MOODY & LUSBY | MOODY & LUSBY

In talking about our clothes we omit the technical terms which might confuse the average man.

We will say simply and plainly that every inch of cloth used in the making of MOODY & LUSBY CLOTHES is guaranteed absolutely, whether you pay $10.00 or as much as $18.00, you'll get "value" which will assert itself in the wear the clothes afford you. The test of time is the only real test after all. And the man who will fairly judge our garments on this basis is the most enthusiastic wearer of Moody & Lusby Suits and Overcoats.

We lay great stress on the subject of "Fabrics" it is important enough to deserve the serious thought of every man. If you buy a stylish looking suit, well put together, perhaps, but made of poor fabric, it cannot possibly retain its shape or style. It will look well for a time but a little wear will soon convince you that good cloth is just as vital as a good fit or stylish cut. Your protection against disappointment is to avoid unknown and unreliable makes.

Buy clothes which carry with them a guarantee of responsibility. Buy from a house that the established reputation is sufficient to convince you that you are safe on the quality question, both inside and outside of the garment.

The same rule applies to our Boys' and Children's Clothing. Everything has got to be right, viz.: "Cloth and Trimmings."

Come in at your earliest opportunity, for the nearer to the holliday rush the less satisfaction to you — making up your holliday list we might be of service to you by enumerating some things useful and appropriate, viz.: Suit or Overcoat for man, boy or child, Hat or Cap, Gloves, Underwear, Cardigan Jacket, Dress Suit Cases, Hosiery, Handkerchiefs, Neckwear, Suspenders, Silk Mufflers, Umbrellas, Cuffs, Collars, Shirts, Gum Coats, Rain Proof Coats, &c. Any of these things will make lasting and appropriate Christmas Gifts.

One of the worst disasters in the history of coal mining in this country occured at Monongoh. W. Va., December 6. Shortly after 10 o'clock a tremendous explosion shook the country for 10 miles around like an earthquake, and by it 500 men were entombed in mines 6 and 8 of Consolidation Coal Company, the headquarters of which are in Baltimore.

It is believed that every one of the 5,000 persons about the mine opening has lost a relative.

Three hundred women were made widows.

A mob of the wives of four huudred foreigners tore flesh from their own faces, while their lamentations were heard for miles.

Six hundred wrecked freight cars block the drifts into the mines.
