Kent News.

SATURDAY MORNING.....Oct. 9, 1886.

The Law of Mortgage.

AN INTERESTING POINT.

Quite an important point of law relative to mortgages was decided last week by Judge Phelps, of the Baltimore city circuit court. Mrs. Florence Adelaide Cook was the owner of seven lots of property at the corner of Arlington avenue and Schroeder street, on which she placed a mortgage of $4,600—$1,000 on the corner lot and $600 each on the remaining lots. By the terms of the mortgage, the mortgagor or assigns had the right "at any time during the continuance of the mortgage to have the first lot released upon payment of the sum of $1,000, with all accrued or accruing interest, and $30 additional thereto." The mortgage became due and payable May 17, 1885, but was not paid. Within a few days thereafter, and before any proceedings for foreclosure had begun, the $1,000, with the interest and the $30 additional, was tendered, and a release for the first lot demanded. The mortgagee refused to release, and a sale was subsequently advertised. Judge Fisher—the money being paid in court—then granted an injunction staying the sale and ordering the property released, unless cause could be shown why it should not be released. The motion last week was to dissolve the injunction, but Judge Phelps decided to dismiss the motion, and ordered the property released on the ground that the words "at any time during the continuance of the mortgage" gave the mortgagor the right of release at the time the money was tendered, notwithstanding the date for the payment had passed, as specified in the deed, the mortgage being still in force.

Came Near Breaking Up Meeting.

Col. W. Henry Legg, of Kent Island, deputy-surveyor of the port of Baltimore, and ex-member a number of times of the Maryland House of Delegates, has a fund of political anecdotes. He says the last time he ran for the Legislature he received a large colored vote, as many as 27. It helped his cause considerably, but it came near bursting up the prayer-meeting association at the colored church on the island. Meeting a prominent colored man named Neamiah, who had been the means of gaining over this large accession of 27, he noticed that Neamiah looked considerably downhearted, and asked the cause. Neamiah said that some of the class-members had gotten wind of the fact that he had supported Col. Legg, and threatened to turn him out, and the only way he could prevent it was to deny that he had done anything of the kind. Neamiah told the colonel that at a recent prayer-meeting one of the cisters was asked why she looked so "down." She replied that she had not felt well anyhow, since the election. The spirit wouldn't move her. Somehow or other she thought there must be somebody or other in the meeting who had voted the democratic ticket. The interference of the preacher was all that saved the prayer meeting from going to smash.—*Balt. Sun.*

Gypsies National Dance.

The group is seated around the fire which has cooked their evening meal, and whose flickering rays reveal the picturesque features of those simple children of nature. They listen intently to the music which is their perennial entertainment. Presently a wild female form darts forward to commence the dance. She is scantily dressed and the rags drawn around her bosom envelop an infant of tender age.

Placing her hands upon her hips she moves quickly right and left, advancing and retiring in a sidelong direction. The music becomes quicker, her movements increase in rapidity, and the clapping of hands and cries of her dusky companions rouse her to a frenzy of excitement. Her gestures are impassioned, her eyes fiery and the hair stands erect upon her head. She utters rapidly strange words of an unknown tongue to a tune still more strange and uncouth. The tiny infant seems to be inspired with the same fiend and cries and foams at the mouth like the mother. The dancer snatches the infant from her bosom, throws it in the air and allows the infant to fall in her outstretched arms. Her voice falters, her movements become less rapid, and overcome by exertion this unearthly song and dance terminates amid the frantic shouts of her companions.

THE PRESENT CONGRESS.—The session of Congress which meets on the first Monday of December next and adjourns on the 4th of March will be the last session of the Forty-ninth Congress and the elections to be held this fall will be for members of the Fiftieth Congress. A correspondent has compiled the following:

Party classification of the Forty-ninth Congress, from which it will be seen that it is composed of 183 democrats, 140 republicans, 1 greenback democrat, 1 greenback republican. The table will be useful for comparison with the result of the elections to be held this fall, especially in the close States:

	D.	R.		D.	R.
Alabama	8		Mississippi	7	
Arkansas	5		Missouri	12	2
California	1	5	Nebraska		1

A Simple Remedy for Chronic Diarrhœa.

