"1892" Pure Spun Aluminum Ware

15 Days at Our Risk

Buy any piece of this ware from your dealer—try it fifteen days. If in that time you find that all the claims we make for it are not true, and if it is not just as represented, take it back and get your money.

ENAMEL WARE CAUSES CANCER, SAYS DOCTOR

Tells Homeopaths Particles From Dishes Start Growths in Stomach.

Special Dispatch to The North American.

ATLANTIC CITY, Sept. 11.

INTRODUCTION of modern enamel ware in the kitchens of the country is responsible for many cases of cancer, was the striking theory advanced by Dr. William H. Hudnut, of New York, in a paper entitled, "Observations on the Etiology of Cancer," read before the Bureau of Sanitary Science and Public Health, at which leading experts of the International Homeopathic Congress met today to discuss questions of public health.

The argument advanced was that chipping of the hard-coated dishes used in preparation of meals allowed minute but dangerous particles of foreign matter to become mixed with the food. These are taken into the stomach, where the cancerous growth is caused by abrasions which they make in the walls of the organ.

—Clipping from Philadelphia North American, Sept. 12, 1909.

Here **at last** is the ideal kitchen and cooking utensil—**"The Ware That Wears"**—made from **Pure Spun Aluminum,** and **guaranteed** by the makers **to last 25 years** with average usage. **"Spun" Aluminum,** mind you, **not cast Aluminum,** which will sometimes crack and scale. Spun Aluminum Ware will never crack, peel, scale or break.

Enamel ware is iron coated with colored glass. Iron expands with heat. Colored glass does not, but chips off into the food with dangerous results **to those who eat it.**

Save the wrapper slipping.

"1892" Pure Aluminum Ware Saves Doctors' Bills.

It enables you to **bake** bread, pies, pancakes, etc., **without grease,** which is the great cause of dyspepsia and indigestion. Aluminum gridles require no grease; hence are smokeless and odorless.

"1892" Pure Aluminum Ware Will Not Scorch or Burn

—is easily cleaned, will not **rust or corrode.** Handsome in appearance. Looks like silver, but weighs only about one-fourth as much, and is light and convenient to handle.

The original and only genuine Spun Aluminum Ware is made by the Illinois Pure Aluminum Co. at Lemont, Ill. Every piece bearing their trade-mark, the Maltese Cross, and marked "1892" Pure Aluminum Ware is absolutely pure, wholesome and hygienic—guaranteed for 25 yrs.

See that you get the right goods and accept no substitute.

DR. MERRITT ACQUITTED

Jury Returns Verdict After Being Out Four Minutes. He Faces Another Charge.

Easton, Md., Nov. 27.—After being out about four minutes this afternoon the jury in the case of Dr. James B. Merritt, charged with malpractice, returned a verdict of not guilty.

Immediately after he was declarded free he surrendered to Sheriff Nichols, who held a writ from the authorities of Caroline county charging him with performing an illegal operation on Mrs. John Dean, of that county. On this charge he was released on $5 000 bail for his appearance at Denton in April. His bondsmen were his wife, Mrs. Georgeanna Merritt; Alexander Fountain and William B. Shannahan.

The courtroom was crowded when the trial was resumed this morning. Dr. James E. Stevens was the target for the attorneys of Dr. Merritt. Dr. Stevens testified that Merritt told him he had performed the operation on Miss Sothoron.

The physicians were then driving together to the Sothorn home to consult on the condition of Miss Sothorn. This admission to Dr. Stevens was the most damaging testimony offered, so the batteries of the defense were concentrated in an effort to show that some personal animus influenced Dr. Stevens.

Mrs. Merritt and Miss Merritt, the wife and daughter of the accused, testified that Dr. Stevens had called at their home after Merritt's departure and asked for a list of his patients. His request, they said, was refused.

Grand jurors were put on the stand to say that Dr. Stevens, when testifying before the State's inquest, had made no mention of this statement by Dr. Merritt that amounted to a confession. When recalled to the stand this morning Dr. Stevens said he had answered fully and truthfully every question the grand jury had asked, but he had hesitated to volunteer any information. Subsequently he had denied any information sought by the State's Attorney in a personal capacity, giving the information only when compelled to do so in answer to a direct question in court.

In his testimony last night Dr. Merritt said he had left the county because he was afraid he could secure no more bail and the Caroline county case would have necessitated this. When the time came for his trial at Easton he was, he said, in Chicago too ill to get here.

Dr. Merritt made a good witness for himself, in the opinion of everyone here. He denied few things, attempting to explain everything that was done by him in the Sothorn affair. Referring to Dr. Stevens' testimony, he said that it was a mistake, as he had never made such an admission.

The evidence was concluded and argument closed at 3.30 o'clock this afternoon. Only one ballot was taken by the jury.

Storm and Weather Forecasts for December.—Rev. Irl R. Hicks' information for the month of December: A reactionary storm period is central on the 4th, 5th and 6th. But the probabilities are that the last storm in November will last one or two days into December with rain and snow, especially in the eastern parts of the country. A cold wave of much intensity will prevail over the western as well as the central sections of the country as we pass from November into December. From the 5th to the 7th the cold will relax, the barometer will fall and renewed storms of rain and snow will prevail over most sections of the country. A regular storm period extends from the 9th to the 11th, being central on the 11th. A reactionary storm period is central on the 16th, 17th 18th. A regular storm period is central on the 22nd, covers the 20th to 26th. This period is at the center of the winter solstice. In all reason it will bring heavy winter storms on the land and sea. These storms are apt to continue over the limits of the period in consequence of the Mercury disturbance and the opposition of the moon on the 26th. A reactionary storm period is central on the 27th, 28th and 29th. On these days renewed storms of sleet and snow will sweep over most parts of the country and will be followed by high barometer, blizzardous winds and very cold.

RESOLUTIONS OF RESPECT.

At the meeting of the Teachers Association of Kent county held November 27th, the following Resolutions were adopted.

WHEREAS, since our last meeting God has called from her school room to Himself one of our members, Miss AMELIA MOFFETT—

Be it resolved, that in the death of Miss Moffett the Teachers Association of Kent county has lost one of its most efficient members, one who was always ready to respond to its demands whose aim was, ever, the advancement above all those of those entrusted to her care.

Be it resolved, that we extend to her bereaved family the sympathy of this Association. May He who cannot err, be very near to them making them to feel that underneath are the Everlasting Arms.

Be it further resolved, that these resolutions be entered in the minutes of this Association, be sent to the county papers, and to the family of our deceased member.

Respectfully submitted,
JEANETTE GOODSON,
Corresponding Sec'ty.

This is Worth Remembering.
