low as anyone and cannot be undersold. Call before purchasing or wait until we call upon you. Remember a $32 Fertilizer for $26. At these prices every farmer who buys is an agent of ours.

Very respectfully,

C. W. KENNARD & CO.,

"Excelsior," "Ammoniated Bone Superphosphate,"

"PURE DISSOLVED BONE."

ESTABLISHED 1828.

TO WHEAT GROWERS

1858, 1886,

Forming the most concentrated, universal and durable FERTILIZERS ever offered to the Farmer—combining all the stimulating qualities of Peruvian Guano and the ever-durable fertilizing properties of Bones in fine dry powder, prepared expressly for drilling, and can be applied in any quantity, however small, per acre. It is the opinion of many close-calculating Farmers, after TWENTY-EIGHT YEARS experience in testing it side by side with other popular fertilizers, that an application of 100 pounds of "EXCELSIOR" is equal to 200 pounds of any other fertilizer or guano, and therefore fully 100 per cent. cheaper.

Uniformity of Quality Guaranteed by the Manufacturers.

Farmers can only be secure from inferior imitations by seeing that every bag is Branded with our Name and Analysis in Red Letters.

Ammoniated BONE SUPER PHOSPHATE

Composed of the most concentrated materials, it is Richer in Ammonia and Soluable Phosphates than any other fertilizer sold except Our Excelsior, and is made with the same care and supervision; uniform quality guaranteed. Fine and dry, in excellent order for drilling. We have also a very superior quality of Dissolved Bones, and keep constantly on hand a large supply of high grade Peruvian Guano.

OUR FORE-FATHERS SOAP

Ask Your Grocer For It.

FAC-SIMILE OF THE LABEL ON THE WRAPPER.

NO MORE A MYSTERY. THE REASONS GIVEN.

WHY DOES THE CLOTHING TEAR SO EASILY?

ANSWER.—From the use of strong and impure Soap, made up in salable forms and shapes, with which the market is flooded. If you want to be right sure use ECKERS' OUR FOREFATHERS' SOAP—three connecting 4-inch cakes, making each bar one foot long; weight 22½ ounces—recommended by the Best Families, Hotels and Institutions throughout the country. It is prepared by the Grecian Purifying, Boiling and Settling Process, from fresh, clean and selected butchers' tallow. By its BOILING OR SCALDING. You can use it as you wish, but to wash without boiling or scalding observe these directions: Take lukewarm water, rub with soap particularly on dirty spots, soak half an hour or more, gently rub on board and your clothes will be clean. Try it for one month and you will be convinced of its great advantages. VERY IMPORTANT TO KNOW.—That the best remedy for washing flannels to keep them from shrinking—wash in lukewarm water with FOREFATHERS OR ECKERS' BOARD OF HEALTH SOAP (the greatest disinfectant known), and dry in a warm room; cold water hardens flannels and drying in cold air shrinks them. Ask your grocer for it. ECKERS' SOAPS WILL WASH WITH OR WITHOUT BOILING OR SCALDING.