Dr. T. C. Smith, writing in the *Medical and Surgical Reporter*, June 12, 1886, mentions the fact of his having cured a case of chronic diarrhœa, which had lasted for nearly forty years, by the administration of a saturated solution of salt and cider vinegar, a drachm being taken three or four times a day. He also states that since the first instance where he recommended this homely remedy, without supposing that it would actually do any good, he has employed it several times in more or less severe cases of ronic diarrhœa, in which it produced great provement, and in some cases, cure. Where ses followed the suspension of the remedy, enewed administration was again followed mprovement.

Break the News Gently.

A Boston correspondent tells of a well-known izen of that place, who, having been brought me ill, sent the maid of all work to break the ews gently to his wife. She did. She rushed nto her mistress' room exclaiming:

"Oh, Lord, mum; but shure an' I think thim min had ought to be paid!"

"What men?" placidly inquired the lady.

"Shure, mum, thim min that lugged him!" was Katy's lucid response.

"Lugged him!" echoed the other, completely puzzled.

"Yes, mum; they lugged the master home in their own arms, an'——" but by this time the wife had rushed to the husband's side.

ALL fruits that grow with a pit, a core, or with seed, can be made to grow without them when it is understood. It is accomplished by reversing the scion—rooting the top end of the plant. To do this you bend the scion to sprout down, and cover it with dirt. After rooting cut it loose and let the root end be up. Apples are grown without cores, peaches without seed, and grapes and other vines also, by simply reversing the plant. It is true, and can be done to a certainty.

THE Boston *Beacon* has dug up a neat little story of how a Massachusetts countryman got even with Fannie Kemble for saying: "Sir, I have engaged you to drive for me, not to talk to me." When the vacation was over she sent for his bill. Running her eyes down its columns she paused. "What is this item, sir;" said she, "I cannot understand it?" And with equal gravity he rejoined: "Sass, $5. I don't often take it, but when I do I charge."

THE GREAT

SACRIFICE!

Sale of $150,000 worth of Fine, Elegant and Reliable Baltimore

CLOTHING!

is now in progress.

Want of space forbids a long list but a call and inspection of fifteen minutes will convince that you can SAVE entire cost of TRIP by buying your Men's and Boys' CLOTHING from us right now.

JOSEPH TURNER.

Sept. 18, 1886.

$2.50 Did It.

The persons named below had spent thousands of dollars in the aggregate to get relief from Rheumatism, but without success until they tried the RUSSIAN RHEUMATISM CURE, which cost two dollars and fifty cents. They say it quickly and completely cured them, and that they have since had no return of Rheumatic trouble.

We publish a little pamphlet sent free to any address containing their testimony just as they gave it to us, but if you have any doubts about the matter, write any of these Relieved Rheumatics, and get an expression from them:

J. D. WHITE, Bloomsburg, Pa.
SAMUEL BURNS, of Bausman & Burns, Lancaster, Pa.
JOHN MCLAUGHLIN, Lancaster, Pa.
WILLIAM SEMPLE, Allegheny, Pa.
F. P. MIDDLETON, Bedford, Pa.
R. C. PORTER, Cherry Hill, Md.
R. M. KESSLOW, Newton Hamilton, Pa.
COL. D. TREGARAL, Youngstown, Ohio.

The Russian Rheumatism Cure has saved every Rheumatic sufferer who has given it a fair trial.

ONE BOX DOES THE BUSINESS.

Price $2.50. If mailed 10c. additional. If registered 10c. more. Be sure this special trade-mark is on every box.

