Overland

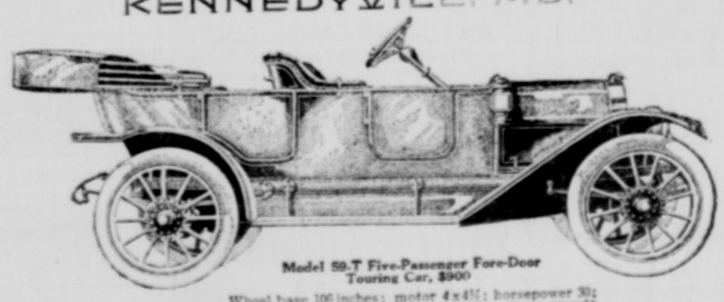

$900 Buys You All You Need in an Automobile

THIS Overland (Model 59) at $900 is absolutely all any one would want in a car. Compare it with any $1250 car on the market, and you'll find but little difference. You know that most of the $1250 cars are of the 30-horsepower type. This $900 car has a 30-horsepower motor. Seats five people comfortably. It is big and roomy. Has a staunch pressed steel frame, selective transmission with F & S annular bearings—the best made. Has strength, power and speed—more than you will ever care to use. The body design and finish is simple, graceful and beautiful. Upholstery is of good leather, hand stuffed with fine hair. In every respect it is a thoroughly high grade machine.

¶ And it is a fact that no other maker in the business can build this car and sell it at this price without losing money. This is due to the enormous manufacturing facilities of the Overland Company—*the largest in the world*. The manufacturer who turns out but 5,000 cars *must* have greater production costs, for each car, than the Overland Company, who make over 20,000 cars.

¶ They have published a very interesting and simply written book which explains why the largest automobile factory in the world can give more for less money than the small factory. Stop in and get a copy. It will show you how to save money when you buy your car. This also explains in detail the remarkable value of this $900 touring car and illustrates with handsomely colored plates the complete 1912 line. Better come in at once.

The Famous Ford

No matter where you go you see more Ford Automobiles than any other make

Fully Equipped $690 F. O. B. Factory

THERE'S A REASON

More than 100,000 owners have shown to the world that the little FORD is the biggest, greatest Automobile value in Automobiledom.

These same owners have shown that the FORD can be maintained and run at a cost so much lower than any other. If these were not facts would the John Wanamaker stores of New York and Philadelphia buy 50? Would the Bell Telephone Co buy 50? Would the New York Fire Department buy 10 for its batallion chiefs?
