Kent is Left Out of Big Places—John D. Urie and S. P. Townshend, Esqs., Name Civil Officers for Kent—New Insurance Commissioner, &c.

Governor Goldsborough sent in the nominations to office Wednesday, and as usual there are many of his people who are "sore." Kent failed to land any of the big places, but our worthy friend, Mr. Harry P. Skipper, just across the river, was made a member of the Live Stock Sanitary Board, a most admirable selection. His companions are Charles W. Melville, Carroll county, and Hart D. Noll, Howard county.

The election of these two men ends a a bitter fight among Democrats for the two offices, which are among the most desirable in the State, and a contest which threatened to disrupt the Democratic organization's forces.

FINE CELEBRATION

Mt. Vernon Society of Washington College Banquets at Voshell House—Washington's Birthday Celebrated.

The Voshell House was alive Thursday evening last with the adherents of old Mt. Vernon. It was the 65th annual banquet of this, the oldest college literary society in Maryland, and everything was carried out in a most successful and agreeable manner. Mr. and Mrs. J. E. Ferguson, the proprietors of the Voshell House, showed that they were able to serve a banquet equal to any city hotel or caterer. It was certainly appetizingly and elegantly carried out in every feature, and we want to congratulate Mr. and Mrs. Ferguson on their efforts.

One of the most pleasing features of the banquet was the artistic singing of Mr. John C. Thomas, of the Peabody Conservatory of Music, Baltimore, whose renditions were enthusiastically received. Mr. James L. Bacchus, pianist, accompanied Mr. Thomas in his usual perfect and talented manner.

Seventy persons partook of the following most excellent menu:

Chincoteague Oysters on half shell.
Gherkins, Olives, Oysterettes.
Chicken Consomme, Croutons.
Boiled Rock, Hollandaise.
Potato Balls, Cheese straws.
Roast Turkey.
Cranberry Sauce, French Peas.
Hominy, Celery.
Maryland Biscuit, Potato Rolls.
Chicken Salad, Mayonnaise Dressing.
Roman Punch, Harlequin Cream.
Assorted Cakes.
Mints, Coffee, Tea.
Assorted Nuts.
Cigars, Cigarettes.

Mr. Wm. F. Russell, Jr., the talented president of the society, was toast master, and most ably introduced the following:

Debating.....Benjamin A. Johnson
Leap Year.....J. Lewin Burris
Washington, Past and Present. Thos. D. Bowers
Washington Ideals.....Dr. James W. Cain

The officers of this society are the following:

President—William Frazier Russell, Jr.
Vice-President—A. W. Pardew.
Recording Secretary—J. O. Ridgely.
Treasurer—A. B. Harris.
Corresponding Secretary—G. C. Reier.
Historian—J. E. Harris.
Sergeant-at-Arms—W. W. Selby.
Critic—J. L. Burris.

The celebration at Washington College on the morning of the 22d in honor of Washington's Birthday was fittingly carried out under the direction of President James W. Cain, whose address on "Washington's Statesmanship in the Factional Differences" was a most admirable one. Other addresses and special music made the exercises very attractive.

Killed At Cecilton.—William Brown, a colored man, living at Cecilton at the time of his death, was shot on Thursday evening about midnight by William Thompson, another colored man, living in that place. The shooting occurred at the house of Thaddeus Brown, where a party was in progress. The two men got into an altercation whereupon Thompson drew a revolver and shot Brown in the left eye, killing him instantly. The

The singing of the "Star Spangled Banner" a few minutes previouly reminded Mr. Guest of a recent visit to Fort McHenry and he described the scene of the famous fight and interesting incidents connected with it."

TOWN MEETING.

The tax-payers meeting in Firemen's Hall last Monday evening was well attended. Chairman Curtis E. Crane and Secretary E. F. Perkins were in charge and a general discussion of the vital town questions took place. The four questions discussed were sewers, streets, electric light ownership and consolidation of water board and town commissioners. The report of the committee on buying the electric light plant was unfavorable to the project and the taxpayers approved the report. The committee on consolidation of water board and town commissioners also advised against the plan and this report was also adopted. The report of the committee on sewers recommended that a sewer be built on Main street from Catholic Church to College avenue on College Ave. from Main street to Cannon street and on Cannon street from College Ave. to the Chester river. The committee on improved streets advised that a $20,000 bond be floated to improve certain streets, but after discussion it was decided to ask for a bond issue of $15,000 to build the sewers above outlined and to construct following roads: finish the road on Main street between Queen and Water street, build new stone road on Cross street between Main and the new depot and as far out Main street toward the old depot as the bond issue of $15,000 will allow.

