There is more than one way to get your crops to market. There is only one way to be sure of a full crop of smooth, good-sized, **mealy potatoes.**

Nine per cent. of

POTASH

in the fertilizer is necessary. Stable manure alone makes scaly, coarse and irregular shaped potatoes—mix it with Potash, a larger yield of a better quality is a sure result.

How to apply Potash, the reasons for applying it, and other vital points of successful potato growing, are all discussed in our booklet. Why not have it? It costs you nothing but the asking.

The Cause of Many Sudden Deaths.

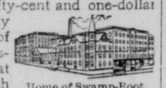

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co. Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Home of Swamp-Root.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp Root, and the address, Binghampton, N. Y. on every bottle.

NEW

MEAT MARKET.

We have opened a meat and feed store on High street, opposite the Voshell House, where will be pleased to see the genera public. Orders left with us will receive prompt and careful attention. We have on the farms owned by Mr. James T. Ireland about 40 head of fine beef cattle which will be butchered on the farms and placed on the market as desired.

We want 5,000 pounds of fine pork and all kinds of poultry, for which the highest market price will be paid.

JAMES T. IRELAND & SON,

THE MOST INEREST-ING OF EXPOSITIONS

BY STANLEY DESMOND.

Norfolk, Va.—The atmosphere of the Jamestown Exposition is in strict accord with the serious import of the celebration itself. The managers argue, and rightly, that the Exposition marks an epoch in American History that was a grave crisis in the early development of the new world, and that any ceremony marking an anniversary of this period should take upon itself the nature of the early days themselves.

Indeed, a visit to the exposition is a glimpse into a world of centuries ago. As though the curtains of time were drawn back, the scene is of that rare Colonial period which is now so eagerly sought for. The setting is perfect; only the actors are wanting, for along the quaint walks and bypaths of the wooded sections of the exposition stroll, not the cavalier in doublet and hose, or the woodsman in tawney Indian dress, but the Twentieth Century visitor. It is as a wonderland peopled with a strange race of men.

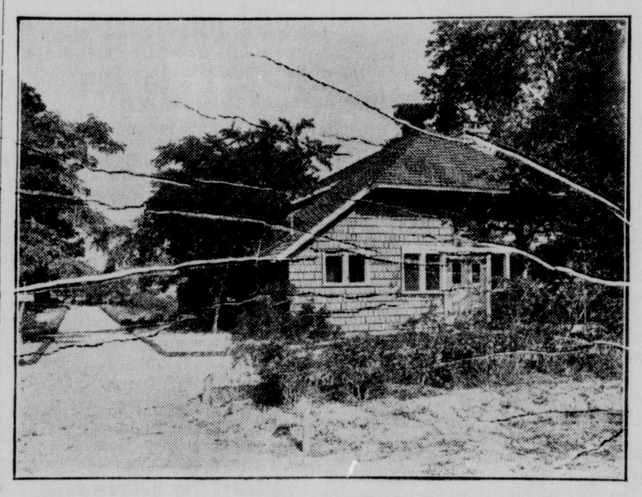

A GREAT MARINE REVIEW.

Although it is without a doubt the most interesting industrial exposition ever held in America, though its unsurpassed location, it will present the most remarkable marine review ever assembled in American waters.

The science of war will have its manifestation before thousands of spectators without any of the horrors. Military experts will, for the first time in many years, have an opportunity of observing the characteristics of the troops of nearly every country in the world, and the spectacle presented by the various bodies of soldiers cannot but be a most impressive one. Not only will it emphasize all the glory of war and the grandeur of martial display, but it will assuredly take an important part in the future consideration of those elements which threaten to disturb the tranquility of the nations.

HAMPTON ROADS A SEA OF LIGHTS.

In this assemblage of militarism and the magnificent review of naval strength the Jamestown Exposition lays claim to a position in the very front rank of the world's celebration. By day and by night the army and the navy will prove an attraction without parallel, for under cover of darkness will be developed the elaborate system of search light signals and "wig-wagging" that keep ships and detachments of men in constant communication. The sight of millions of lights in the rigging and along every line of the graceful battleships in Hampton Roads will in itself be a sight of

MODEL SCHOOL, JAMESTOWN EXPOSITION, NORFOLK, VA.