Special Trade-Mark Registered

As yet it is not to be found at the stores, but can only be had by enclosing the amount as above, and addressing the American proprietors,

We Desire to Call the Thoughtful Attention of Farmers

TO THE SUPERIOR MERITS OF

ORCHILLA GUANO

AS A FERTILIZER FOR

WHEAT AND GRASS.

The advantages resulting from its use are not only an increased yield, but the permanent improvement of the soil from the abundant growth of grass which is sure to follow.

"ORCHILLA" is no new thing. For twenty-one years it has been undergoing trial,—and well has it stood the test. At first, its progress to favor was naturally slow; but merit will, sooner or later, have its reward, and now its sales every year are largely increased over those of the preceding year, **and the friends of its early days are its best friends now.**

It has been used extensively in Maryland and the adjoining States, and from its abundant success everywhere we are justified in recommending it to you as being well adapted to your soils. No fertilizer for your use has had such unvarying success and continued popularity. Some of the largest and best farmers in these States use it almost exclusively.

It is Successful, because it is Nature's own provision for he exhausted fields.

It is Low Priced, because we have none of the expense of manufacturers, and, without regard to its high commercial value, we base its price solely upon its actual cost to import.

We refer you below to some of the farmers who have used and ask you to enquire of them its merits.

R. A. WOOLDRIDGE & CO., Importers,

64 BUCHANAN'S WHARF, Baltimore.

DAVID R. DERRICKSON, Edesville, Kent Co., Md., July 1st, 1886, says:—I used Orchilla Guano on my young peach orchard in the spring of 1885, and planted the land in corn. The guano gave me a good crop of corn, and its effect was very prominently marked on the trees.

HON. THOMAS A. HULME, Fairlee, Kent Co., Md., July 1st, 1886, says:—I used Orchilla Guano in 1883 on corn. The guano was put on in April, 400 lbs. per acre. I could not see any marked effect of it on the corn, but the next year I put the land in peach trees, and the effect was very decidedly shown in the healthy and vigorous appearance of the orchard—which has continued ever since. I afterwards used Orchilla in the drill for potatoes with the most satisfactory results.

WM. J. BURGESS, Chesterville, Kent Co., Md., June 30th, 1886, says:—I used Orchilla Guano in 1883 on wheat, and it did me good service on that crop, as well as on the grass crop that followed, which was as good as ever grew on the farm.

J. EDWARD HURLOCK, Chesterville, Kent Co., Md., June 30th, 1886, says:—I used Orchilla Guano for 1884 on wheat alongside of Hubbard's Phosphate. In the early spring the latter was ahead, but at harvest I could see no difference at all. The stand of grass from Orchilla was an excellent one. The land on which Orchilla was put was very thin. I applied about 400 lbs. per acre, broadcast.

DANIEL R. NEALL, Chesterville, Kent Co., Md., June 30th, 1886, says:—I used Orchilla Guano on corn in 1884. It was put on in February and plowed down. The season was a very dry one, but I had as good a crop as any of my neighbors had from other fertilizers. The land was put in wheat and made a good yield, and the grass that followed was a first-class stand. I would say that the land where Orchilla went was exceedingly poor. I believe it to be a good fertilizer, especially to improve the land

WM. P. CROSBY, Fairlee, Kent Co., Md., July 2d, 1886, says:—I applied Orchilla Guano in the spring of 1884—on land for corn, 400 lbs. per acre—broadcast. I got no marked result in the corn, but the effect of the guano was very distinctly shown in the wheat crop that followed.

WM. S. GOSLIN, Federalsburg, Caroline Co., Md., wrote January 15, 1886:—Two years ago I seeded one of my fields, containing 18 acres, in wheat, followed with clover. On 12 acres as an experiment, I used Lime and Orchilla Guano both; on the other 6, the poorest part of the field, I applied Orchilla alone. I had a good crop of wheat. On the 20th of June I commenced mowing my clover. The superiority of the clover on the 6 acres attracted the attention of all who saw it. I shelled 16 bushels of clover seed from the 6 acres, and only had 25 bushels from the 12 acres! I shall use Orchilla by itself hereafter. I have had 17 years' experience in the use of Orchilla Guano, and I unhesitatingly say, that for good results and the permanent improvement of the soil, it has no equal.

