PINEY NECK WAVES.

An enjoyable evening was spent by many at the parsonage Friday night where a "Poverty Social" was held. Every one wore their worst rig, ladies their calico dresses, the gentlemen their flannel shirts. Games and leading amusements afterwards followed the vittels, doughnuts, lasses taffy and black coffee. Prizes were given for wearing the worst rig to Miss Lillie Frazier who represented a "Beggar Girl" and Mr. Wm. Ashley "A Kent County Tramp."

Mrs. Mark Taylor who has been visiting her father for the past two years returned to her home in Baltimore Friday.

Glad to have our steam boat again. None of us suffered during the quarantine, had plenty in store.

One of our young farmers has a fad for raising poultry. He has a poultry yard containing about 180 best laying hens. The hens average 8 to 10 eggs daily. Don't think we will pattern after him yet awhile in poultry raising if that will be the case.

Mr. Charles Wood is better and rapidly improving at this report.

Miss Helen Strong who has been spending her "Smallpox Vacation" at her home in Piney Neck, left on last Monday morning for her school in Rock Hall.

Misses Rilla and Alice Wood have spent a pleasant week sleigh riding and skating.

The young folks have had a good skating this week, both Davis' and Long Cove were filled with skaters. One of the beginners split her skate in twain and came home without any sole on foot.

Presiding Elder Koons will hold his last quarterly conference Sunday afternoon.

Mr. William Staats paid a flying trip to Chestertown last Tuesday.

Stormy Weather Predicted.—According to the prediction of Rev. Irl R. Hicks we may look for a prolonged and greatly intensified storm period between the 7th and 12th of the present month. The 10th and 12th will probably bring the culmination of what is called a series of *danger days* in this period. Torriential rains will, it is said, fill the streams and rivers in sections southward, in all probability precipitating ice gorges and dangerous overflows and floods during the following period. It is said that many sections northward will suffer from blizzards, storms and blockades at this time. The 12th is the central day of a period of five to seven days in which many earthquake shivers will be reported in extreme of the globe. Hick's predictions are covered by the copyright law or we would publish them in full.

STEAMBOAT MEN PROTEST.

Want The Work of Widening Light Street Postponed Until Fall.

General Manager John R. Sherwood of the Old Bay Line and General Manager Willard Thompson of the Baltimore, Chesapeake and Atlantic Railway Company and Maryland, Delaware and Virginia Railway Company, called on City Comptroller Heffner this week to discuss the plans for the widening of Light street, Baltimore. The city has already acquired most of the property needed for the widening of Light street between Pratt and Lee streets, and notice has already been given to the tenants of the buildings between Pratt and Camden streets to vacate by February 15. Immediately thereafter the work of tearing down these buildings will begin.

Both Captain Sherwood and Mr. Thompson explained to Mr. Heffner that the confusion following the tearing down of buildings during the summer season, together with the clouds of dirt which necessarily follow such operations, will seriously incommode the steamship companies and their patrons.

They suggested that the work be stopped during the height of the excursion season, and they also suggested that, in view of the extra travel expected to seek the bay-line routes to the Jamestown Exposition, the city should not handicap the steamboat companies too much. They further suggested that if the buildings between Pratt and Conway streets are torn down this spring, the work on the other two blocks, between Conway and Lee streets, should be postponed until next fall. Mr. Heffner will take up the matter with Mayor Timanus.

College Baseball.—The baseball season at Washington College will open on April 2 with a game with the strong Syracuse University team. The Washington College team will be a formidable aggregation this year. Several new students have added strength to the team, and there are many candidates among the older students for positions on the squad. The team will probably have four regular pitchers, with White and Wilson, of last year's team as the stars. There are also several strong candidates for the position behind the bat. The captain of the team is George White, with Walter W. Price as manager. The schedule so far arranged is as follows:

Syracuse University, at Chestertown, April 2; Gallandet College, at Washington, April 6; Wilmington Conference Academy, at Dover, April 13; Lebanon Valley College, at Chestertown, April 25; Delaware College, at Newark, April 27; Mount St. Joseph's College, at Baltimore, May 3; Rock Hill College, at Ellicott City, May 4; Western Maryland College, at Chestertown, May 9; Mount St. Mary's College, at Emmitsburg, May 11; St. John's College, at Annapolis, May 18; Severn A. A., at Chestertown, May 25; M. A. C., at Chestertown, June 1; Lafayette, at Chestertown, June 15.

Dodder in Clover Seed.—Messrs. Smith & Graham have received from the Department of Agriculture the following letter regarding dodder in clover seed:

"A large percentage of the clover seed on the market this season contains more or less dodder, and the farmers throughout the country must necessarily be extremely careful in order to avoid the introduction of this serious pest on their farms. It is advisable for farmers and retail dealers to purchase seed on sample only, and then send the sample to your State Experiment Station, at Agricultural College, Maryland, or to this Laboratory, to have them examined for the presence of dodder and adulterants. We are sending you under seperate cover Farmers' Bulletins No. 194 and 260, which will give you more detailed information concerning dodder seed."

The Democrats have been given some good advice lately by Congressman Fred Talbott, Ex-Gov. Elihu E. Jackson and others upon the subject of "getting together." Any one with an ounce of brains must see such a necessity. It is not worth while to talk about the blunders of the past or curse people we don't like. We should be more concerned about the future and guard against more blunders. Democrats can win both State and County by acting sensibly—harmoniously. Otherwise they will most likely lose both.

CLOTHING TAILORING FURNISHINGS

Chew What You Know About and Know What You Are Chewing

There is real pleasure in chewing the best tobacco grown—where the best tobacco grows—in the famous Piedmont Country.

Only choice selections of this well-matured and thoroughly cured tobacco is used in making SCHNAPPS. That's why SCHNAPPS and others of the Reynold's brands, as shown by the Internal Revenue statistics for a fiscal year, made the wonderful growth of six and one-quarter million pounds, or a net gain of one-third of the entire increased consumption of chewing and smoking tobaccos in the United States.

Evidently, chewers cannot resist the flavor and they cheer SCHNAPPS because SCHNAPPS cheers them more than any other chewing tobacco, and every man that chews SCHNAPPS passes the good thing along—one chewer makes other chewers—until the fact is now established that there are many more chewers and pounds of tobacco chewed, to the population, in those States where SCHNAPPS tobacco was first sold than there are in the States where SCHNAPPS has not yet been offered to the trade.

SCHNAPPS is like a cup of fine Java coffee, sweetened just enough to bring out its natural, stimulating qualities. SCHNAPPS pleases all classes of chewers: the rich, because they do not find a chew that really pleases them better at any price; the poor, because it is more economical than the large 10c. or 15c. plugs and they get their money's worth of the real snappy, stimulating flavor so appreciated by tobacco lovers. All imitations contain much more sweetening than SCHNAPPS. They are made that way to hide poor tobacco improperly cured.

For the man who chews tobacco for tobacco's sake, there is no chew like SCHNAPPS.

Sold at 50c. per pound in 5c. Cuts. Strictly 10c. and 15c. Plugs