Chicago, because of the treaty conditions with Canada, could not have a single warship on her magnificent lake front. The best that could be done was a brick vessel with dummy guns. Other expositions have been handicapped by this and other restraining conditions, but the Jamestown Exposition with Hampton Roads and the James River at her threshold, has accepted an opportunity that few other localities can command.

Among the naval rendezvous of the world, Hampton Roads, is regarded as one of the most beautiful. Picturesque from every standpoint and capable of harboring the allied fleets of the greatest world powers, it has ever been a favorite anchorage and manoeuvreing ground for the vessels of the United States Navy. On the one side Fortress Monroe, most imposing of the nation's defenses, on the other side Norfolk, with its bustling industries, no more admirably situated body of water could be selected for the magnificent naval spectacle that visitors to the exposition will witness. Here the game of war will be played in mimicry as it has never before been played in time of peace. From the bridges of their flagships, cleared for action, the foremost commanders of our squadrons will direct the immense fleet to be assembled through the movements of a battle fought with technique alone. Not only will the most powerful battleships and cruisers of the United States be assembled in the Roads, but scores of representatives from foreign navies are expected to be present and take part in the manoeuvres. It will be one of the most important internationl gatherings of naval forces ever brought together.

PICKED TROOPS OF THE WORLD.

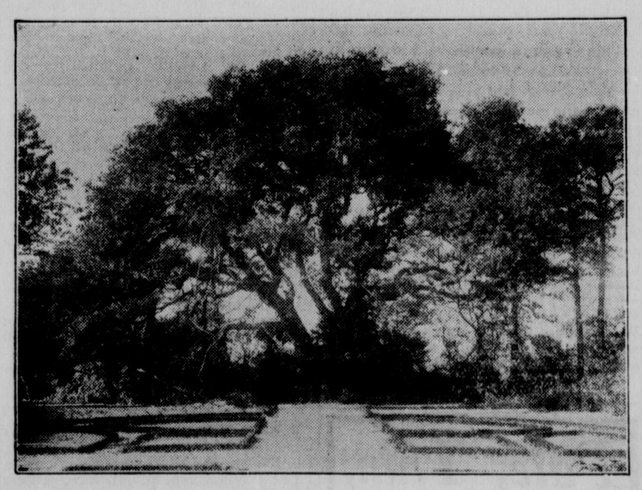

The pomp of power will not, however, rest entirely upon the naval display, for at the invitation of President Roosevelt, the powers of the world will send to Norfolk the picked troops of their armies to take part in a military encampment of the utmost importance.

unusual beauty.

Peace, however, will lay a claim to no small share of the Exposition's space; for, after all, the idea has been to make it an industrial and economic display of American products.

Contrast will be relied upon to increase the effectiveness of the industrial features of the celebration. The Old way and the New way will be shown in manufacturers of every nature, and in the Arts and Crafts village, in the center of the Exposition grounds, will be exhibited the primitive methods practiced when John Smith, three hundred years ago, led his intrepid band to the shores of the James, there to found a settlement which established the English and their language in the New World. Indians will form their crude articles of pottery and hammered copper and brass. The hand loom and the old fashioned cards and spinning wheel of early Colonial days will be shown side by side with the giant machinery which today multiplies the olden time methods a hundred fold in time, output and perfection.

Three centuries of development in art

POWHATAN OAK, JAMESTOWN EXPOSITION, NORFOLK, VA.

and industry will be told in working models. Methods of transportation then and now will be on exhibition, down to the dirigible airships and the submarine ship. These two displays alone are regarded as a most important feature of the exposition, since from Europe the very last word in such construction will be sent here for the inspection of the military and naval experts who will be in attendance. Under the waters of Hampton Roads, sub-marines will be tested and sent through their mimic evolutions.
