Nobby Vehicles!

It always pays to investigate before you buy. In the carriage line this is doubly true, because they are apparently alike when vastly different.

If you will take a look at our Runabouts and Carriages, note the snappy styles, the good class of work and all that goes to make a vehicle of value—then consider the fact that we as dealers are under no expense whatever to sell these jobs, no clerks, no commissions, no rents—(we buy only in solid car-load lots to the very best advantage)—you will readily see why we can sell as we do and why it is to your own good interest to buy from us.

Terms made satisfactory.

SHAD FISHING.

Kent county fishermen have met with success for the past two weeks catching shad. One boat started out Tuesday night off Swan Point and had been drifting their nets for twenty minutes and caught fifty shad. A terrific wind-storm came up and drove them ashore.

There were 4,000 shad shipped from Tolchester Friday and equally as many from Rock Hall. On Tuesday the fisherman at Tolchester shipped 7,000 shad which brought over $2,000.

The catch at Rock Hall has averaged 3,000 daily and prices have ranged from 30 to 65 cents each. The buy-boats have carried large quantities to Baltimore.

The largest shipment of shad for any one day was 12,000 from Tolchester one day last week.

The Betterton fishermen are complaining that the run of shad in that section is very poor.

A Narrow Escape.—Hon. Joseph A. Wickes, accompanied by his son, Joseph, made a narrow escape from being struck by the Kent train Thursday evening. They were driving into town about six o'clock and were between the paper mill track and the main line when the engine blew. Engineer Reed grasped the situation at once, blew several sharp blasts and put down brakes. Judge Wickes' horse became frightened and bolted to the side of the road just in time to clear the cars. Several persons standing on the roadside held their breaths in awe expecting an awful catastrophe, but fortunately no damage resulted.

Soil Management.—Mr. J. W. Nelson, of the Bureau of Soils Washington, D. C., is in Chestertown for the purpose of making a study of soil management problems throughout the Eastern Shore of Maryland. He will make several trips through this section during the summer and will be glad to meet and call upon farmers who are interested in trucking, fruit growing or general farming and especially those who have been or may be contemplating any experiments with reference to the fertilizer or manurial requirements of soils. Any communication addressed to Mr. Nelson at the Bureau of Soils will receive prompt attention.

New Home.—Messrs. Bowers & Stavely, of Lynch's, have begun the erection of a handsome home for Mr. and Mrs. James S. Harris, Jr., on his farm in Still Pond Neck. It will cost about $6,000 when completed.