J. M. ANDERSON, Providence Mill, Cecil Co., Md., writes, July 30, 1885:—I have used Orchilla Guano on wheat, side by side with Bone; and find it produces equally as well as the Bone. The cost being in favor of Orchilla.

JOHN E. WILSON, attorney-at-law, Elkton, Cecil Co., Md., wrote Oct. 7, 1885:—I used Orchilla, 200 lbs. per acre, on 7 acres of land this fall and put it on buckwheat. It was on land that never would raise anything before. I have never seen a finer crop of buckwheat grown from any land. Manure or any phosphate formerly used on the land was of no avail. I estimate a yield of no less than 200 bushels from 7 acres. I left out a strip in seeding, on which I put a mixture of different kinds of phosphate, but got no buckwheat except where Orchilla went. I have used Orchilla all over my wheat this fall, and shall also use it on land for corn next spring.

MR. WILSON writes now, July 22, 1886:—The wheat on which I used Orchilla, 500 lbs. to the acre, was as good as that produced by a high grade phosphate; and a better stand of grass I never saw. Where I used the Orchilla on corn this spring, I can see to a foot where I applied it; and the corn there is better than where I applied barn-yard manure heavily beside it. I consider Orchilla Guano better than barn-yard manure, for corn and grass, and equal to it or any other phosphate for wheat.

JOHN T. GAMBLE, Bayview, Cecil Co., Md., July 22, 1886, says:—I have used Orchilla Guano to advantage on wheat, on which I consider its action quite as good as bone. For grass Orchilla is unexcelled by any fertilizer I know of.

THOS. N. WARBURTON, Bayview, Cecil Co., Md., writes July 19, 1886:—Orchilla Guano has been used upwards of ten years on the farm of my father, (now deceased,) where I have always lived, and now live—and always with the best results on the various crops to which it was applied, and with large and continued increase of the grass crop following, and this may now be seen on the place.

WM. T. MILLER, Elkton, Cecil Co., Md., writes July 20, 1886:—I do unhesitatingly endorse and recommend Orchilla Guano as a fertilizer. It has always improved my wheat crop greatly, and the grass following is always remarkably excellent. I shall want my supply this fall.

CHARLES H. OWENS, Elkton, Cecil Co., Md., writes July 4, 1885:—I have used Orchilla Guano for several years, and meantime have used other fertilizer phosphates, and find the Orchilla equally as good for grain crops, and far more productive for grass; and for permanent improvement of land, the best.

JOHN WHITE, Mechanics' Valley, Cecil Co., Md., July 10, 1886, writes:—I confidently recommend Orchilla Guano as a good and permanent fertilizer, it having produced for me excellent crops of grain and grass. I think it fully equal to bone.

JOHN T. GALLAHER, Elkton, Cecil Co., Md., writes, July 12, 1885:—I have used Orchilla Guano, year after year, for several years, and have always found it beneficial to the crops, both of corn and wheat, and therefore recommend it as a reliable fertilizer for grain and for grass as well, and at less cost than most fertilizers.

PRICE, $23 PER TON, 2,000 lbs.

Stations marked thus (*) have no agents. Freight for Bingham's, Flatland and Nicholson's must be prepaid.

The morning trains make close connection at Clayton with trains on Delaware Railroad going North and South.

Passengers to and from Baltimore change at Porter's.

Freight carried at low rates to all points and must be at Stations thirty minutes before starting time in order to insure despatch.

Excursion tickets issued at reduced rates.

The above arrangement will give passengers four hours and a-half in Philadelphia, three hours and twenty minutes in Baltimore and return home the same day.
