DECLINES TO BE A CANDIDATE

After giving the matter serious consideration LEWIS W. WICKES, ESQ., who has been waited on by nearly all of the Democratic members of the Kent county bar and by a host of friends, asking that he be a candidate for Chief Judge to succeed Hon. James Alfred Pearce, has decided not to be a candidate. This action of Mr. Wickes will be regretted by his hundreds of supporters in Kent as well as in the other counties of the circuit. Mr. Wickes possesses every qualification for the bench and would have made an ideal dispenser of justice towards all.

THE Legislature will be in session four weeks longer.

THE Republicans would like to have November eliminated from the calendar —it is their finish month.

THE public should not criticise our Board of Town Commissioners for removing the racks on High street. It was simply a necessity when the elegant macadam road was put down, and we are confident the Commissioners will do their utmost to place racks at convenient places for the merchants and farmers as soon as the weather permits.

THE entrance of Teddy into the arena has enlivened the situation and proved at least interesting to the Democrats. It is certainly amusing to see the warm supporters of Teddy in the past now decrying him, calling him an anarchist, socialist, etc. Bryan says Teddy has taken all his policies! Why not make the ticket Teddy and Billy?

THERE should be no division as to the installation of a sewer on High, College and Cannon street. There is an imperative need for this improvement and it should be done at once. We understand the cost will not exceed $2,500. This money can be borrowed readily as was the road money and within two years from this date the whole sum paid without any bond issue or raise in taxes.

DOINGS AT ANNAPOLIS

Senator Milbourne has introduced a bill repealing the judges' pension law.

Delegate Walker has pushed his Chester river bridge bill to its final passage through the House.

Delegate Miller has introduced a bill amending the charter of Rock Hall in which a section of the town is to be eliminated from the charter.

The Committee in the House made an unfavorable report on the Woman Suffrage Bill No. 13 and it was put to death in the House. There is still another bill pending. A petition with 60,000 signers in favor of the bill was presented.

The bill to make 10 hours the limit of a work day for women passed its second reading in the House of Delegates after being amended to except canning and preserving and to permit one plant in Allegheny county to work women 12 hours for six weeks in a year.

Senator Beck has introduced a bill to amend the game law of Kent county relating to wild fowl.

Delegate Harris has introduced bills amending the charter of Betterton; amending the Treasurer's law; extending the tonging season for this year, and regulating insurance.

INITIATIVE—REFERENDUM—RECALL

"A Subscriber," writing from Richmond, asks the exact nature of the initiative, referendum and recall. In answering his question, we may be able to make clear to other minds the meaning of these terms.

Defining the referendum, the International Encyclopedia says: "The term is applied to the practice of submitting laws to the electorate for approval or rejection. In the application of the referendum the law is first formulated by the legislative body or the constituent assembly, and is then submitted to the electorate." Thus, in the case of constitutional amendments, the Legislature must refer the proposed amendment to the people for approval or rejection. Here in Baltimore we have the referendum applied to city loans, no loan being legal until approved by a majority vote.

"The logical complement of the referendum," says the International Encyclopedia, is the initiative, by means of which the people are enabled to draw up their own measures and have them voted on without the intermeditation of the Legislature. By this method a petition signed by a certain proportion of the voting constituency is presented to the Legislature, requesting that a certain measure be submitted to the popular vote. This, the Legislature is bound to do without change in the measure, although it may submit an alternative measure to be voted on at the same time."

The latest edition of the Century Dictionary quotes as follows from an article in the Outlook: "Direct legislation consists of two things, the referendum and the initiative. The referendum alone is negative, preventive; the initiative, with the referendary voting, is positive, constructive."

In other words, the referendum gives the voters the power to reject any law passed by the Legislature which they disapprove. The initiative gives them

Anniversary of Napoleon's Return.

Washington, Feb. 26.—Ninety-seven years ago, on February 26th, Napoleon "came back" from Elba, and politicians here today regarded the return of Roosevelt to the political arena as having precisely the same imports as did that return.

COLONEL ROOSEVELT, who last week stated that he had thrown his hat into the ring, has accepted President Taft's challenge by following his hat. In a statement issued Sunday, in reply to the letter addressed to him several weeks ago by the Governors of seven States and other admirers, Col. Roosevelt announces that he will accept the nomination for President if it is offered to him, and that he will remain in the contest for that honor until the National Republican Convention has reached its decision. Sick 'em, Teddy!

Live Millington Personals.

It's quite a trick to adjust glasses

the way it should be done. Only an optician can do it. And he needs the most ingenious appliances to help him.

It's a great mistake for a person to choose his or her own glasses from a big pile of ready-made ones.

There is hardly one chance in a hundred that they will be a fit—and when they don't fit, a person might far better go without any.

We will examine your eyes for you free of charge any day you call.

DE LAVAL CREAM SEPARATORS

The World's Standard

Used Exclusively by 98% of World's Creameries

Ten years ago there were a dozen different makes of creamery or factory separators in use. To-day over 98 per cent of the world's creameries use De Laval separators exclusively.

When it comes to buying a separator why not profit by the experience of the creameryman, which qualifies him to advise you correctly.

He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent of the world's creameries use the De Laval exclusively.

There can be no better recommendation for the De Laval than the fact that the men who make the separation of milk a *business* use the De Laval to the practical exclusion of all other makes. They *know* from experience.

Easiest to turn, easiest to wash, skims the cleanest, lasts the longest.

SOONER OR LATER YOU WILL BUY A DE LAVAL

YOU might as well have YOUR JEWELRY REPAIRED PROPERLY when the COST is no greater

A good many think that a simple job like putting a new pin in a brooch can only be done one way, and that it matters no difference where the work is done.

Next time you have some jewelry to repair bring it here and you will see the difference. We take just as much pains with a ten-cent job as we would with one costing many dollars.

Every article of jewelry left here to repair is polished and refinished like new, and you will be surprised at the transformation of some of the old pieces of jewelry that you are about ready to throw away.