The voters of Chestertown will be called upon to approve the bond issue at the polls in April next.

Read the unbiased Government opinion of Buick cars, copied from the Phila. Inquirer:

GOVERNMENT APPROVAL OF THE BUICK CAR

Last week a model 28 Buick motor car was delivered to Colonel Spencer Cosby, of the Department of War at Washington to be used by the inspector of public buildings and grounds on his daily trips.

The government invited all the leading manufacturers of cars priced from $900 to $2000 to submit a car in competition to a committee of mechanical experts. The cars were driven to the designated place and the drivers dismissed. The examination was then made with no representative of any of the cars present. Motor for motor, shaft for shaft, bolt for bolt, the cars were compared, tested appraised by the government experts. One by one the cars were eliminated until but one remained. It was the Buick. Of the seventeen or eighteen cars submitted the Buick alone stood the rigid tests of of quality and construction upon which the examination was based. This car was at once turned over to the government for immidiate service.

This is not the first time the Buick has been selected for government use. Last fall when an appropriation of $250,000 was made for experiment on road construction the Buick was the car used to drive over the various road surfaces that were laid and tested.—Philadelphia Inquirer, January 14, 1912.

TO OUR TOMATO GROWERS

I beg to announce to the Tomato Growers of Kent and Queen Anne's counties that I have returned to change the contracts of all our growers for the John Boyle Co., of Baltimore, Md., from 15 to 16 cents per 5-8 basket.

We are always ready to meet the prices of our competitors, and I further state that when we started not a Baltimore packer was willing to pay $9.00 per ton, and whilst they were squabbling over prices we secured our contracts; and if it justifies them to pay $9.60 per ton, it does the John Boyle Co. also.

We also desire to express our thanks to all of our growers for the preference shown us, and further desire to state that we have come on the Chester river to stay and do business in the right way, and solicit your patronage.

THUNDER, LIGHTNING, WIND!

Teriffic Wind Storm Plays Havoc About Kent Wednesday Night.

Thunder and lightning visited this county Wednesday accompanied with a down-pour of rain. A wind storm followed and continued all night.

Mr. Rumsey Anthony, a progressive young truck farmer across the river, was damaged about $500. Frames on his hot house were lifted from their places and strewn over the field breaking the glass and leaving his young plants exposed to the cold.

Ex-Sheriff Edw. J. Plummer in Morgnee says the storm was cyclonic in his section. His barn was moved 20 feet from its foundations, corn crib upset and the side of the house knocked in. The stable on the Barkman farm was upset; Chas. Copper's wagon shed turned over and Mrs. McKee's buildings also damaged. Mr. George W. Walker's chimneys were blown down. Other small buildings in that vicinity were damaged.

Mr. D. Arthur Bacchus says his brick home shook so perceptibly that the family arose and dressed and awaited results!

Two large panes of glass each 28x30 in. were blown out in Mr. Merrick Clements' home on Kent Circle and two large panes in the News press room.

ICE BOAT ARRIVES.

The River Free of Ice on Tuesday—Thick Ice Encountered Off Hale Point—Boat Expected at Tolchester Today.

The people of Chestertown were agreeably surprised on Tuesday to see the ice boat Annapolis arrive here about 5 o'clock, it being the first boat here since January 4. Captain Gray was in command, and he stated to the News man that he made the trip in six hours. He encountered a mile of two-foot ice between Love Point and Hale Point, which occupied nearly an hour to get through. Capt. Gray says he has been in the business for 32 years and this has been the worst winter of his whole career on the water. He has been on duty in the pilot house for 36 hours at a time and the strain was very trying. There was little or no ice in the river and oystermen were piving their tongs.

The ice boat left here early Wednesday morning and stopped to liberate a number of pungies caught in Jackson's creek. Rock Hall harbor was blocked with ice.

Word was received here Wednesday that the Tolchester boat was expected to arrive at Tolchester to-day.

The warm weather, however, will also have its effect on the Susquehanna river, and almost any moment it may break up and come down into the bay. The thickness of the Susquehanna ice, which in many instances is from 15 to 20 inches, makes it dangerous. It is the coming of this ice that is now feared most by mariners, and they are hoping that it may be averted by several days of heavy fogs, which would tend to rot and sink it before it reaches the bay.
