LEGISLATIVE NOTES.

The representatives and employes in the Legislature from Kent are an honor to the county and are all acquitting themselves worthily in their respective spheres.

We are sorry to report the continued absence of Delegate Miller on account of illness.

In an effort to remove the school system of Maryland from politics, as well as to prevent sudden changes in the supervisory force in the counties, the State Board of Education as now constituted will have introduced in the Legislature a bill as a substitute for both the Bellis and Lee measures. The measure will likely be introduced by Senator Beck, of Kent.

As explained by Dr. Stephens, the proposed bill eliminates political considerations from all appointments to school boards of State and counties. The State Board of Education is made the head of the school system of the State and is given the right to appoint the boards for the counties. In making these appointments there are no requirements in the measure that members of any party shall be selected.

The State Board is to consist of eight members—the Governor, the State Superintendent, the four members whose terms extend beyond next May: Messrs. Clayton Purnell, Dr. T. H. Lewis, H. C. Longnecker and Thomas H. Bock, and Joseph D. Baker, of Frederick, and Stevenson A Williams, of Harford—who are named in the bill.

Every two years the terms of two members expire, and the Governor is authorized to make appointments without reference to the political affiliations of the appointees. After the expiration of Dr. Stephens' term, the State Superintendent shall be appointed by the State Board of Education.

No change is made in the number of Commissioners in the counties as now constituted, but the requirements for majority and minority members are eliminated.

As To County Superintendents.

County superintendents are to be appointed by the county boards from year to year; but can only be removed upon 30 days' notice in writing. Upon demand of the removed official the county board is required to give reasons in writing and the superintendent has the right to appeal to the State board.

These changes in the law are designed, it is declared, to give more permanency to the school system, as well as to remove it as far as possible from suspicion of political influence. The State board, composed of the Governor, Superintendent and six high-class men selected at large, would be presumed to deal with educational questions in a broad-minded way and with the best interests of the schools at heart.

It is believed by those back of the measure that the Governor will sign such a bill. It is free from the objections Dr. Stephens points out, that might be raised against the Bellis bill, which provides for a bi-partisan School Board in each county.

BANKS IN KENT

Some Interesting Figures Showing The Business Transacted By The Banks In Kent County.

According to the published statements of the banks in last week's NEWS, the total business of the six banks at that time reached nearly two million the exact amount being $1,795,640.57. This is probably the best index of bank conditions for comparative purposes, although they make a lesser showing than those of the active and producing business seasons of the year in this county. The general and stable prosperity of the farming and other local interests is reflected in the great total of bank deposits—$1,423,543.51. The deposits include both commercial checking accounts and savings and time deposits, and a good proportion of the latter class appear in the statements, showing that the thrifty people of the county recognize the prudence and value of patronizing the savings departments of the banks.

In surplus funds and undivided profits, and loans and discounts, and other banking features the figures of the statements are interesting and instructive. The capital stock of various banks follow:

Chestertown Bank	$ 20,525 00

FOR WASHINGTON COLLEGE.

Chief Judge James Alfred Pearce, Senator William W. Beck, Dr. James W. Cain, Ex-Senator Clarence W. Perkins, Capt. C. E. Crane, Samuel Vannort, Harry J. Hopkins, Harrison W. Vickers, Jr., and William B. Usilton, representing Washington College, were given a hearing before the Finance Committee of the Senate and the Ways and Means of the House of Delegates on Tuesday afternoon last at Annapolis.

Dr. Cain conducted the case for Washington College and gave a brief history of the College, the work it has done and is doing and its present needs. It is now asking for $20,000 for each of two years with which to build a gymnasium and increase the library. Dr. Cain said that the State of Maryland had never given Washington College a dollar for new buildings (a fact that not many people were aware of).

Judge Pearce gave an able and most interesting talk of his connection and personal knowledge of what Washington College was doing and the kind of man she was furnishing the State. The two legislative committees seemed to listen most intently to our learned judge and were deeply impressed by his speech.

Senator William W. Beck gave a splendid address upon the needs of the college for a gymnasium and how far we were behind other colleges in this respect. Senator Beck, with his well-chosen and apt words, seemed to clinch the words of the former speakers and all could not help but feel sure that Washington College would be dealt with by the legislature in a just and generous manner.

Senator Campbell, chairman of the Finance Committee, presided at the meeting.

CHAUTAUQUA ASSURED.

A Week of Splendid Entertainments to be Brought to Chestertown in June—A Chance For a Gala Week.

Dr. A. E. Turner and Mr. Carl Collier, gentlemen of distinguished scholarly attainments and polished address, representing the Chautauqua Association, presented in such forceful manner the advantages to accrue to Chestertown and community, that, at a meeting held in Firemen's Hall recently all were convinced that a Chautauqua is "a good thing" and by unanimous vote decided to "push it along." A committee composed of Judge W. Bradford Copper, Messrs. Allan A. Harris, Wm. F. Russell and A. Parks Rasin was appointed to undertake the disposition of a sufficient number of season tickets to guarantee the success of the project. Mr. Fred. G. Usilton was chairman of the meeting.

At a later meeting Messrs. C. C. Jones and Kemp Bordley were appointed to "feel the pulse" of the people. A guarantee of 300 season tickets at $2 each secured and Mr. Collier left here Saturday with the promise that the Chautauqua was a settled fact for Chestertown. A date early in June will likely be settled upon and the program as outlined in the NEWS presented in a tent seating 2,000. Fuller particulars later.

Now, the NEWS would suggest that the Automobile Club get busy and arrange for a parade and show, with prizes for decorations, etc., the same week.

The NEWS would also state that a $5 gold piece will be presented to the business house having the best and most striking decoration during the week. Of course every business house will fly the American flag.

Let's make it a gala week and continue the decorations throughout College Week.
